Guitar Collection Of Roger Hudson Cd Set:

Roger Hudson Solo Guitar Works Volume 1, 1988-1999 Roger Hudson, 2020-01-09 22 original compositions for solo classical or fingerstyle guitar All titles composed by Roger Hudson between the years 1988 1999 This collection represents the earliest efforts to put my musical ideas for solo guitar on the written page Many of the pieces in this collection are in older popular styles blues rags etc Some pieces in this book are definitely heavier than others It certainly is not a collection of easy pieces I have always composed what I enjoy composing and have never given too much thought to difficulty or whether or not a piece is deemed concert worthy My compositional pendulum freely swings from the simple to traditional to more esoteric without much concern Whether at casual or formal performances many of my original pieces were and still are regularly intermingled with standard repertoire As far as categorization I will leave it up to those who sense the duty to determine what could be considered classical as opposed to fingerstyle In 1994 About half of the pieces featured here were included in my first album release called *Guitarchitecture* In *The Guitar Foundation of America's* journal *Soundboard* classical microtonal guitarist John Schneider reviewed the CD and spoke of many gorgeous moments So at least in that case the academic leaning classical guitar world seemed to like my music Experience has shown that my compositions are also liked by a cadre of fingerstyle guitarists Because of this I am offering separate versions of this collection in tablature as well as standard notation in an attempt to please everyone
