S. Rao,1994      **FINANCIAL MANAGEMENT** STEPHEN. FOERSTER,2018      Financial Management Harold Bierman,1986      Financial Management: Principles and Applications J William Petty,Sheridan Titman,Arthur J Keown,Peter Martin,John D Martin,Michael Burrow,2015-05-20 The sixth edition of Financial Management provides students with an overview of financial management suited to the first course in finance The focus of the text is on the big picture providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions Attention is paid to both valuation and capital markets as well as their influence on corporate financial decisions The 10 basic principles of finance are introduced in the first chapter and woven throughout the text to give students a solid foundation from which to build their knowledge of finance The goal of this text is to go beyond teaching the tools of a discipline or a trade and help students gain a complete understanding of the subject This will give them the ability to apply what they have learnt to new and as yet unforeseen problems in short to educate students in finance      **FINANCIAL MANAGEMENT** SHERIDAN. KEOWN TITMAN (ARTHUR J.. MARTIN, JOHN D.),2020      **Financial Management** Dr Manika Singla,2019-03-15 Financial Management Concepts Techniques is a useful resource for undergraduate students of management and commerce as well as for practising managers Management of finance is a

notoriously difficult core subject for business undergraduates which many find difficult to understand The area has been dominated by large and complex introductory texts often from the US which many lecturers students find too detailed and unwieldy This carefully developed and researched text will fill this gap by providing a succinct modular and easy to comprehend introduction to the subject of financial management The book has a total of 20 chapters that are divided into 6 units which is less than other financial management texts that reflect the changing needs of tutors and students It attempts to provide a clear understanding of the fundamentals of the subject including the concepts theories models tools and techniques and their applications Being focused on the logical discussion where it is needed for a contextual understanding of the topic makes the book different from others Since businesses today are no more confined to national boundaries and have become truly international Therefore this concise and compact text has also incorporated the basic concepts theories and practices of international business hence it would also be of immense value to practising professionals in the field of International Finance
