The Elements of the English Language Ernest Adams,1890 English Language Teaching through the Lens of Experience Christoph Haase,2019-08-06 The focus of this volume in our ongoing series has shifted from the technological advances that were the topic of numerous papers in the previous book to more rigorous and empirical research especially in the linguistics and methodology section While the former is represented by the majority of papers methodology still manages to surprise with new findings in often overlooked areas such as how to address students with impairments in English Language Teaching ELT the use of gesture and the development of Massive Open Online Courses MOOCs The linguistics section starts out with a look at academic English as a lingua franca ELF practices native and non native English varieties and ELT pragmatic markers and hedging and corpora The compact literary section correlates with the diversity inherent in the field and concerns ethnic writing indigenous storytelling animality and elaborations on postmodernist fiction As such this collection of research papers will bring topics and approaches to the attention of a wide spectrum of practitioners as both an impetus and inspiration The Concise Standard Dictionary of the English Language ... conscious translingual praxis The book begins by offering generative critiques of translingualism centering on the ways in which the approach's democratic orientation to language avoids issues of race language and power and appeals to colorblind racist tropes of equal opportunity Following these critiques contributors demonstrate the important intersections of race and translingualism by drawing upon voices typically marginalized by monolingual language ideologies and pedagogies Finally *Racing Translingualism* concludes by attending to the pedagogical implications of a race conscious translingual praxis in writing and literacy education Making the case for race conscious rather than colorblind theories and pedagogies *Racing Translingualism* offers a unique take on how translingualism is theorized and practiced and moves the field forward through its direct consideration of the links between language race and racism Contributors Lindsey Albracht Steven Alvarez Bethany Davila Tom Do Jaclyn Hilberg Bruce Horner Aja Martinez Esther Milu Stephanie Mosher Yasmine Romero Karen Rowan Rachael Shapiro Shawanda Stewart Brian Stone Victor Villanueva Missy Watson
