Guild Dynamics In Seventeenthcentury Istanbul:

Guild Dynamics in Seventeenth-Century Istanbul Eunjeong Yi, 2004 Dealing with the guilds of seventeenth century Istanbul this volume provides new information and insights into guild organization issues of traditionalism and change and the complex nature of the relationship between the Ottoman state and its guilds **Forging Urban Solidarities** Charles L. Wilkins, 2010 As with most empires of the Early Modern period 1500 1800 the Ottomans mobilized human and material resources for warmaking on a scale that was vast and unprecedented The present volume examines the direct and indirect effects of warmaking on Aleppo an important Ottoman administrative center and Levantine trading city as the empire engaged in multiple conflicts including wars with Venice 1644 69 Poland 1672 76 and the Hapsburg Empire 1663 64 1683 99 Focusing on urban institutions such as residential quarters military garrisons and guilds and using intensively the records of local law courts the study explores how the routinization of direct imperial taxes and the assimilation of soldiers to civilian life challenged and reshaped the city s social and political order **The Return of the Guilds: Volume 16** Jan Lucassen, Tine De Moor, Jan Luiten van Zanden, 2008 Using recent approaches in economic social labour and institutional history this volume analyses guilds in the period 500 1700 AD *Plague and Empire in the Early Modern Mediterranean World* Nükhet Varlik, 2015-07-22 This is the first systematic scholarly study of the Ottoman experience of plague during the Black Death pandemic and the centuries that followed Using a wealth of archival and narrative sources including medical treatises hagiographies and travellers accounts as well as recent scientific research N khet Varlik demonstrates how plague interacted with the environmental social and political structures of the Ottoman Empire from the late medieval through the early modern era The book argues that the empire s growth transformed the epidemiological patterns of plague by bringing diverse ecological zones into interaction and by intensifying the mobilities of exchange among both human and non human agents Varlik maintains that persistent plagues elicited new forms of cultural imagination and expression as well as a new body of knowledge about the disease In turn this new consciousness sharpened the Ottoman administrative response to the plague while contributing to the makings of an early modern state *Transottoman Biographies, 16th-20th c.* Denise Klein, Anna Vlachopoulou, 2023-09-04 For centuries people moved between the Ottoman Empire Eastern Europe and Iran This book studies the biographies of individuals and groups as different as rulers and revolutionaries frontier bandits and merchants soldiers and slaves from the sixteenth to the twentieth centuries Following their journeys across borders the case studies of this volume emphasize the profound effect that mobility had on the lives and thoughtworlds of everyone with a Transottoman trajectory The chapters reveal breaks adjustments and continuities in people s biographies and the in betweenness that moving typically created **The Arabs of the Ottoman Empire, 1516-1918** Bruce Masters, 2013-04-29 This book discusses the role of Arabs in the Ottoman Empire for the four centuries that they were its subjects The conventional wisdom was that the Arabs were a subject people who resented or at best were indifferent to their Ottoman

overlords This book argues that two social classes Sunni religious scholars and urban notables were willing collaborators in the imperial enterprise and without whose support the Ottoman Empire would not have ruled the Arab lands for as long as they did

The Image of an Ottoman City Heghnar Watenpaugh, 2004-09-01 This urban and architectural study of Aleppo a center of early modern global trade draws upon archival and narrative texts architectural evidence and contemporary theoretical discussions of the relation between imperial ideology urban patterns and rituals and architectural form The first two centuries of Ottoman rule fostered tremendous urban development and reorientation through judiciously sited acts of patronage Monumental structures endowed by Ottoman officials both introduced a new imperial architecture from Istanbul and incorporated formal elements from the local urban visual language By viewing the urban and social contexts of these acts tracing their evolution over two centuries and examining their discussion in Ottoman and Arabic sources this book proposes a new model for understanding the local reception and adaptation of imperial forms institutions and norms

The Second Ottoman Empire Baki Tezcan, 2010-09-13 This book is a post revisionist history of the late Ottoman Empire that makes a major contribution to Ottoman scholarship

Narratives of Dependency Elke Brüggen, Marion Gymnich, 2024-05-20 Given that strong asymmetrical dependencies have shaped human societies throughout history this kind of social relation has also left its traces in many types of texts Using written and oral narratives in attempts to reconstruct the history of asymmetrical dependency comes along with various methodological challenges as the 15 articles in this interdisciplinary volume illustrate They focus on a wide range of different factual and fictional text types including inscriptions from Egyptian tombs biblical stories novels from antiquity the Middle High German Rolandslied Ottoman court records captivity narratives travelogues the American gift book The Liberty Bell and oral narratives by Caribbean Hindu women Most of the texts discussed in this volume have so far received comparatively little attention in slavery and dependency studies The volume thus also seeks to broaden the archive of texts that are deemed relevant in research on the histories of asymmetrical dependencies bringing together perspectives from disciplines such as Egyptology theology literary studies history and anthropology

Beyond Banks Christiaan van Bochove, Juliette Levy, 2025-05-06 Scholars of credit markets have long focused on banks but pre modern as well as modern economies often relied on non bank credit This edited volume brings together international examples from across history that highlight how guilds innkeepers moneylenders notaries networks of family members and friends and religious institutions among others mobilized credit before and even along banks The volume operationalizes a common terminology and set of questions to allow for comparisons between the wide range of bank and non bank credit arrangements across the globe and across time It will be of interest to financial and economic historians economists and many other scholars in the humanities and social sciences

Crisis and Rebellion in the Ottoman Empire Aysel Yildiz, 2017-01-30 In 1807 the reformist Sultan Selim III was overthrown in a palace coup enacted by the elite special forces of the day the Janissaries The Ottomans were bankrupt and had been forced to make peace with

Napoleon after Austerlitz but it was Selim III's efforts to reform an empire that had suffered successive military defeats and to reform along the lines of modern principles with an end to the privileged feudal position of many in elite Ottoman civil military society which sealed his fate. This book seeks to situate Turkey's reactionary revolutions of 1807 into a wider European context that of the French Revolution and the outbreaks of revolutionary activity in the German states Britain and the US. The Ottoman Empire was an interconnected and crucial part of this early modern world and therefore Aysel Yildiz argues must be analyzed in relation to its European rivals. Focusing on the uprising and the socio economic and political conditions which caused it this book re-orientates Ottoman history towards Western Europe and re-situates the late Ottoman Empire as a key battle ground of political ideas in the modern era. *Global Economic History* Tirthankar Roy, Giorgio Riello, 2024-09-05 Guiding the reader through the many guises of global economic history this book uncovers its key issues debates and subjects. The years between 1800-1820 were crucial. Until 1805 a spectacular revival of privateering allows the author to present the men the practices and the results gained by the privateers. From 1805 to 1814 the Maghrib states gave up a great part of privateering on behalf of transportation and seaborne trade taking advantage of their neutrality during the Napoleonic wars. The peace in 1814 and the internal weaknesses of the regencies carried away this original attempt. After Lord Exmouth's expedition in 1816 for the first time since three centuries the Maghrib is prohibited from any seaborne activities and under the mercy of Europe. **A History of Social Justice and Political Power in the Middle East** Linda T. Darling, 2013 This book provides a comprehensive survey of the exercise of political power and justice in the Middle East from ancient Mesopotamia through into the 20th century through a detailed examination of the Circle of Justice. In the eighteenth century changes in the nature of work family life sexuality education law religion politics and warfare radically altered the lives of women. Some of these developments caused immense confusion and suffering others greatly expanded women's opportunities and worldview long before the various women's suffrage

movements were more than a glimmer on the horizon This study pays attention to queens as well as commoners respectable working women as well as prostitutes women physicists and mathematicians as well as musicians and actresses feminists as well as their critics The result is a rich and morally complex tale of conflict and tragedy but also of achievement The book deals with many regions and topics often under represented in general surveys of European women including coverage of the Balkans and both European Turkey and Anatolia of Eastern Europe of European colonial expansion particularly the slave trade and of Muslim Eastern Orthodox and Jewish women s history Bringing all of Europe into the narrative of early modern women s history challenges many received assumptions about Europe and women in past times and provides essential background for dealing with issues of diversity in the Europe of today The Ottoman World Christine

Woodhead,2011-12-15 The Ottoman empire as a political entity comprised most of the present Middle East with the principal exception of Iran north Africa and south eastern Europe For over 500 years until its disintegration during World War I it encompassed a diverse range of ethnic religious and linguistic communities with varying political and cultural backgrounds Yet was there such a thing as an Ottoman world beyond the principle of sultanic rule from Istanbul Ottoman authority might have been established largely by military conquest but how was it maintained for so long over such distances and so many disparate societies How did provincial regions relate to the imperial centre and what role was played in this by local elites What did it mean in practice for ordinary people to be part of an Ottoman world Arranged in five thematic sections with contributions from thirty specialist historians The Ottoman World addresses these questions examining aspects of the social and socio ideological composition of this major pre modern empire and offers a combination of broad synthesis and detailed investigation that is both informative and intended to raise points for future debate The Ottoman World provides a unique coverage of the Ottoman empire widening its scope beyond Istanbul to the edges of the empire and offers key coverage for students and scholars alike **Artisan Entrepreneurs in Cairo and Early-Modern Capitalism (1600-1800)** Nelly

Hanna,2011-06-16 Little has been written about the economic history of Egypt prior to its incorporation into the European capitalist economy While historians have mined archives and court documents to create a picture of the commercial activities networks and infrastructure of merchants during this time few have documented a similar picture of the artisans and craftspeople Artisans outnumbered merchants and their economic weight was considerable yet details about their lives the way they carried out their work and their role or position in the economy are largely unknown Hanna seeks to redress this gap with Artisan Entrepreneurs in Cairo and Early Modern Capitalism 1600 1800 by locating and exploring the role of artisans in the historical process Offering richly detailed portraits as well as an overview of the Ottoman Empire s economic landscape Hanna incorporates artisans into the historical development of the period portraying them in the context of their work their families and their social relations These artisans developed a variety of capitalist practices both as individuals and collectively in their guilds Responding to the demands of expanding commercial environments in Egypt and Europe artisans

found ways to adapt both production techniques and the organization of production Hanna details the ways in which artisans defied the constraints of the guilds and actively engaged in the markets of Europe demonstrating how Egyptian artisan production was able to compete and survive in a landscape of growing European trade Deftly synthesizing a wide range of economic and historical theory Hanna reinvigorates the current scholarship on early Ottoman history and provides a persuasive challenge to the largely shallow perception of artisans role in Egypt s economy

Ransom Slavery along the Ottoman Borders Geza David,2007-08-31 Notwithstanding the spectacular upswing in the research there are areas of Ottoman slavery that have still not received the attention they deserve This volume intends to take a step towards bridging this gap The twelve studies it contains are organised around connected themes the hunt for the trade in and the treatment of captives in the Balkans and in Central Europe The area under scrutiny is focussed on Hungary and some other border regions extending from the Crimea to Malta It offers both an analytic and synthetic approach based on a great deal of so far unpublished Ottoman and European archival material It not only examines Christian slavery in the Ottoman Empire but also provides greater insight into the tribulations of Ottoman slaves in the Christian world and sheds light on the devastating effect of captive related transactions on trade and sometimes on the financial position of whole communities

Conversion to Islam in the Balkans Anton Minkov,2004-01-01 By examining available demographic data and petitions submitted by non Muslims for accepting Islam this volume convincingly reconstructs the stages of the Islamization process in the Balkans and offers an insight to the motives and factors behind conversion

Emotions in the Ottoman Empire Nil Tekgül,2022-12-15 Exploring the political social and familial ties in early modern Ottoman society this book is a timely contribution to both the history of emotions and the study of the Ottoman Empire Spanning love and compassion in political discourse gratitude in communal relations to affection in the home Emotions in the Ottoman Empire considers the role of emotions in both micro and macro settings Drawing on Ottoman primary sources such as advice manuals judicial court records and imperial decrees this book claims that the contested concept of protection related to how and who to protect was culturally specific and historically contingent and stands at the center of all debates about how the Ottoman empire and society itself employed the politics of difference It explores what it felt like to protect and be protected in the early modern era and how Ottoman subjects conceptualized the unequal power relations The central argument of the book is that it was emotions in the early modern era which provided the meaning of the concept of protection It also traces change in meaning of protection in the nineteenth century and explores how emotions transformed or got lost in social political and familial relations during the period of modernization Highlighting a culture that has so far been neglected in the history of emotions this book looks to globalise the field and think more deeply about Ottoman society in the early modern period
