## **Future Multilateralism:**

*The Future of Multilateralism* Madeleine O. Hosli, Taylor Garrett, Sonja Niedecken, Nicolas Verbeek, 2021-07-29 The Future of Multilateralism addresses current challenges and future perspectives of international and regional organizations It aims to uncover how stable the foundations of global cooperation really are particularly in the light of the latest unilateral and protectionist practices of international players and challenges related to COVID 19 The post World War II global order was built on the foundations of multilateral cooperation The establishment of international institutions is aimed at avoiding another widespread collision like the two World Wars and to ensure peace and prosperity Hence the multilateral system was viewed as an effective mechanism in dealing and resolving various challenges at an international or a regional level Given the effects of COVID 19 on the global regional state and individual levels are so recent very little research has been conducted to understand the challenges many multilateral institutions are facing due to the pandemic This book uncovers the future of such organizations and prospects for the multilateral system of which they constitute the building blocks in view of recent trends and developments

**Future Multilateralism** Michael G. Schechter, 2016-07-27 The aim of this volume is to discuss the kinds of multilateralism that would be required to pursue some of the alternative projects of society namely those which agree with some of the key normative commitments of the MUNS programme non violent means for dealing with conflict social equity protection of the biosphere diffusion of power among social groups and societies The strategies identified here are both top down ie relying on conventional international institutions and bottom up ie involving a new multilateralism grounded in civil society

Multilateralism in the 21st Century Caroline Bouchard, John Peterson, Nathalie Tocci, 2013-08-15 This volume focuses on multilateralism in the 21st century and examines how and how effectively the EU delivers on its commitment to effective multilateralism Presenting results generated by MERCURY an EU research programme into multilateralism this book addresses a central research question does the EU deliver on its commitment to effective multilateralism Globalisation has created powerful new incentives for states to cooperate and has generated renewed interest in multilateralism While a large body of work exists on multilateralism as a concept it continues to be ill defined and poorly understood This book sheds new light on 21st century multilateralism by exploring conceptual approaches as well as generating innovative empirical knowledge on its practice Research on EU external relations has increasingly focused on the concept of effective multilateralism Yet the application of this concept as a guiding principle of EU foreign policy in non security policy areas has rarely been examined This book explores whether the EU is pursuing effective multilateralism in specific policy areas including trade climate change and conflict resolution and distinct geographical and institutional settings both internal to the EU and in specified regions international organisations IOs and bilateral partnerships This book offers evidence based actionable policy lessons from Europe s experience in promoting multilateralism The European Union and Multilateralism in the 21st Century will be of interest to students and scholars of international relations international

organizations and European Union politics and foreign policy      Multilateralism and U.S. Foreign Policy Stewart Patrick, Shepard Forman, 2002 Puzzled by the disjunction between global trends and US foreign policy since the end of the Cold War mostly American scholars of political science law and economics explore the causes and consequences of US ambivalence to multilateral cooperation They consider such dimensions as the growing influence of domestic factors US grand strategy the chemical weapons convention and the International Criminal Court Annotation copyrighted by Book News Inc Portland OR      **Innovation in Multilateralism** Michael G. Schechter, 2016-07-27 The chapters in this volume identify and assess the political process and bases of support for multilateralism in terms of the shifting power relations in world politics institutional innovations in the United Nations and non UN multilateralisms They seek to answer the question What can and should be done to confront salient issues of the global problematic More specifically the essayists ask whether currently existing multilateral mechanisms are up to the challenge      **Trade Multilateralism in the Twenty-First Century** Alexei Kireyev, Chiedu Osakwe, 2017-12-14 Trade multilateralism in the twenty first century faces a serious test as weakness in the global economy and fast paced technological changes create a challenging environment for world trade This book examines how an updated and robust rules based multilateral framework anchored in the WTO remains indispensable to maximizing the benefits of global economic integration and to reviving world trade By examining recent accessions to the WTO it reveals how the growing membership of the WTO has helped to support domestic reforms and to strengthen the rules based framework of the WTO It argues that the new realities of the twenty first century require an upgrade to the architecture of the multilateral trading system By erecting its upper floors on the foundation of existing trade rules the WTO can continue to adapt to a fast changing environment and to maximize the benefits brought about by its ever expanding membership      Multilateralism and Regionalism after the Uruguay Round Riccardo Faini, Enzo R. Grilli, 1997-07-13 The book deals with both the short and the long run effects of the Uruguay Round the reduction in the obstacles to trade the enlargement of the multilateral system the new institutional framework and the balance between regionalism and multilateralism in world trade relations Its conclusions are based on theory political economy and empirical analysis      **Multilateralism and the World Trade Organisation** Rorden Wilkinson, 2006-04-10 This book explores the significance of the establishment of the World Trade Organisation WTO as well as some of the issues brought into sharper focus by the Seattle demonstrations of 1999 Located within the broader study of global governance Multilateralism and the World Trade Organisation offers a critical examination of the legal framework of the WTO The book uncovers a series of discriminatory practices embedded in the WTO's legal framework which act to the disadvantage of smaller developing and transitional states      **Multilateral Development Finance Towards a New Pact on Multilateralism to Achieve the 2030 Agenda Together** OECD, 2018-11-29 This report contributes to the broader international debate on why we need multilateralism and how to make it more effective to achieve the 2030 Agenda At a time when the value of multilateralism is being questioned the

report provides new evidence and recommendations for a new pact on **Global Governance Futures** Thomas G Weiss, Rorden Wilkinson, 2021-09-30 **Global Governance Futures** addresses the crucial importance of thinking through the future of global governance arrangements. It considers the prospects for the governance of world order approaching the middle of the twenty-first century by exploring today's most pressing and enduring health, social, ecological, economic, and political challenges. Each of the expert contributors considers the drivers of continuity and change within systems of governance and how actors, agents, mechanisms, and resources are and could be mobilized. The aim is not merely to understand state, intergovernmental, and non-state actors. It is also to draw attention to those underappreciated aspects of global governance that push understanding beyond strictures of traditional conceptualizations and offer better insights into the future of world order. The book's three parts enable readers to appreciate better the sum of forces likely to shape world order in the near and not-so-near future. Planetary encompasses changes wrought by continuing human domination of the earth, war, current and future geopolitical, civilizational, and regional contestations, and life in and between urban and non-urban environments. Divides includes threats to human rights, gains, the plight of migrants, those who have and those who do not, persistent racial, gender, religious, and sexual-orientation based discrimination, and those who govern and those who are governed. Challenges involves food and health insecurities, ongoing environmental degradation, and species loss, the current and future politics of international assistance and aid, and the wrong turns taken in the control of illicit drugs and crime. Designed to engage advanced undergraduate and graduate students in international relations, organization law, and political economy, as well as a general audience, this book invites readers to adopt both a backward and forward-looking view of global governance. It will spark discussion and debate as to how dystopic futures might be avoided and change agents mobilized.

**Shaping the Culture of Peace in a Multilateral World** Patrick Petit, 2017-07-05 As the world faces a multitude of complexly interwoven challenges, new values and new worldviews are emerging to change the ways in which human beings relate to each other, to our planet, and to all life on Earth. In today's globalized world, humanity is becoming inescapably aware that coexistence, cooperation, and respect for diversity are fundamental values by which all of us must live. These essential human values, which apply in all individual and societal relationships, are likewise intrinsic to a culture of peace, a way of living that will allow a harmonious, multifaceted global civilization to blossom. Central to this volume is a belief that in an interdependent world, collective decision-making for the collective good is the most effective way to move forward. In order to respect the balance among cultures and nations, decisions that have a global impact must be taken multilaterally. No culture can achieve and maintain its international objectives by acting unilaterally, nor can any nation or cultural group claim to represent the whole of humanity. *Shaping the Culture of Peace in a Multilateral World* compiles prominent visionary articles from United Nations institutions and regional and other intergovernmental organizations and highlights the contributions being made to the creation of a culture of peace. It aims to strengthen multilateral cooperation among intergovernmental

organizations worldwide and to facilitate the formation of a global network of multilateral mechanisms which will provide collective and holistic responses to the peace and security challenges of the 21st century Shaping the Culture of Peace in a Multilateral World is in itself a true example of multilateralism and a publication treasure for people who are active or interested in international diplomacy and international affairs

**Multilateralism Under Challenge: Power, International Order, And Structural Change** Edward Newman, Ramesh Thakur And John Triman, **Handbook on Governance in International Organizations** Alistair D. **China Joins Global Governance** Mingjiang Li, 2012-09-28 For many years political leaders and analysts have debated the impacts of China's rise on the stability of the existing international system International observers have also debated whether China would be a status quo power or a revisionist power and whether China would observe the rules and regulations of international institutions and regimes China Joins Global Governance Cooperation and Contentions edited by Mingjiang Li provides an insightful contribution to our understanding of these issues through a specific angle China's role in global governance The contributors to this volume address such questions as how has China dealt with major global institutions and regimes How has China helped address various global challenges How is China's rise changing the international approach to global governance The contributors cover a broad range of issues including China's vision and strategy in global multilateralism China's role in global economic financial trade governance China's policy towards the global environment and international development and China's approaches to various global security issues such as nuclear disarmament and nonproliferation China Joins Global Governance is an essential text in understanding the future trajectory of China's international policy

The End of American World Order Amitav Acharya, 2018-03-16 The age of Western hegemony is over Whether or not America itself declines or thrives under President Trump's leadership the post war liberal international order underpinned by US military economic and ideological primacy and supported by global institutions serving its power and purpose is coming to an end But what will take its place A Chinese world order A re constituted form of American hegemony A regionalized

system of global cooperation including major and emerging powers In this updated and extended edition of his widely acclaimed book Amitav Acharya offers an incisive answer to this fundamental question While the US will remain a major force in world affairs he argues that it has lost the ability to shape world order after its own interests and image As a result the US will be one of a number of anchors including emerging powers regional forces and a concert of the old and new powers shaping a new world order Rejecting labels such as multipolar apolar or G Zero Acharya likens the emerging system to a multiplex theatre offering a choice of plots ideas directors power and action leadership under one roof Finally he reflects on the policies that the US emerging powers and regional actors must pursue to promote stability in this decentred but interdependent multiplex world Written by a leading scholar of the international relations of the non Western world and rising above partisan punditry this book represents a major contribution to debates over the post American era **WTO**

**Accessions and Trade Multilateralism** Uri Dadush, Chiedu Osakwe, 2015-09-10 What have WTO accessions contributed to the rules based multilateral trading system What demands have been made by original WTO members on acceding governments How have the acceding governments fared This volume of essays offers critical readings on how WTO accession negotiations have expanded the reach of the multilateral trading system not only geographically but also conceptually clarifying disciplines and pointing the way to their further strengthening in future negotiations Members who have acceded since the WTO was established now account for twenty per cent of total WTO membership In the age of globalization there is an increased need for a universal system of trade rules Accession negotiations have been used by governments as an instrument for domestic reforms and one lesson from the accession process is that there are contexts which lead multilateral trade negotiations to successful outcomes even in the complex and multi polar twenty first century economic environment

Bilateralism, Multilateralism and Asia-Pacific Security William Tow, Brendan Taylor, 2013-09-02 Many scholars of international relations in Asia regard bilateralism and multilateralism as alternative and mutually exclusive approaches to security co operation They argue that multilateral associations such as ASEAN will eventually replace the system of bilateral alliances which were the predominant form of U S security co operation with Asia Pacific allies during the Cold War Yet these bilateral alliances continue to be the primary means of the United States strategic engagement with the region This book contends that bilateralism and multilateralism are not mutually exclusive and that bilateralism is likely to continue strong even as multilateralism strengthens It explores a wide range of issues connected with this question It discusses how US bilateral alliances have been reinvigorated in recent years examines how bilateral and multilateral approaches to specific problems can work alongside each other and concludes by considering how patterns of international security are likely to develop in the region in future **Rethinking Power, Institutions and Ideas in World Politics** Amitav

Acharya, 2014-01-10 The study of international relations has traditionally been dominated by Western ideas and practices and marginalized the voice and experiences of the non Western states and societies As the world moves to a post Western era it is

imperative that the field of IR acquires a more global meaning and relevance Drawing together the work of renowned scholar Amitav Acharya and framed by a new introduction and conclusion written for the volume this book exposes the narrow meaning currently attached to some of the key concepts and ideas in IR and calls for alternative and broader understandings of them The need for recasting the discipline has motivated and undergirded Acharya s own scholarship since his entry into the field over three decades ago This book reflects his own engagement quarrels and compromise and concludes with suggestions for new pathways to a Global IR a forward looking and inclusive enterprise that is reflective of the multiple and global heritage of IR in an changing and interconnected world It is essential reading for anyone who is concerned about the history development and future of international relations and international relations theory     State, Globalization and Multilateralism Mario Telò, 2012-02-18 This volume presents a reconsideration of the concepts of State and political power within the evolving multilateral network of cooperation and conflict By means of an innovating research strategy it explains state resilience within global governance while deepening the obsolescence of the traditional sovereign state concepts including by emerging powers Rather than considering the EU as an isolated case study the book considers the EU as both a reference and a proactive player which fosters a new research agenda both for comparative studies and political theory Lastly in view of the currently emergent unprecedented and asymmetrical multi polar world it considers the need for a new research agenda on multilateralism
