Jung And Aesthetic Experience:

Jung and Aesthetic Experience Donald H. Mayo, 1995 What is the source of artistic inspiration and the related effect of great art upon the audience or reader This work provides the best answer yet given to this difficult question that has been speculated upon by artists and in philosophic writings since Plato The author has extracted and explicated a coherent theory of aesthetics from Carl Jung s voluminous writings arguing that Jung s is the best explanation of the phenomenon of artistic inspiration Finally a scheme is proposed for a system of criticism based on Jung s writings *Jung on Synchronicity and Yijing* Young Woon Ko, 2011-01-18 Jung s understanding of Yijing for supporting the synchronistic principle reveals the key issues of his archetypal theory Jung s archetypal theory which is the basic motif of his understanding of Yijing illuminates the religious significance of Yijing Jung defines the human experience of the divine as an archetypal process by way of which the unconscious conveys the human religious experience In this way the divine and the unconscious mind are inseparable from each other For the human experience of the divine Jung s archetypal theory developed in a theistic tradition is encountered with the religious character of the non theistic tradition of Yijing From Jung s partial adaptation of Yijing however we notice the differences between Jung s archetypal psychology and the Yijing cosmological view This difference represents the difference between the Western and the East Asian tradition This aspect is well shown in the fact that Jung s theoretical assumption for the definition of archetype is deeply associated with Plato s Idea and the Kantian a priori category Accordingly Jung brings their timeless spaceless realm of archetype into the synchronistic phenomenon of the psyche and identifies the Yijing text with the readable archetype Yet the synchronistic moment that Jung presents is the phenomenon always involved in subjective experience and intuition which are developed in the duration of time The synchronistic phenomenon is not transcendent or the objective flowing of time in itself regardless of our subjective experience *Jung's Technique of Active Imagination and Desoille's Directed Waking Dream Method* Laner Cassar, 2020-06-07 Jung s Technique of Active Imagination and Desoille s Directed Waking Dream Method brings together Carl Jung s active imagination and Robert Desoille s r ve veill dirig directed waking dream method RED It studies the historical development of these approaches in Central Europe in the first half of the 20th century and explores their theoretical similarities and differences proposing an integrated framework of clinical practice The book aims to study the wider European context of the 1900s which influenced the development of both Jung s and Desoille s methods This work compares the spatial metaphors of interiority used by both Jung and Desoille to describe the traditional concept of inner psychic space in the waking dreams of Jung s active imagination and Desoille s RED It also attempts a broader theoretical comparison between the procedural aspects of both RED and active imagination by identifying commonalities and divergences between the two approaches This book is a unique contribution to analytical psychology and will be of great interest for academics researchers and post graduate students interested in the use of imagination and mental imagery in analysis psychotherapy and counselling The

book's historical focus will be of particular relevance to Jungian and Desoillan scholars since it is the first of its kind to trace the connections between the two schools and it gives a detailed account of Desoille's early life and his first written works. This book was a Grady Award nominee for 2021. **Jung on Art** Tjeu Van den Berk, 2012 First Published in 2012. Routledge is an imprint of Taylor & Francis, an informal company. **Carl G. Jung** Donald H. Mayo, 1990. **Jung's Red Book For Our Time** Murray Stein, Thomas Arzt, 2021-09-25 Edited by Murray Stein and Thomas Arzt. The essays in the series Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of *The Red Book Liber Novus* by C. G. Jung in 2009 was a meaningful gift to our contemporary world. *The Red Book* can be considered as a contribution to the Golden Chain aurea catena of the world's imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh. As Jung describes this tradition in a letter to Max Rychner, Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history beginning with the Gilgamesh epic, the I Ching, the Upanishads, the Tao te Ching, the fragments of Heraclitus and continuing in the Gospel of St. John, the letters of St. Paul, in Meister Eckhart and in Dante. *The Red Book* extends the Golden Chain into our era. Each of the 18 essays in this third volume of the series Jung's Red Book for Our Time is unique and all of them converge on the central theme of the relevance of *The Red Book* for people today in search of soul under postmodern conditions. This is the third volume of a multi-volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars:

Jung the Mystic Gary Lachman, 2010-06-24. This bold compact new biography of Carl Jung fills a gap in our understanding of the pioneering psychiatrist by focusing on the occult and mystical dimension of Jung's life and work, a critical but frequently misunderstood facet of his career. Although he is often called the founding father of the New Age, Carl Jung, the legendary Swiss psychiatrist best known for his groundbreaking concepts like the collective unconscious, archetype theory, and synchronicity, often took pains to avoid any explicit association with mysticism or the occult. Yet Jung lived a life rich in paranormal experiences, arguing for the existence of poltergeists in a debate with Sigmund Freud, participating in séances incorporating astrology into his therapeutic work, reporting a near-death experience, and collaborating with the pioneering ESP researcher J. B. Rhine. It is these critical experiences often fleetingly touched on in other biographies or critical studies and just as frequently used to make a case against Jung and his philosophies that form the core of this exciting new biography, *Jung the Mystic*. While Jung's ghostwritten memoirs *Memories, Dreams, Reflections* touch on the role his mystical and occult experiences played in his life, Gary Lachman's *Jung the Mystic* completes the circle. Lachman assesses Jung's life and work from the viewpoint of Western esoteric tradition and helpfully places Jung in the context of other major esoteric thinkers such as Rudolf Steiner, G. I. Gurdjieff, and Emanuel Swedenborg. In that respect, this new biography appeals directly to the sensibility of spiritual readers who rightly see Jung as a pioneer of today's contemporary metaphysical culture.

Jung and the Question of Science Raya A. Jones, 2013-12-17. *Jung and the Question of Science* brings to the foreground a

controversial issue at the heart of contemporary Jungian studies The perennial debate echoes Jung's own ambivalence While Jung defined his analytical psychology as a science he was aware that it did not conform to the conventional criteria for a scientific study in general psychology This ambivalence is carried into twenty first century analytical psychology as well as affecting perceptions of Jung in the academia Here eight scholars and practitioners have pooled their expertise to examine both the history and present day ramifications of the science issue in the Jungian context Behind the question of whether it is scientific or not there lie deeper issues the credibility of Jung's theory personal identity as a Jungian and conceptions of science wisdom and truth The book comprises a collection of erudite essays Part I and linked dialogues in which the authors discuss each other's ideas Part II The authors of Jung and the Question of Science share the conviction that the question of science is important but differ in their understanding of its applicability Drawing upon their different backgrounds the authors integrate Jung's insights with bodies of knowledge as diverse as neuroscience literary theory theology and political science Clinical practitioners psychoanalysts psychologists scholars and students interested in the Jungian perspective and the philosophy of science will find this book to be insightful and valuable

Varieties of Aesthetic Experience Craig Bradshaw Woelfel, 2018-10-15 An exploration of belief as an experience both secular and religious through the study of major literary works At the height of modernism in the 1920s what did it mean to believe and how was it experienced Craig Woelfel seeks to answer this pivotal question in *Varieties of Aesthetic Experience* Literary Modernism and Dissociation of Belief a groundbreaking exploration of the relationship between secular modernity and religious engagement Woelfel hinges his argument on the unlikely comparison of two revered modern writers T S Eliot and E M Forster They had vastly different experiences with religion as Eliot converted to Christianity later in life and Forster became a steadfast nonbeliever over time but Woelfel contends that their stories offer a compelling model for belief as broken and ambivalent rather than constant Narratives of faith its loss or gain are no longer linear but instead are just as fractured and varied as the modernists themselves Drawing from Eliot's and Forster's major and minor creative and critical works Woelfel makes the case for a dissociation of belief during the modern era a separation of emotional and spiritual religious experience from its reduction to forms He contextualizes belief in the modern era alongside modernist religious studies scholarship and current secularization theory with particular attention to Charles Taylor's *A Secular Age* paving the way for a more nuanced understanding of religious engagement at the time In *Varieties of Aesthetic Experience* Woelfel considers major literary works including Eliot's *The Waste Land* and Forster's *A Passage to India* as well as the Cambridge Clark Lectures and previously unstudied personal writings from both authors The volume revolves around a line from Eliot himself from a lecture in which he said that he wanted to see art and to see it whole Rather than excluding belief from the conversation Woelfel contends that modernist art can become a critical liminal space for exploring what it means to believe in a secular age

Re-Encountering Jung Robin S. Brown, 2017-09-11 Since the split between Freud and Jung psychoanalysis and analytical psychology have largely

developed in an atmosphere of mutual disregard Only in recent years have both discourses shown signs of an increasing willingness to engage Re Encountering Jung Analytical Psychology and Contemporary Psychoanalysis is the first edited volume devoted to a reconciliation between these two fields The contributors explore how Jungian thinking influences challenges and is challenged by recent developments in the psychoanalytic mainstream In examining the nature of the split figures from both sides of the conversation seek to establish lines of contrast and commonality so as to reflect an underlying belief in the value of reciprocal engagement Each of the chapters in this collection engages the relationship between Jungian and psychoanalytic thinking with the intention of showing how both lines of discourse might have something to gain from attending more to the voice of the other While several of the contributing authors offer new perceptions on historical concerns the main thrust of the collection is in exploring contemporary debates Re Encountering Jung reflects a unique undertaking to address one of the longest standing and most significant rifts in the history of depth psychology It will be of great interest to all academics students and clinicians working within the fields of psychoanalysis and analytical psychology

The Psychology of Art Appreciation Bjarne Sode Funch,1997 This book is more than an introduction to the psychology of art appreciation it puts into perspective the research carried out within the area and offers a new understanding of the relationship between art and viewer A number of studies within the psycho physical cognitive psychoanalytic and existential phenomenological schools of thought are presented in order to demonstrate how their views on the appreciation of visual art vary Five different types of art appreciation ranging from a spontaneous preference for a work of art to a blissful experience of transcendence are identified and described *The Transcendent Function* Jeffrey C. Miller,2012-02-01 The transcendent function is the core of Carl Jung s theory of psychological growth and the heart of what he called individuation the process by which one is guided in a teleological way toward the person one is meant to be This book thoroughly reviews the transcendent function analyzing both the 1958 version of the seminal essay that bears its name and the original version written in 1916 It also provides a word by word comparison of the two along with every reference Jung made to the transcendent function in his written works his letters and his public seminars **The Essence of Jung's Psychology and Tibetan Buddhism** Radmila Moacanin,2012-05-22 The Essence of Jung s Psychology and Tibetan Buddhism cuts to the heart of two very different yet remarkably similar traditions The author touches on many of their major ideas the collective unconscious and karma archetypes and deities the analyst and the spiritual friend and mandalas Within Tibetan Buddhism she focuses on tantra and relates its emphasis on spiritual transformation also a major concern of Jung This expanded edition includes new material on the integration of the two traditions and the importance of these paths of the heart in today s unsteady world *Reading the Red Book* Sanford L. Drob,2023-03-28 The long awaited publication of C G Jung s Red Book in October 2009 was a signal event in the history of analytical psychology Hailed as the most important work in Jung s entire corpus it is as enigmatic as it is profound Reading The Red Book by Sanford L Drob provides a clear and comprehensive

guide to The Red Book's narrative and thematic content and details The Red Book's significance not only for psychology but for the history of ideas

Transformative Teaching Darrell Dobson, 2008-01-01 This is a book that supports teachers teacher educators and educational researchers as they strive for ways to make their work more authentic more meaningful and therefore more spiritual Dobson describes the practices of exemplary teachers offers a theoretical framework for transformative teaching and includes useful examples that the reader can readily include in her own teaching and or research Dobson offers two innovative methods of teacher reflectivity Interacting Narratives and Archetypal Reflectivity and an original methodology of teaching literature and the arts that draws on the insights of depth psychology Interwoven throughout the book is Dobson's own story that of an at risk student who was deeply affected by his high school experiences with drama and literature The book will be of interest to teachers in all fields but particularly in literature and the arts It will appeal to teacher educators educational researchers those interested in analytical psychology those interested in narrative approaches to teacher education and those interested in narrative approaches to educational research It will be useful in courses that focus on the construction of teachers professional knowledge and reflective practices as well as methodology classes in literature drama and all the arts The book will also be of interest in qualitative arts based research methodology classes

Psychological Aesthetics David MacLagan, 2001-01-01 An introduction to the field of psychological aesthetics for art educators art therapists psychoanalysts artists and art lovers this book re evaluates conventional philosophical and psychoanalytic approaches to aesthetic qualities themselves to the kinds of psychological significance they can generate and to the interweaving of inner and outer realities upon which this depends Art history tends to see an artist's work in the context of their life and times psychoanalysis and art therapy tend to see art works in terms of an unconscious meaning that is beneath the surface of its aesthetic properties within the context of the therapeutic relationship MacLagan draws attention to the intimate connections between the aesthetic qualities of an art work per se felt out in its material handling be they attractive disconcerting or just bland and a wide range of psychological meanings Drawing on phenomenology and archetypal psychology as well as on neglected writers on unconscious aspects of form Psychological Aesthetics Painting Feeling and Making Sense explores this realm of feeling the different ways in which it is embodied in art and how we can use subjective strategies to articulate it in words It will open new perspectives in understanding both the processes of art making and our creative response to its results

The Unconscious Roots of Creativity Kathryn Madden, 2016-10-27 From whence spring the sparks of creativity It is to this very question that the field of depth psychology especially that of C G Jung and his intellectual descendants has much to contribute Just as the Muses were the offspring of Mnemosyne the goddess of memory our memories are the ancestors of our creativity that finds its multifaceted expression in the written word image theater dance and music The Unconscious Roots of Creativity seeks to push the investigation into that domain of memory that is beyond our conscious reach With articles from 16 contributors the red thread running through each of the offerings in

this volume is that whatever its ultimate expression the creative impulse has its roots deep in the psyche Edited By Kathryn Madden with articles by Linda Carter Anna Maria Costantino Carol Thayer Cox Leonard Cruz Lisa Raye Garlock James Hollis Naomi Ruth Lowinsky Ian Livingston Kathryn Madden Jordan S Potash Susan Rowland Murray Stein Ann Ulanov Tjeu van den Berk Robin van Loben Sels and Heidi S Volf Jung's Reception of Picasso and Abstract Art Lucinda Hill,2022-03-31 This book explores the nature of Jung s understanding of modern art in particular his reception to the work of Picasso and his striking prejudice shown in his controversial essay of 1932 Offering an important contribution towards understanding Jung s attitudes towards Picasso and modern art the book addresses the impact that Jung s unwillingness to engage in a deeper exploration of modern artforms had on the development of his psychological ideas It explores and uncovers the reasons for Jung s derogatory view of Picasso and abstract art more generally revealing how Jung was unable to remain objective due to his own complex and equally fascinating relationship with art and the psychology of image making The book argues that modern art parallels Jung s interests by embracing the spirit of experimentation and using new imagery to challenge creative conceptions which makes Jung s attitudes towards modern art all the more surprising Jung s Reception of Picasso and Abstract Art will be of great interest to researchers academics and those interested in analytical psychology Jungian studies art history and modernism aesthetics and psychoanalysis *Four Essays on Aesthetics* Zehou Li,Jane Cauvel,2006-01-01 Available for the first time in English Li Zehou s philosophical aesthetics interpret the historical origins and evolution of aesthetic experience and their significance to the intellectual emotional and spiritual growth of human beings Although LI s ideas have been debated in China for more than two decades his conversations with Jane Cauvel will now allow Western students and philosophers to re encounter Chinese and Western conceptions of aesthetics and the way art shapes individuals societies technology and the future of humankind Copenhagen 2013 - 100 Years On: Origins, Innovations and Controversies Emilija Kiehl,2015-12-25 The Nineteenth Triannual Congress of the International Association for Analytical Psychology IAAP was held in Copenhagen Denmark from August 18 23 2013 Copenhagen 2013 100 years on Origins Innovations and Controversies was the theme honoring the psychological transformations experienced by C G Jung beginning in 1913 while also reflecting upon the evolving world and Jungian Community a century later
