Harry Livingstone's Forgotten Men Dan Black,2019-10-01

During the WWI more than 80 000 Chinese labourers were secretly transported from China across Canada to the Western Front where they built bridges and roads repaired tanks unloaded supplies and then after the war cleaned up the grisly battlefields Though the

use of Chinese labourers for the war has been known the story of their journey and their work and the role of Canadians in recruiting and transporting them has not been fully told until now In *Veil of Secrecy* Dan Black describes the perilous journey taken by the Chinese labourers from their remote villages in China across the North Pacific the vast country of Canada from Vancouver to Halifax and across the North Atlantic to the battlefields of Europe and then back again For political reasons and to prevent them from escaping the Chinese labourers were locked into cattle cars and forbidden to disembark during the journey The Canadian public too was kept in the dark about the trains But their experience is indelibly evident in graves across the country from Vancouver Island to Thunder Bay and Petawawa to Halifax One Canadian plays a central role in this story Captain Harry Livingstone a small town doctor from Listowel Ontario Livingstone joined the Canadian Army Medical Corps in 1917 at the age of 28 His first assignment was to go to northeast China to a recruitment depot where he examined poor young Chinese men to ensure they were fit for service He later joined them on their journey across the North Pacific to a quarantine station on Canada's West Coast Drawing on the diaries written by Livingstone and the letters of the Canadian missionaries who served as temporary officers with the corps in Europe Dan Black traces the experience of the Chinese Labour Corps and sheds new light on the mistreatment and racism they faced in Canada and in wartime Europe *PPACA Implementation* United States. Geoffrey Meen, Christine Whitehead, 2020-07-08 For many younger and lower income people housing affordability continues to worsen. Based on the academic research of two distinguished housing economists and stimulated by working with governments across the world, this wide-ranging book sets out clear theoretical and empirical frameworks to tackle one of today's most important socio-economic issues. Housing unaffordability arises from complex forces and a prerequisite to effective policy is understanding the causes of rising house prices and rents and the interactions between housing, finance and the macroeconomy. The authors challenge many of the conventional wisdoms in housing policy and offer innovative recommendations to improve affordability.

The Marriage Business Chinedu Nnadi, 2025-07-11 Kachi Obiagu has everything: wealth, power and the Midas touch in Nigeria's oil empire. But one impulsive vacation to Miami changes everything when he meets Sasha Monroe, a dazzling ex-supermodel with the face of an angel and the instincts of a predator. What begins as a whirlwind romance of private jets, luxury shopping and whispered promises quickly spirals into a high-stakes seduction. And the woman he adored walks away laughing, champagne in hand, already hunting her next victim. Now Kachi must confront a chilling truth in the world of the rich and ruthless: marriage isn't about love; it's a transaction. And he just became the most expensive lesson of all. Some deals are signed in ink. Others in blood. Welcome to *The Marriage Business*.

Power, Greed, and Hubris James R. Crockett, 2013-11-08 An infuriating tale of malfeasance among what should have been the state's most trusted servants.

The Skilled Killer J. R. Runnels, Alex Bryant barely twenty-two but standing a towering 6'11" and weighing in at a solid 250 lbs of muscle, felt the grit of the unforgiving surface grind against his skin. Even the coarse fabric of his training uniform chafed, a constant minor irritant adding to the overwhelming pressure. On a good day, this man could bench press 350 lbs, a testament to the raw power coiled within his imposing frame. This physical prowess, however, was merely the foundation upon which a far more lethal weapon was being forged. The brutal initiation into the clandestine world of the CIA's black ops program was relentless. He possessed a chilling, almost clinical detachment during these encounters, a strange, perverse satisfaction in the intricate dance of death, a twisted sense of accomplishment in transforming his body into a finely tuned instrument of destruction, a killing machine of unparalleled effectiveness. His mission, the thought sent a cold shiver down his spine. He had trained for this, prepared for this, yet the reality of it felt surreal, a nightmarish distortion of the brutal training that had shaped him. It was one thing to hone deadly skills in a controlled environment to practice the art of killing on inanimate targets. It was

another to apply those skills to a real life target a human being with a life a family a history He was hired to eliminate Sarah Stevens He was not prepared to make her daughter Amanda a orphan and she was not old enough to take care of herself Sarah Steven was supposed to be a liability that the CIA did not need to deal with The name a precise and elegant arrangement of syllables echoed in Alex Bryant s mind a stark counterpoint to the brutal faceless anonymity he had cultivated for so long The agency had honed him into a weapon a ghost in the machine trained to eliminate targets with clinical precision leaving no trace but the faintest whisper of absence Sarah was a brilliant pharmaceutical executive a woman of unwavering conviction a devoted mother She lived in a comfortable home in a quiet suburban neighborhood the life he had once dreamt of She could unravel intricate webs of data identify hidden patterns and predict outcomes with an accuracy that was both terrifying and exhilarating She d faced down skepticism ridicule and even outright sabotage her resolve unyielding Her courageous refusal to continue her research on The Devil s Breath the drug she herself had accidentally created a hallucinogenic compound of such terrifying potency that its mere existence sent shivers down the spines of even the most hardened government officials had branded her a traitor an enemy of the state The repercussions of her decision were far reaching and the shadows that now pursued her were far more dangerous than any she had encountered in her academic career Alex had a difficult decision ahead of him The choice clawed at him a visceral rip in his gut Follow orders and eliminate the target a cold calculated equation etched into his very being by years of brutal Agency training Or defy them protect the innocent Sarah her laugh a ghost in his memory her eyes the color of a storm wracked sea Amanda her smile a fragile bloom against the encroaching darkness His training screamed one course of action a chilling precise symphony of violence But his conscience a treacherous traitor howled a counterpoint a discordant wail of empathy and moral outrage He saw their lives unfurl in his mind s eye with agonizing clarity He decided to fight the sytem and save Sarah and her daughter no matter the cost The would fight not only the CIA but other organization that wish to silence her forever They traveled the world to find the truth the path to the truth would be deemed a long road They would suffer and their journey filled with perils but they would uncover the truth and they would find justice
