Valentine, 2003-01-22 Two developments during the modernist period the consolidation of psychiatry as a medical speciality and the emergence of psychoanalysis affected the representation of madness in literature They also influenced the ways psychic distress was experienced narrated and understood Literature and criticism in turn affected the formation of the modern psychological self Presenting detailed readings of both canonical and non canonical modernists like Virginia Woolf and Emily Holmes Coleman this book argues that modernist madness can be understood as experience clinical discourse and cultural representation *The Bang ...*, 1909 **The Rift** Peter David, 2001-04-13 Every thirty three years a rift in space connects the Federation with a mysterious race called the Calligar who live on a planet hundreds of light years away much too far to travel in a Starship Captain Kirk and the U S S Enterprise are dispatched to transport a Federation delegation of diplomats scholars and scientists who will travel to Calligar directly during the brief period of time that the rift will be open Mr Spock leads the Federation party as they travel by shuttle through the rift just as a group of the aliens arrive in Federation space The meetings go smoothly until the Calligar take Spock's party hostage and Kirk discovers that the aliens are keeping a deadly secret With angry Tellarite and Andorain fleets ready to attack the Calligar Kirk must save Spock and the others before war breaks out and the rift closes for another fifty years **The Living Age**, 1851 **The Jazz Image** K. **Harry's Ark** David Newcomb,2003-06-05 The story begins in Ponce Puerto Rico on Friday March 7 1947 Charlesville a financier representing Frances colonial interests in Indo China has backed the construction of a large high capacity helicopter intended for sale to the U S Army He is now on his way to Ponce to close the deal The aircrafts builder Harry Baird is a retired Army aeronautical engineer who relocated from Dayton s Wright Field to Ponce at the end of the war and took with him several other Wright Field engineers Since the aircraft these men built is the collateral on Charlesville s loan the threat Charlesville holds over Harry is to terminate the project and remove the aircraft to France something Harry will never let happen In the wake of a mishap during air trials the sales contract Harry has pursued in Charlesville s behalf fails to materialize Rather than tell Charlesville however Harry decides on a ruse to conceal the failure and devises a plan to fly the ship from Puerto Rico to Wright Field a record setting distance of two thousand miles His purpose is to use the publicity attending the flight to force the Armys hand in offering him the contract To help garner publicity Harry enlists the support of Patty Symms a twenty four year old photographer who made a name for herself through her work in England during the war But in Ponce Patty becomes involved in a story she only set out to report She falls in love with Harrys pilot Don Perry Don is a forty one year old Wright Field veteran who harbors the dream of becoming the Negro Lindbergh Already he has become Americas first African American test pilot and already suffered the abuse of the Armys racial prejudice Recognizing this prejudice and seeing its effects on Don Patty realizes that Don more than Harry or Harrys ruse is the true focus of her story But her burgeoning love for Don is poignant premised in part on the excitement of taboo for she is white Unable to resist caving in Don too falls in love Patty has brought out of him qualities long held in abeyance She has humanized the man and he has emboldened her In their affair each recognizes that while the worlds stage may be set for the appearance of a black hero Jackie Robinson arrived at the majors exactly at this time the world is far from ready to accept them as an item But the flight to Wright Field drives the story By the time the flight occurs we have seen the death of Harry Baird We have seen the jealousy his authority and obsessive ambition invoked The relationships between Harry and his men involve hostility quitting

blaming economic exploitation of minorities and the certain theme that dreams have a price often measured in pain And by the time the aircraft arrives at Wright Field the men have faced the challenge that freedom entails The flight to Wright Field raises the novel to its climax recording the movement of the story from common resentment through a transforming ordeal to a common bond of compassion and love In the sense that something happens to us all on the way HARRY S ARK could be likened to a pilgrimage or an odyssey or a homecoming or a voyage like Noah s for which it is named for it celebrates the second chance that deliverance implies To Patty and Don there occurs by the end of their journey a bond uniquely theirs that we have been privileged to share and we too come away with the same second chance to keep faith with how we got to where we are

*The Places of Early Modern Criticism* Gavin Alexander,Emma Gilby,Alexander Marr,2021-04-29 What is criticism And where is it to be found Thinking about literature and the visual arts is found in many places in treatises apologies and paragoni in prefaces letters and essays in commentaries editions reading notes and commonplace books in images sculptures and built spaces within or on the thresholds of works of poetry and visual art It is situated between different disciplines and methods Critical ideas and methods come into England from other countries and take root in particular locations the court the Inns of Court the theatre the great house the printer s shop the university The practice of criticism is transplanted to the Americas and attempts to articulate the place of poetry in a new world And commonplaces of classical poetics and rhetoric serve both to connect and to measure the space between different critical discourses Tracing the history of the development of early modern thinking about literature and the visual arts requires consideration of various kinds of place material textual geographical and the

practices particular to those places it also requires that those different places be brought into dialogue with each other This book brings together scholars working in departments of English modern languages and art history to look at the many different places of early modern criticism It argues polemically for the necessity of looking afresh at the scope of criticism and at what happens on its margins and for interrogating our own critical practices and disciplinary methods by investigating their history **Catholic Encyclopedia** ,1912 **The Catholic Encyclopedia: Tournon-Zwirner.
