International Journal of Intelligence **Rights of Inclusion** David M. Engel, Frank W. Munger, 2003-04-15 Rights of Inclusion provides an innovative accessible perspective on how civil rights legislation affects the lives of ordinary Americans Based on eye opening and deeply moving interviews with intended beneficiaries of the Americans with Disabilities Act ADA David M Engel and Frank W Munger argue for a radically new understanding of rights one that focuses on their role in everyday lives rather than in formal legal claims Although all sixty interviewees had experienced discrimination none had filed a formal protest or lawsuit Nevertheless civil rights played a crucial role in their lives Rights improved their self image enhanced their career aspirations and altered the perceptions and assumptions of their employers and coworkers in effect producing more inclusive institutional arrangements Focusing on these long term life histories Engel and Munger incisively show how rights and identity affect one another over time and how that interaction ultimately determines the success of laws such as the ADA **Split Decisions** Janet Halley, 2008-04-01 Is it time to take a break from feminism In this pathbreaking book Janet Halley reassesses the place of feminism in the law and politics of sexuality She argues that sexuality involves deeply contested and clashing realities and interests and that feminism helps us understand only some of them To see crucial dimensions of sexuality that feminism does not reveal the interests of gays and lesbians to be sure but also those of men and of constituencies and values beyond the realm of sex and gender we might need to take a break from feminism Halley also invites feminism to abandon its uncritical relationship to its own power Feminists are in many areas of social and political life partners in governance To govern responsibly even on behalf of women Halley urges feminists should try taking a break from their own presuppositions Halley offers a genealogy of various feminisms and of gay queer and trans theories as they split from each other in the United States during the 1980s and 1990s All these incommensurate theories she argues enrich

thinking on the left not despite their break from each other but because of it She concludes by examining legal cases to show how taking a break from feminism can change your very perceptions of what's at stake in a decision and liberate you to decide it anew

that can inform both the conceptual and theoretical work of scholars and the day to day practice of social justice activists Contributors include Lennard J Davis Matthew Diller Harlan Hahn Linda Hamilton Krieger Vicki A Laden Stephen L Percy Marta Russell and Gregory Schwartz Backlash Against the ADA will interest disability rights activists lawyers law students and legal scholars interested in social justice and social change movements and students and scholars in disability studies political science media studies American studies social movement theory and legal history Linda Hamilton Krieger is Professor of Law University of California School of Law Berkeley
