Smith, 1994-08-01 **Secrets of the Fourth Way** Alan Francis, 2022-04-05 A collage of memoirs and reflections commentaries personal insights and exercises all of which are invaluable to student s of G I Gurdjieff s teachings **The Secret Influence of the Moon** Louis Proud, 2013-12-01 The Moon is not a cold dead rock but a rich fascinating world just as alive as Earth Investigates the Moon as the home of an alien intelligence who controls humanity Examines several of NASA s Apollo missions and the findings they concealed Reveals the many holes in the Giant Impact theory about the Moon s origins and the evidence for a hollow artificial Moon Explores the deep influence of the Moon on the collective mind of humanity and occult teachings about the Moon from the Qabbalah tarot and other sources Despite being the most prominent celestial body after the Sun the Moon has many qualities that science has yet to explain Lunar rock samples reveal the Moon once had a magnetic field like the Earth and seismic experiments by NASA suggest the Moon is at least partially hollow For centuries people have observed lights moving clouds and shadows and even the disappearance of entire craters via telescope Apollo astronauts repeatedly felt the presence of a non human intelligence during their Moon visits and many indigenous traditions speak of malevolent visitors from the Moon A growing body of astrophysical and geological evidence shows the Moon is not an entirely natural world that someone or something altered it long ago Louis Proud explores the phases and movements of the Moon along with its ancient and mysterious features its craters maria rilles tunnels and domes He examines several of NASA s Apollo missions showing not that NASA faked the Moon expeditions but that they concealed what the astronauts found there He explains the many holes in the commonly accepted Giant Impact theory of the Moon s origins and reveals the evidence for a hollow artificial Moon placed in orbit eons ago to observe Earth Examining the deep influence of the Moon on the collective mind of humanity Proud looks at what the Qabbalah the tarot and other occult traditions say about the Moon

and interprets G I Gurdjieff's teachings that we are food for the Moon. He investigates the Moon as a gateway to another realm as the Purgatory of Christianity and as the home of an alien intelligence who controls and exploits humanity. Examining the Moon from both scientific and esoteric perspectives, Proud shows the Moon is not a cold dead rock but a rich fascinating world just as alive as Earth. Gurdjieff's America Paul Beekman Taylor, 2004. Offers information and stories about Gurdjieff setting him within the cultural and social contexts of America between 1924 and 1935. **Awakening Exercises!** Miguel Angel Sosa Cravioto, 2015-03-25. This is to introduce the first series of awakening exercises as interpreted from the writings of G I Gurdjieff and P D Ouspensky. These exercises have been used for many years by the Fourth Way Group meeting in Puerto Vallarta, Jalisco, Mexico, the Institute for the Harmonious Development of the Human Being. Perhaps we have learned the terminology, the buzz words, but don't have the ability to connect the pieces of the puzzle to truly understand. More specifically, we have too much information for our formative apparatus to properly handle. I have written this book as another tool to help us to bridge the gap between having information and the possibility for real understanding. So if my efforts provide new understandings, wonderful! If the Awakening Exercises helps one to develop self-observation, fantastic! With practice and time, it is my hope that this book will lead you to the first stages of your real awakening and in due time to the possibility to remain in that state. **The Law of Vibration** William D. Gann, 2013-02-25. In *The Law of Vibration*, Tony Plummer presents a new theory which he argues is revealing of a fundamental truth about the deep structure of the universe. The Law is embodied in a very specific pattern of oscillation that accompanies change and evolution. It can be found in fluctuations in stock markets and in economic activity. The research here suggests that the pattern was known about in antiquity because it was buried in a short passage in St. Matthew's Gospel in the Bible. It also suggests that it was known about in the early part of the 20th century because it was concealed in the structure of books written by the renowned stock market trader William D. Gann and by the mindfulness exponent George Gurdjieff. Both men chose to preserve their knowledge of the pattern in a hidden form for some unknown future purpose. Now, after 20 years of investigation, Tony Plummer tells the story of how the pattern was originally hidden. Drawing on painstaking research on gematria, the enneagram, and financial market analysis, Plummer reveals the existence of a behavioural pattern that may have profound implications for the way that we view the world. Plummer's work is elegantly structured and illustrated throughout. It is an exciting and thought-provoking study for Gann enthusiasts and also for investors, economists, and scientists who have an interest in the laws that underpin systemic coherence and produce collective order. *The Secret Teachers of the Western World* Gary Lachman, 2015-12-08. Running alongside the mainstream of Western intellectual history, there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy, inferior position somewhere underground. This other stream forms the subject of Gary Lachman's epic history and analysis, *The Secret Teachers of the Western World*. In this clarifying, accessible, and fascinating study, the acclaimed historian explores the

Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today Publisher s description      Philosophy and Art in Gurdjieff's Beelzebub Anna T. Challenger,2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff's world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff's masterpiece Beelzebub's Tales to His Grandson is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation      Initiates of Theosophical Masters K. of the trappings of civilization as we know it were needed explaining why there is no evidence of civilization as we know it left to testify to its existence The author s consummate synthesis reveals the Message in a Bottle reserved for humanity including the Cosmology and Mysticism of mankind Before the Fall when as the ancient texts tell us man walked and talked with the gods Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind or at least a portion of mankind has the opportunity to regain his standing as The Child of the King in the Golden Age If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world then surely The Secret History of the World and How to Get Out Alive is it      Occultism in a Global Perspective Henrik Bogdan,Gordan Djurdjevic,2014-09-11 The study of the ideas and practices associated with occultism is a rapidly growing branch of contemporary scholarship However most research has focused on English and French speaking areas and has not addressed the wider spread and significance of occultism Occultism in a Global Perspective presents a broad international overview Essays range across the German magical order of the Fraternitas Saturni esoteric Satanism in Denmark sexual magic in Colombia and the reception of occultism in modern Turkey India and the former Yugoslavia As any other form of cultural practice the occult is not isolated from its social discursive religious and political environment By studying occultism in its global context the book offers insights into the reciprocal relationships that colour and shape regional occultism      **Acorns: Windows High-Tide Foghat** Joshua Morris,2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around      **The Hermetic Code in DNA** Michael Hayes,2008-05-27 An examination of the precise code that connects ancient spirituality with modern science Shows how the numerical patterns in ancient philosophies are evident in both the structure of the universe and the helical structure of DNA Reveals that music theory comes from an intuitive understanding of the resonant harmony of the cosmos Many have observed the distinct numerical patterns embedded in ancient philosophies and religions from all over the world others have noted that these same patterns are apparent in many of the theories of groundbreaking science Michael Hayes reveals that there is a precise code the Hermetic Code that connects these patterns information once known to ancient cultures but apparently lost over time Mirrored in the structure of this code are the ordering principles of the universe and intriguingly also the harmonic ratios of music Our notions of what is harmonious in music may therefore arise not from an abstract aesthetic sense but as a response to an intuition of a fundamental cosmic harmony The resonance between biology and cosmology shows that life is music complete with overtones nowhere more strikingly present than in the helical structure of life itself DNA      Biography of an Idea Edward L. Bernays,2015-04-07 The father of public relations looks back on a landmark life spent shaping trends preferences and general opinion A twentieth

century marketing visionary Edward L Bernays brilliantly combined mastery of the social sciences with a keen understanding of human psychology to become one of his generation s most influential social architects In Biography of an Idea Bernays traces the formative moments of his career from his time in the Woodrow Wilson administration as one of the nation s key wartime propagandists to his consultancy for such corporate giants as Procter Gamble General Electric and Dodge Motors While working with the American Tobacco Company Bernays launched his now infamous Lucky Strike campaign which effectively ended the long standing taboo against women smoking in public With his vast knowledge of the psychology of the masses Bernays was in great demand advising high profile officials and counseling the tastemakers of his generation His masterful and at times manipulative techniques had longstanding influences on social and political beliefs as well as on cultural trends Biography of an Idea is a fascinating look at the birth of public relations an industry that continues to hold sway over American society
