Ja Coderch De Sentmenat 19131984:

Coderch 1940-1964 José Antonio Coderch, Paolo Sustersic, 2000 This book discusses Joseph Antoni Coderch's architectural output during the period from 1940 to 1964 and includes much unpublished graphic material as well as a catalog of his entire oeuvre

Barcelona Josep Parcerisa, 2014 What have been the general ideas about the growth of Barcelona over the last fifty years Why were they so controversial Why is the Metro still the Cinderella of the Metropolitan system Who extended the Cerdà plan to the River Besòs The answer to these questions and many more can be found in this book which explains a century of urbanism in Barcelona stressing two key periods the years in which Barcelona was conceived as a capital city and the years in which it was converted into a metropolis The book closes by raising current topics that have dominated discussion about the city from the turn of the 20th Century and which are crucial to its future The architect and university lecturer Josep Parcerisa offers us the keys to understanding the city and its recent history Throughout the book the reader will find more 300 images that often speak for themselves For the first time the urbanism of the city is explained and can be visualised at the same time

Furniture, Structure, Infrastructure Nigel Bertram, 2017-03-02 Observation and analysis are types of invention They make things apparent which perhaps were invisible By noticing drawing and naming something we bring it into being On the other hand building and making can be thought of as analytical observations pointing out what had not been so clear before and revealing the potential for other actions yet to occur This book is a collection of urban research and architectural projects by award winning architects Nigel Bertram NMBW Architecture Studio using observation as a design tool and design as an observational method Through this process a position on the making of architecture and on the role of architecture within the wider urban environment is established embracing the full messy reality of the present finding delight in the everyday and developing sensitivity to a range of found environments By taking pre-existing conditions seriously each project architectural or analytical large or small becomes understood as the strategic renovation of a continuing state This method of working operates by thinking simultaneously at different scales from furniture to structure and infrastructure searching for combinations of what might normally be separated into different categories moving between the many small and ad hoc actions of individuals to wider systems of collective organisation Thinking about the effects of small moves on the larger urban field and vice versa the role of unplanned or uncontrolled events in relation to the inward focus of design thinking about the combinatory effect of what is newly made with what is already there for example enables architecture and the city to be understood in relative terms in terms of relationships Between people groups of people things and parts of things actions and groups of actions urban architecture is the social arrangement of activity with the physical arrangement of large and small parts of its environment But what people do also changes the place in which they do it Considering different scales and types of relationships between individuals and groups insiders and outsiders expected and unexpected actions can be a way of crossing categories and

establishing new relations Breaking down components of a given situation or brief before re grouping can be used to flatten and redistribute hierarchies embedded within Similarly finding ways of carefully observing things just as they are in the present helps to see around the presuppositions of familiarity without worrying about cause or effect These aims techniques and thoughts are presented through the discipline of the architectural project where precise strategies must in the end be found to define an exact physical arrangement and materiality usually at minimum cost This collection of works researches the manner in which such precision can also generate openness and indeterminacy allowing and provoking the engagement of others

Coderch Marella Santangelo, 2021-12-22 La complessità dei progetti di Coderch sull'abitare collettivo non si risolve nelle questioni funzionali e nelle richieste della committenza ma emerge dai temi del domestico affrontati in maniera diversa rispetto alle case unifamiliari ben più note dagli elementi che entrano nella composizione architettonica e nel disegno di nuove forme il peso volumetrico degli edifici i rapporti visivi dati dal trattamento dei prospetti il ruolo della luce nella loro definizione diventano valori intrinseci ai progetti di questi anni Rileggere l'opera del maestro catalano lontano da una ossessiva intenzione di contestualizzazione storica alla ricerca di un suo ruolo preciso nel panorama barcellonese consente di entrare negli edifici urbani ed addentrarsi nella maturità di un personaggio che ha lavorato affinché la sua architettura sempre profondamente contemporanea fosse coerentemente lo specchio della sua natura morale

Barcelona Architecture Guide, 1929-2002 Antoni González, Raquel Lacuesta, 2002 1929 and 1992 were two highly significant moments in the urban evolution of Barcelona With a total of 162 entries each comprising an explanatory text one or two photographs and in many cases a plan this guide offers an introduction to the best architecture constructed in Barcelona during the period 1929-2002

El proyecto como (re)construcci n Helio Piñ n,2005 El proyecto de arquitectura es junto con el montor en bicicleta y algunas funciones basicas de los seres organicos una de las pocas competencias del ser humano que al parecer no es necesario aprender A juzgar por como suele plantearse su enseanza se llega a la conclusion de que se aprende a proyectar directamente con la practica Un programa un solar y los consejos de un profesor se consideran suficientes para adiestrarse en la concepcion de la arquitectura Probablemente la identificacion de la modernidad con la invencion favorecio una patologia tan extendida asi se fue poblando la tierra de aprendices de geniecillos incultos e incompetentes mito del que hace decadas se estan cosechando los frutos Este ensayo se limita a proponer un modo alternativo de aprender a proyectar basado en la re construccion de edificios ejemplares En definitiva no propone mas que recuperar lo que habia sido habitual en la enseanza de las artes durante siglos Se trata en fin de una argumentacion del planteamiento una seleccion de edificios para la ETSAB otras escuelas deberian elaborarse su elenco y una sistematica de desarrollo de los trabajos

ZARCH. Journal of interdisciplinary studies in Architecture and Urbanism. nº 6, 2016. Ideas no construidas Javier Monclús Fraga,2016-08-17 La arquitectura no construida favorece la idealizaci n Al no existir el objeto final la sugerencia por otros medios abre nuevas v as a interpretaciones que pueden ser incluso m s estimulantes que las ideas iniciales En este n mero de la revista Zarch se quiere hacer hincapi en esas ideas que no se han construido pero que han tenido una fuerza tal que han sobrevivido incluso sin haber llegado a contruirse

El siglo XX Javier Pérez Rojas,Manuel García

Castellón,1994 La obra del siglo XX en España es de una trascendencia importantísima ya que es justamente el cambio estructural del arte moderno. Los artistas revelan sus enseñanzas en el extranjero remueven la cultura y se insertan dentro de la sociedad con más permisividad tanto en la arquitectura como en la escultura, pintura y hasta en el diseño. **Barcelona**
Manuel Gausa, Marta Cervelló, 2013 Features an extensive selection of architecture dating from the period begins with the architectural manifestations of modernism and noucentisme through the more innovative proposals from the Modern Movement, rationalist works, the major projects built for the Olympic Games and the Universal Forum of Cultures until the consolidation of Gran Via and the Diagonal and the two major urban transformations undertaken by the city around the 22 district and the Plaça Europa. A document that in addition to being a conventional guide also offers a reflection of how the city of Barcelona has changed, grown and tackled the urban planning, social and cultural challenges that it has faced from the end of the 19th century up to the start of the 21st. Architectures catalanes des années 1950 Antoine Baudin, 2013-11-07 Reconnu comme le photographe espagnol le plus important de son temps, le Catalan Francesc Catal Roca 1922-1998 doit d'abord sa réputation, sa vision sociale, à sa traduction subtile du travail artistique et architectural. Il est notamment le principal imagier de la nouvelle architecture catalane des années 1950 et l'un des novateurs internationaux de la photographie d'architecture. C'est cette dimension moins connue de son œuvre que donne à voir ce recueil travers 80 images issues du fonds Alberto Sartoris conservé aux Archives de la construction moderne qui compte 250 tirages originaux de sa main. *Avery Index to Architectural Periodicals* Avery Library, 1995 *International Books in Print*, 1986
