Just Dogs:

Dog, Inc. John Woestendiek, 2010-12-30 What *Stiff* did for the dead and *Fast Food Nation* did for the burger *Dog Inc* does for the stranger than fiction world of commercial dog cloning It all began with a pit bull named Booger Former Miss Wyoming Bernann McKinney was so distraught over the death of her dog whom she regarded as her guardian and savior that she paid 50 000 to RNL Bio for the chance to bring her beloved companion back to life The result were five new Boogers the first successful commercial cloning of a canine delivered in 2008 along with a slew of compelling questions about the boundaries of science commerce and ethics Blending shocking investigative reporting with colorful anecdotes Pulitzer Prize winning John Woestendiek takes readers behind the scenes of this emerging industry But *Dog Inc* isn't just a book about pets Nor is it just a book about science Rather it's a fascinating look at how our emotional needs are bending the reaches of science and technology as well as a study of this uncharted territory With our pet obsession climbing to new heights and our scientific abilities even more so this combination raises a serious concern Are we crossing the boundary of controlling science in the name of science in the name of love in the name of merchandising or a blend of all three All Dogs are from Missouri Steven B. Reider, 2022-07-05 *All Dogs Are from Missouri* Basic Obedience the Show Me Way is an expansion from the basic obedience section of Steve's first book *From Sit to Gundog* He wanted to write a book for all the loving canine companion we call the family dog and their wonderful human companions And guess what Steve has done just that Steve shares his knowledge and training expertise throughout his book and addresses virtually every key step of dog ownership basic discipline and the how to of training which will turn your dog into a well behaved canine citizen The book is informative and fun to read and weaves a masterfully descriptive narrative with an attractive collection of corresponding illustrations and photographs Anyone who loves dogs and would love to train their next companion will appreciate the concepts and methods Steve has used on his own dogs and every dog that comes through *Dogs of the Feather* Beside every well trained dog is a very happy human companion This book will give you the ability to not only train your dog but create a bond that can only flourish with time Steve has always said that all dogs are from Missouri the show me state You show them what you want them to do show them how to do it make sure they understand it and once you know they understand it you reinforce that behavior If you asked Steve about dog training he would tell you that dog training is not rocket science it's an art Be an artist and paint the picture the show me way **Our Adventures in the Wild** Terry Simpson, 2007-07-11 In the book *Our Adventures In The Wild* the reader will experience the excitement of hunting Having wild game so close you could touch them Hair raising fear when wild bear are within ten yards of you face to face This book will tickle your funny bone as we take life on the light side You'll laugh with us at many junctions along the way as we explore the wonders of the great outdoors You'll be right there with us every step of the way So turn the pages and come along on a hunt on the trail or in our canoe Well even save you room in our tent **My Dog, the Meat Eater** Daniel Trask, 2003 Set on a farm in a small worn
