Logging The Globe:

Logging the Globe Patricia Marchak, 1995-09-18 Patricia Marchak examines issues particular to the northern and southern regions and the global effects of trends in each region using British Columbia Brazil Chile Indonesia and Thailand as full case studies and Malaysia Myanmar and other south east Asian regions as shorter case studies She also examines Japanese forestry and the Japanese paper industry Logging the Globe provides in depth analyses of the restructuring of the global division of labour the effect of Japanese demand for pulp changes in employment production land policies and markets in northern countries deforestation plantation forestry and the influence of European North American and Japanese companies on tropical forests and peoples Marchak considers whether industrial forestry is sustainable and suggests ways in which global demand for forest products can be met in more efficient and more nearly sustainable ways Logging the Globe presents a global picture of a critically important environmental and social issue It will be of great interest to professionals in the industry policy makers and environmental activists and those concerned with environmental and social issues

Logging the Globe M. Patricia Marchak, 1995 With the growth of industrial forestry in the southern hemisphere and the restructuring of forestry in the northern hemisphere the industry is undergoing tremendous change Logging the Globe investigates the transformations that are taking place and their ecological social and economic impact **Logging the Globe** M. Patricia Marchak, 1995 **Annual Report** Public Service Commission of Washington, Washington Public Service Commission, 1919 **Washington Public Documents** Washington (State), 1912 *Environmental Blockades* Iain McIntyre, 2021-06-10 Since the 1970s environmental blockades disrupting the exploitation and destruction of forests rivers and other biodiverse places have been one of the most attention grabbing and contentious forms of political action This book explores when where and why environmental blockading and its associated tactics first arose The author explores a broad range of questions including how did tactics and practices first developed and popularised during environmental blockades come to feature regularly in animal rights peace refugee and other campaigns What are blockaders hoping to achieve How have such blockades and tactics shaped government policy the culture of modern politics and popular understandings of ecology colonialism and activism This book offers the first comprehensive history and analysis of environmental blockading in three key countries Australia the United States and Canada As the first places to experience sustained protest cycles which fully established promoted and developed the environmental blockading repertoire as an ongoing strategic option for movements nationally and internationally these campaigns were central in creating a new approach to conservation issues They also played a leading role in making obstructive direct action a regular part of political campaigning as seen in the form of the Extinction Rebellion XR alter globalisation climate justice and other movements This book draws on rigorous archival research including sources ranging from personal diaries campaign minutes and video footage through to police reports and newspaper articles as well as interviews with more than 30 protest leaders and campaigners It will be of great interest to

The Grey Undercurrent Felix Schürmann, 2023-04-03

By extending their voyages to all oceans from the 1760s onward whaling vessels from North America and Europe spanned a novel net of hunting grounds maritime routes supply posts and transport chains across the globe For obtaining provisions cutting firewood recruiting additional men and transshipping whale products these highly mobile hunters regularly frequented coastal places and islands along their routes which were largely determined by the migratory movements of their prey American style pelagic whaling thus constituted a significant though often overlooked factor in connecting people and places between distant world regions during the long nineteenth century Focusing on Africa this book investigates side effects resulting from stopovers by whalers for littoral societies on the economic social political and cultural level For this

purpose it draws on eight local case studies four from Africa s west coast and four from its east coast In the overall picture the book shows a broad range of effects and side effects of different forms and strengths which it figures as a grey undercurrent of global history
