Swami Vivekananda's History of Universal Religion and its Potential for Global Reconciliation Sister Gayatriprana, 2020-04-05. In the words of Swami Vivekananda (1863-1902), this book is a history of Vedanta, a deeply subjective Indian spiritual tradition going back to prehistoric times. There, God is experienced and known directly in the depths of the human soul. We learn of the social structures, philosophical schools, and practices of self-transformation at its heart and how the tradition withstood a millennium of subjugation to Western Abrahamic religions with their extra-cosmic deity and deep distrust of Vedantic subjectivity. Vivekananda speaks from the level of *vijnana* that permits integration of both Indian subjectivity and Western objectivism, opening a door to their conciliation with each other and indeed to any other of the global spiritual traditions. An artist, medical doctor, and Vedantic nun, Gayatriprana seeks to integrate Western science and Vedanta as in her doctoral thesis *Learning in Depth: A Case Study in Twin 5x5 Matrices of Consciousness*. <https://jeanmacphail.academia>

Nectar #33 Swami Brahmeshananda, Annapurna Sarada, Rabbi Rami Shapiro, Swami Bhuteshananda, Babaji Bob Kindler, Lex Hixon, Llewellyn Vaughn-Lee, Swami Aseshananda, 2018-01-01. In an issue dedicated almost entirely to the spiritual artform of meditation, *Nectar of Nondual Truth* explores and presents this most needed and necessary facet of spiritual life through the lighted windows of various religious traditions in conscious operation in today's world. Yogic based eight limbed meditation upon everything from objects in matter to the realization of a yogi's conscious Essence is taken up. Meditation on the timeless beneficial utterance of divine names in a tradition that also favors Reality as nameless is studied thoroughly by a Rabbi via the Jewish tradition. Then even the very breath that utters the divine names is inspected in an article on meditation by a teacher in the Sufi tradition. The striking and sobering question asked in several traditions of India, that of Who Am I, is looked at first hand by an advanced meditator on personal retreat in the Chan/Zen tradition who then also takes his place as an interviewer to question a Japanese Roshi about meditation practice in the Soto Zen tradition. Three revered Swamis of the Ramakrishna Order offer up their insights into this superlative examination of meditation and meditator from different perspectives. Specifically the very purpose of sitting still and looking within to find the purpose of the entire practice is presented by a long time practitioner and finally an article scrutinizing this most subtle of all yogas from the succinctly nondual position is pondered via the noble Advaita Vedanta perspective. Thus does this age old and crucial principle of inmost practice known in Raja Yoga as the singular doorway to Samadhi or Nirvana receive a thorough observation from all angles of sensitive experienced human awareness.
