will experience Gods miracles in life And I if I be lifted up from the earth will draw all men unto me John 12 32 Journey to Free the Child Within Ethel L. Goodrich,2014-04-22 Mental illness is real and goes undetected every day simply because we focus on the outside not knowing the demons one may be wrestling with on the inside It is my belief that the secrets I was carrying caused my mental illness I also believe that the secrets other family members were carrying caused theirs as well even landed a few of them in a mental institution At one point in my life I use to suffer from bipolar disorder manic depression and paranoid schizophrenic Which caused me to be emotional detached from my children for fear that something terrible would happen I was selfish and deliberately set out to harm people but in the end it cost me and it s a price that I am still paying today However God had a master plan and He used what I thought at the time was an unjust the death of my grandmother to killed me in order to heal me Now I am a living testimony of His goodness and grace So much good has come from her death relationships that I would have never experience merely because I would have never learned how to forgive and that was the key to a life of abundance For I reckon that the sufferings of this present time are not worth to be compared with the glory which shall be revealed in us Romans 8 18 **Giving Birth to New Beginnings** Vashiska

Benton White,2011-02-15 The time is 1931 The three places we first visit are Iowa South Africa and Alabama The characters finally end up as neighbors in Alabama and the story is about three young men whose growing up years were typical for that place and that era What makes it different is that rather than be in a culture that accepted racial bias as a way of life these three young men simply did not accept the status quo One of the young men was the son of the local minister who had originally come from the Midwest and moved to Birmingham when his father became a minister there The second friend was a native South African and arrived in Birmingham when his mother who was a nanny accompanied a family which had immigrated to the South The third whose father had been an alcoholic causing his mother to divorce him and who was raising her two children alone The boys met and eventually became close friends and classmates Each family has a fascinating history in the own right but after the boys meet the story becomes more about them as a trio The boys became fast friends The first two boys became star athletes and entered the University of Alabama on football scholarships They all entered the University together pledged the same fraternity and continued their lives together In their early teen years the boys had become friends with some young Black men their own age living neirar them and that friendship has something to do with later developments in the story That part of the story is intriguing Each character has a

story of their own but the story of the three helps explain who they were and what they became It is reflective of the times more than some would want to remember You will enjoy the journey into their lives and perhaps better understand the tensions of a society which had not yet faced the dark side of its culture It is truly reflective of those times in the South times that in some places might still be trying to exist
