**Perspectives on Enhancing Student Transition Into Higher**

**Education and Beyond** Willison, Debra, Henderson, Emma, 2023-07-10 Transition and change are part of everyone's life. In the context of higher education, there are multiple points where students will undergo transition. This includes the move from secondary and further education or elsewhere into higher education where students move from school or college to university. As students near the completion of their studies, they must make decisions about career or further study options, which again necessitates transition. In addition, different cohorts of students, such as those from a low socio-economic background, international students, and students facing additional barriers due to gender, ethnicity, or disability, will face further transitions. Many students look forward to moving on and progressing with their studies and careers; however, transitions can be challenging, and enhanced support can ensure continued success for all. **Perspectives on Enhancing Student Transition Into Higher Education and Beyond** supports the various transitions that students entering higher education face throughout the entire learner journey. This book brings together best practice examples of how institutions have enhanced the support offered to address the transition challenges that students face throughout the learner journey, before, through, and beyond the university environment. Covering topics such as collaborative teamwork, postgraduate education, and student engagement, this premier reference source is an excellent resource for faculty, administrators, professors, educational leaders, academic advisors, researchers, academicians, and more.

**Serving Vulnerable and Marginalized Populations in Social and Educational Contexts** Anies Al-Hroub, Sally Reis, Joseph Madaus, Itab Shuayb, 2024-04-26 There is evidence that the global COVID-19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups, including exceptional learners, stateless, street migrant, and refugee children and youths, and the limited use of frameworks of emergency planning with and for marginalized and at-risk individuals. These challenges are multi-sectoral and intersecting and they require multi- and interdisciplinary interventions to inform inclusive responses. These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education, online, remote, and blended education. Intersecting forms of discrimination, such as gender, socioeconomic, and legal status, further exacerbate the problem. This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences, problems, and needs from an educational perspective, thus bringing insights into their vulnerabilities during the pandemic.
