Jungle Patrick Roberts,2021-09-14 A bold ambitious and truly wonderful history of the world Peter Wohlleben author of The Hidden Life of Trees From the age of dinosaurs to the first human cities a groundbreaking new history of the planet that tropical forests made To many of us tropical forests are the domain of movies and novels These dense primordial wildernesses are beautiful to picture but irrelevant to our lives Jungle tells a different story Archaeologist Patrick Roberts argues that tropical forests have shaped nearly every aspect of life on earth They made the planet habitable enabled the rise of dinosaurs and mammals and spread flowering plants around the globe New evidence also shows that humans evolved in jungles developing agriculture and infrastructure unlike anything found elsewhere Humanity s fate is tied to the fate of tropical forests and by understanding how earlier societies managed these habitats we can learn to live more sustainably and equitably today Blending cutting edge research and incisive social commentary Jungle is a bold new vision of who we are and where we come from

Land and Language in Cape York Peninsula and the Gulf Country Jean-Christophe Verstraete,Diane Hafner,2016-02-18 This volume offers a state of the art

survey of linguistic anthropological archaeological and historical work focused on Cape York Peninsula and the Gulf Country in Australia's northeast. The volume also honours Bruce Rigsby, emeritus professor of anthropology at the University of Queensland, whose work has inspired all of the contributors. The papers in the volume are organized in terms of five key themes including the use of historical and archaeological methods to reconstruct aspects of language and social organization, anthropological and linguistic work uncovering aspects of world view embedded in languages and ethnographic data, sets the study of post-contact transformations in language and society and the return of archival data to communities. Its thematic intersections draw together the varied disciplinary threads in an overview of the cultures and languages of the region and will appeal to all those interested in Australian Aboriginal studies, linguistics, anthropology and associated disciplines. **50**

Simple Steps to Save the World's Rainforests Kim Henderson, The Green Patriot Working Group, 2012-03-12 Despite the very best conservation and environmental policy making efforts, at least 80,000 acres of tropical rainforest disappear each day. If action is not taken now, experts estimate that the world's rainforests will mostly disappear within 50 years. Currently, the destruction of tropical forests is responsible for 17 percent of man-made carbon emissions, more than what comes from all the world's cars, airplanes and ships combined. Tropical rainforests need our help, and that's where *50 Simple Steps to Save the World's Rainforests* comes in. The future of the world's rainforests lies to a large extent in the collective hands of consumers, and how they shop, since demand is what fuels the forces driving deforestation: agriculture, logging and resource extraction. Through the 50-step journey, you will learn how, as a consumer, you may unwittingly support rainforest destruction, and more importantly, precisely how you can make different choices that help save rainforests. For example, you will learn how your paper use and purchases of rayon clothing affect Indonesian rainforests, where Sumatran tigers are critically endangered, or how simply eating Brazil nuts helps save the Amazon rainforest. You will discover how the cultivation of palm oil, a common ingredient in confections, baked goods, soaps and biofuels, is fueling rampant deforestation in Malaysia, Indonesia and Papua New Guinea, and how you can avoid it. *50 Simple Steps to Save the Rainforests* is the ultimate primer for anyone wanting to take action to help save this ecosystem, which is so critical to the future of mankind. **Transformation**

and Healing by Ayahuasca Spirit in the Amazonian Rainforest Karel Hlobil, 2009-09 **Around the World in 80 Species** Jill Atkins, Barry Atkins, 2018-11-08 The world is currently experiencing a sixth period of mass species extinction, and extinction of flora and fauna is caused by a variety of factors arising from industrial activity and increasing human population, such as global warming, climate change, habitat loss, pollution and use of pesticides. Most causes of extinction are linked to corporate activity, either directly or indirectly. *Around the World in 80 Species: Exploring the Business of Extinction* responds to the ongoing mass extinction crisis engulfing our planet by exploring the ways in which accounting, business and finance can be used to prevent species extinctions. From Africa to the Far East and from Europe to the Americas, the authors explore species loss and how businesses can stop mass extinctions through greater transparency and through closer engagement.

with their investors and wildlife organisations The book concludes that global capitalism has led us to this extinction crisis and that therefore the mechanisms of capitalism namely accounting finance investment can help to pull us out Businesses must urgently address extinction before it is too late for all species including ourselves As the first book to explore corporate accounting and accountability in relation to species on the brink of extinction this book will be of great interest to both professionals and a wider audience interested in the causes and prevention of extinction **Dancing Around the World**

With Mike and Barbara Bivona Bivona Michael Bivona,2009-12 From Buenos Aires to Paris to New Orleans Mike and Barbara Bivona have traveled and danced throughout the world And in this memoir and travelogue these two dance aficionados share their adventures and experiences Ballroom dancers for more than twenty years the Bivonas have traveled extensively while honing their dancing skills and meeting fellow dancers Dancing Around the World with Mike and Barbara Bivona provides detailed accounts of their experiences in Argentina Paris Hawaii Italy the Catskill Mountains of New York the Caribbean and South Florida as well as other destinations This account not only includes dancing details but also shares the history and flavor of the exciting locales they have visited Augmented with photographs Dancing Around the World with Mike and Barbara Bivona also includes background information on the art of ballroom dancing a few dance lessons

biographies of select dancers who have performed on the television show Dancing with the Stars current ballroom dancing philosophy and information about the intellectual benefits gained from dancing Be the Change You Want to See in the World Julie Fisher-McGarry,2006-11-01 In Be the Change You Want to See in the World Julie Fisher McGarry speaks to the burgeoning eco conscious consumer market on how to dwell well on a daily basis Organized by month she includes tips on living green where to purchase organic and fair trade products how to unplug from the grid supporting local economies and nourishing the earth and creating a sustainable lifestyle **Life in the Rainforest** Edward P. Ortleb,1997-09-01 Color

Overheads Included The information contained in this resource and activity book follows a learning cycle that includes a free exploration by the students b expansion of exploration through activities that allow children to test integrate and sort out their discoveries and c application of concepts through individual and group projects which provide students with the opportunity to enhance and share what they have learned Each section includes teacher resource material planned lessons and expansion activities Students will examine various items books and resources The display table s contents of fruits nuts woods and other rainforest items will pique students interest **Rainforest Tourism, Conservation and Management**

Bruce Prideaux,2014-09-19 Globally rainforests are under threat on numerous fronts including clearing for agriculture harvesting for timber and urban expansion Yet they have a crucial role in biodiversity conservation climate change mitigation and providing other ecosystem services As the term is used in this book rainforests include both temperate and tropical although the emphasis is on tropical rainforests Rainforests are also attractive tourist spaces and where they have been used as a tourism resource have generated significant income for local communities However not all use of rainforests as a

tourism resource has been sustainable This book argues that sustainability must be the foundation on which tourism use of this complex but ultimately fragile ecosystem must be built upon It provides a multi disciplinary perspective incorporating rainforest science management and tourism issues The book is organized into four sections commencing with Rainforest Ecology and Management followed by People and Rainforests Opportunities for Rainforest Tourism Development and finally Threats to Rainforests Each major rainforest region is covered including the Amazon Central America Africa Australia and south east Asia in the context of a specific issue For example rainforests in Papua New Guinea are examined in the context of community based ecotourism development while the rainforests in Borneo are discussed in an examination of wildlife issues Other issues covered in this manner include governance empowerment issues for rainforest peoples and climate change

A-Z of Learning Outside the Classroom Russell Grigg,Helen Lewis,2016-04-07 Learning outside the classroom has been high on the political agenda for several years now but recent Ofsted reports indicate that this can be confined to termly or yearly trips as an extra This book provides a convincing and readable promotion of regular outdoor learning It draws on relevant research to reinforce that working in real environments benefits children s all round development cognitively emotionally physically and spiritually This is illustrated through a wide range of engaging activities from how to make a scarecrow to interpreting a painting in a gallery from getting the best from a library visit to how best to attack a medieval castle This practical guide for busy teachers will help them to link what they do in and out of the class It s a must for every staffroom bookshelf

The Craft of Editing Adnan Mahmutović,Lucy Durneen,2018-09-03 The Craft of Editing offers a rare insight into the unique dynamic between author and editor In this illuminating book Adnan Mahmutovi and Lucy Durneen lead a cohort of industry experts to bring transparency to the mystique that often surrounds the craft and practice of editing Using genuine case studies from published works including annotated manuscripts this book prepares writers for potential dialogue and critique from editors The Craft of Editing follows the journey from rough draft to publication an essential part of any writing experience while showing the singular and authentic approach each editor takes Using original pitches debates emails and instant messages to shed light on the collaboration between authors and editors The Craft of Editing is an indispensable tool to creative writers and students alike
