Caring for the People of the Clouds Jonathan Yahalom,2019-04-04 In rural Mexico people often say that Alzheimer's does not exist People do not have Alzheimer's because they don't need to worry said one Oaxacan explaining that locals lack the stresses that people face over there that is in the modern world Alzheimer's and related dementias carry a stigma In contrast to the way elders are revered for remembering local traditions dementia symbolizes how modern families have forgotten the communal values that bring them together In Caring for the People of the Clouds psychologist Jonathan Yahalom provides an emotionally evocative story rich analysis of family caregiving for Oaxacan elders living with dementia Based on his extensive research in a Zapotec community Yahalom presents the conflicted experience of providing care in a setting where illness is steeped in stigma and locals are concerned about social cohesion Traditionally the Zapotec or people of the clouds respected their elders and venerated their ancestors Dementia reveals the difficulty of upholding those ideals today Yahalom looks at how dementia is understood in a medically pluralist landscape how it is treated in a setting marked by social tension and how caregivers endure challenges among their families and the broader community Yahalom argues that caregiving involves more than just a response to human dependency it is central to regenerating local values and family relationships threatened by broader social change In so doing the author bridges concepts in mental health with theory from medical anthropology Unique in its interdisciplinary approach this book advances theory pertaining to cross cultural psychology and develops anthropological insights about how aging dementia and caregiving disclose the intimacies of family life in Oaxaca

Fascism: The social dynamics of fascism Roger Griffin,Matthew Feldman,2004 The nature of fascism has been hotly contested by scholars since the term was

first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

Sermons of Arthur C. McGill Arthur C. McGill, 2007-01-01 Throughout the 1960s and 1970s Arthur McGill had numerous opportunities to air his rich theological musings outside of the classroom We are now fortunate some twenty five years after his death to have seventeen sermons brought to us by the aid of his wife Lucille McGill and editor David Cain University of Mary Washington These homilies reveal the core themes that distinguish his theological writings relaxing in our neediness before God participating in the death to life pattern of self expenditure and rooting our hope in the unique power of Christ The collection culminates with what Cain notes as McGill s signature sermon on The Good Samaritan wherein we see that the reception of grace always precedes the extension of grace In addressing day to day issues such as possessions speech loneliness and anger McGill is both prophetic and pastoral He does not hesitate to say that the wickedness of Nineveh alas is the wickedness of the United States At the same time he brings a refreshing word with theological depth about human suffering and the God who models ultimate vulnerability This book is Theological Fascinations Volume One marking the hope that further volumes might emerge from the papers of Arthur C McGill evidencing the richness of his theological fascinations

Racism Postcolonialism Europe Graham Huggan, Ian Law, 2013-08-29 Racism Postcolonialism Europe turns the postcolonial critical gaze that had previously been most likely to train itself on regions other than Europe and sometimes those perceived to be most culturally or geographically distant from Europe back on Europe itself The book argues that racism is alive and dangerously well in Europe and examines this racism through the lens of postcolonial criticism Postcolonial racism can be a racism of reaction based on the perceived threat to traditional social and cultural identities or a racism of false respect based on mainstream liberals desire to hold at arm s length different cultures they are anxious not to offend Most of all postcolonial racism at least within the contemporary European context is a racism of surveillance whereby foreigners become aliens protection disguises preference and cultural difference slides into racial stigmatization all in the interests of representing the European people which is a very different entity to the European population as a whole Boasting a broad multidisciplinary approach and a range of distinguished contributors including Philomena Essed Michel Wieviorka and Griselda Pollock Racism

Postcolonialism Europe will be required reading for scholars and students of race postcolonial studies sociology European history and literary and cultural studies [Couple and Family Psychoanalysis Volume 4 Number 1](#) Molly Ludlam,2014-03-30 Couple and Family Psychoanalysis is an international journal sponsored by Tavistock Relationships which aims to promote the theory and practice of working with couple and family relationships from a psychoanalytic perspective It seeks to provide a forum for disseminating current ideas and research and for developing clinical practice The annual subscription provides two issues a year [The Great Lie](#) F. Flagg Taylor,2023-10-03 The Most Insightful and Profound Reflections on Tyranny Totalitarianism was the dominant phenomenon of the twentieth century Deeply troubling questions endure regarding the nature of such tyrannical regimes What enabled human beings to carry out such horrific crimes against their fellow man What does the endurance of Communism reveal about human liberty Why did human beings suffer rule by ideological lies for so long and what kept them open to the truth What are we to make of the relationship between totalitarianism and the foundational principles of democratic modernity Some of the greatest minds of the twentieth century sought answers to these haunting questions Now for the first time ever their incisive and profound reflections on totalitarianism have been brought together in one book The Great Lie showcases the insights of such giants as Aleksandr Solzhenitsyn Vaclav Havel Hannah Arendt Eric Voegelin Czeslaw Milosz Leo Strauss and Raymond Aron along with neglected but important thinkers such as Waldemar Gurian Aurel Kolnai Leszek Kolakowski Pierre Manent Claude Lefort and Chantal Delsol The brilliant essays in this volume illuminate the very nature of totalitarian regimes and the monstrous ideology that is their defining feature The Great Lie allows readers to make sense of political evil and how it can attract so many people into its ideological fold This is not a matter of mere academic interest in an age when we confront totalitarianism in such regimes as North Korea and Cuba and arguably in radical Islamist movements **39 Forever** Paul M. Levitt,Elissa S. Guralnick,1986 Provides definitions for twenty six vocabulary words from abasement to zealot with stories containing puns that provide mnemonic devices for remembering the definitions [Reification](#) Timothy Bewes,2020-05-05 Of all the concepts which have emerged to describe the effects of capitalism on the human world none is more graphic or easily grasped than reification the process by which men and women are turned into objects things Arising out of Marx's account of commodity fetishism the concept of reification offers an unrivalled tool with which to explain the real consequences of the power of capital on consciousness itself Symptoms of reification are proliferating around us from the branding of goods and services to racial and sexual stereotypes all forms of religious faith the growth of nationalism and recent concepts like spin and globalization At such a time the term ought to enjoy greater critical currency than ever Recent thinkers however have expressed deep reservations about the concept and the term has become marginalized in the humanities and social societies Eschewing this trend Timothy Bewes opens up a new formulation of the concept claiming that in the highly reflective age of late capitalism reification is best understood as a form of social and cultural anxiety further that such an understanding returns the concept

to its origins in the work of Georg Lukcs Drawing upon writers including Kierkegaard Herman Melville Proust and Flannery O Connor he outlines a theory of reification which promises to unite politics with truth art with experience and philosophy with real life
