Manfred Berg, Simon Wendt

Interrogating Caste:

Interrogating Caste Dipankar Gupta, 2000 The caste system has conventionally been perceived by scholars as a hierarchy based on the binary opposition of purity and pollution Challenging this position leading sociologist Dipankar Gupta argues that any notion of a fixed hierarchy is arbitrary and valid only from the perspective of the individual castes The idea of difference and not hierarchy determines the tendency of each caste to keep alive its discrete nature and this is also seen to be true of the various castes which occupy the same rank in the hierarchy It is in fact the mechanics of power both economic and political that set the ground rules for caste behaviour which also explains how traditionally opposed caste groups find it possible to align in the contemporary political scenario With the help of empirical evidence from states like Bihar Maharashtra and Uttar Pradesh the author illustrates how any presumed correlations between caste loyalties and voting patterns are in reality quite invalid Provocative and finely argued *Interrogating Caste* is a remarkable work that provides fresh insight into caste as a social political and economic reality

Racializing Caste Thiago P. Barbosa, 2025-04-21 The book analyses how racial knowledge has circulated in transnational entanglements particularly between Germany and India into the research on human variation in India racializing the understanding of caste and ethnicity It focuses on the legacy of Irawati Karve 1905 1970 a Indian anthropologist trained at the Kaiser Wilhelm Institute for Anthropology Eugenics and Human Heredity in Berlin Germany 1927 1930 and a prominent scientist in post colonial India Besides a historical analysis of Karve s adaptation of racial approaches to the study of Indian castes the book applies material semiotic and ethnographic lenses to examine how her work is taken up today in anthropology and population genetics By showing how transnational and transcolonial entanglements in race science shape knowledge on human diversity in India the book offers novel insights to discussions in anthropology STS and global history including the racialization of difference colonial legacies and post colonial sovereignty in science It contributes to a better understanding of the co constitution of politics and sciences of human diversity and it argues for a closer attention to inequalities as a way to de link from the legacies of scientific racism

Textual Lives of Caste Across the Ages Prathama Banerjee, 2024-10-17 The essays in this volume explore the myriad ways in which caste varna and jati has been theorized and critiqued in multiple philosophical religious logical and narrative traditions in India Spanning ancient medieval and modern times and in diverse classical and vernacular languages the chapters show how the social fact of caste and imaginations of kinship community and humanity were historically subject to epistemological spiritual and existential debate in both elite and popular circles in India *Textual Lives of Caste Across the Ages* seeks to bridge the interdisciplinary gap between historians and sociologists by focusing on texts that help us think across the sociological and philosophical the political and the religious the epistemological and the aesthetic and indeed the elite and the popular The volume also sets up a conversation between scholars specializing in different regions archives and historical periods and demonstrates how caste imaginaries have been deeply diverse and contested in India s past

Reconstructing these diverse traditions of social and existential criticism helps us in our contemporary struggles against caste hierarchy and untouchability and enriches our contemporary critical repertoire Caste, Knowledge, and Power Sunandan K. N.,2023-02-16 Caste Knowledge and Power investigates the transformations of caste practices in twentieth century India and the role of knowledge in this transformation and in the continuing of these oppressive practices The author situates the domination and subordination in the domain of knowledge production in India not just in the emergence of colonial modernity but in the formation of colonial Brahminical modernity It engages less with the marginalization of the oppressed castes in the modern institutions of knowledge production which has already been discussed widely in the scholarship Rather the author focuses on how the modern colonial Brahminical concept of knowledge invalidated many other forms of knowing practices and how historically caste domination transformed from the claims of superiority in acharam ritual hierarchy to the claims of superiority in possession of knowledge Cosmopolitan Elites Kira Huju,2023-11-13 Cosmopolitan Elites narrates the birth everyday life and fracturing of a Western dominated global order from its margins It offers a critical sociological examination of the elite Indian Foreign Service and its members many of whom were present at the founding of this order Kira Huju explores how these diplomats set out to remake the service in the name of a radically anti colonial global subaltern but often ended up seeking status within its hierarchies through social mimicry of its most powerful actors This is a book about the struggles of belonging it revisits what it takes to be a recognized member of international society and asks what the experience of historically marginalized actors inside the diplomatic club can tell us about the evident woes of global order today In interrogating how Indian diplomats learned to live under a Westernized world order it also offers a sociologically grounded reading of what might happen in spaces like India as the world transitions past Western domination An awkward balancing act animates the order making of India s cosmopolitan diplomats despite a genuine desire to strive toward a postcolonial world founded on diversity difference and the symbolic representation of a global subaltern there is a strong sense of a lingering caricature like notion of a white European dominated homogenous club to which Indian diplomats feel a deep rooted and colonially embedded desire to belong Cosmopolitanism operates inside this balancing act not as an international ethic upholding an equal tolerant or liberal global order but rather as an elite aesthetic which presumes cultural compliance diplomatic accommodation and social assimilation into Western mores Based on 85 interviews with Indian diplomats politicians and foreign policy experts as well as archival work in New Delhi the book asks what the experience of historically marginalized actors inside the diplomatic club tells us about the social hierarchies of race class religion gender and caste under global order Redefining the Immigrant South Uzma Quraishi,2020-03-25 In the early years of the Cold War the United States mounted expansive public diplomacy programs in the Global South including initiatives with the recently partitioned states of India and Pakistan U S operations in these two countries became the second and fourth largest in the world creating migration links that resulted in the emergence of American universities such as the

University of Houston as immigration hubs for the highly selective student led South Asian migration stream starting in the 1950s By the late twentieth century Houston s South Asian community had become one of the most prosperous in the metropolitan area and one of the largest in the country Mining archives and using new oral histories Uzma Quraishi traces this pioneering community from its midcentury roots to the early twenty first century arguing that South Asian immigrants appealed to class conformity and endorsed the model minority myth to navigate the complexities of a shifting Sunbelt South By examining Indian and Pakistani immigration to a major city transitioning out of Jim Crow Quraishi reframes our understanding of twentieth century migration the changing character of the South and the tangled politics of race class and ethnicity in the United States **Perfidies of Power: India in the New Millennium** , *Gale Researcher Guide for: The Evolution of the Caste System in Early India* Maria M. Racism in the Modern World Manfred Berg, Simon Wendt, 2011-04-01 Emphasizing the global nature of racism this volume brings together historians from various regional specializations to explore this phenomenon from comparative and transnational perspectives The essays shed light on how racial ideologies and practices developed changed and spread in Europe Asia the Near East Australia and Africa focusing on processes of transfer exchange appropriation and adaptation To what extent for example were racial beliefs of Western origin Did similar belief systems emerge in non Western societies independently of Western influence And how did these societies adopt and adapt Western racial beliefs once they were exposed to them Up to this point the few monographs or edited collections that exist only provide students of the history of racism with tentative answers to these questions More importantly the authors of these studies tend to ignore transnational processes of exchange and transfer Yet as this volume shows these are crucial to an understanding of the diffusion of racial belief systems around the globe *Towards Gender Equity in Development* Siwan Anderson, Lori Beaman, Jean-Philippe Platteau, 2018-10-22 As a result of widespread mistreatment and overt discrimination women in the developing world often lack autonomy Towards Gender Equity in Development brings together leading scholars working on gender issues to explore key sources of female empowerment and discuss the current challenges and opportunities for the future Exploring three key domains this book adopts a clear multi disciplinary approach to present different perspectives from gender focused economics and social research It covers marriage and women's relative bargaining position within the household the options available to women outside of marriage and in the context of their community and overarching discriminatory laws and cultural norms It engages with questions of how marriage divorce and remarriage practices have evolved and with what effects for women how female empowerment can benefit from improving options and economic and collective action opportunities and how the government can act as a lawmaker to contribute to modifying norms and practices that disadvantage women

The History of the Sen Dynasty of Nepal Dr. Nawa Raj Subba, 2025-01-01 A Comprehensive Historical Study on Nepal's Sen Dynasty The History of the Sen Dynasty of Nepal by Dr Nawa Raj Subba is a meticulously

researched historical account that delves into the lasting impact of the Sen kings on the history of mediaeval Nepal. It traces the dynasty's roots, political development, administration, military organisation, economic significance and cultural contributions to give a comprehensive view of their imprint on Nepalese civilisation. Historiography reconstructs the arc of the Sen Dynasty drawing on a range of primary and secondary sources, historical documents, inscriptions, folklore and scholarly evaluation. Dr Subba explores the administrative institutions constructed by the Sen rulers and their military conquests as well as the shifts in socioeconomic structure that took place during their reigns. The book also fills major gaps in our understanding of the way in which the Sen monarchs engaged diplomatically and militarily with their neighbours and embeds the dynasty in a wider South Asian geopolitical mirroring context. The History of the Sen Dynasty of Nepal not only deals with political and military issues but also looks at the cultural and intellectual achievements of the dynasty. The Sen emperors were significant patrons of literature, the arts and religious traditions that have shaped Nepalese society. Their influence said to have transcended politics, started a cultural revolution that influenced Nepal. This descriptive, accessible book will be valuable for historians, researchers, students and the general reader interested in the mediaeval history of Nepal. Dr Subba delivers academic rigour without being obtuse, which means it can work as both an academic research tool and a personal discovery device. The History of the Sen Dynasty of Nepal is one of the important contributions to Nepalese historiography; it gives a critical and well contextualised work to realise and analytically preserve the legacy of the kings of Sen to posterity.

New Racial Missions of Policing Paul Amar, 2013-09-13. This book identifies new formations of race, racism and ethnicity at the intersection of neoliberalism, security, urban governance and the law through a comparative international analysis of police organizations and practices. It pushes analytical and theoretical boundaries by examining racialization and ethnicization in locations where the topic is politically taboo, such as in China, India and France, and where racial and ethnic hierarchies have supposedly been banished to the past, as in Bosnia and South Africa. This book also examines police and security services not as mere artefacts of state authority or the prerogatives of capitalist development but as relatively autonomous and uniquely productive intersections of new kinds of state, social and cultural formations that are remaking race, embodiment, fear and control on their own terms. This book was published as a special issue of Ethnic and Racial Studies.

Caste, Culture and Hegemony Sekhar Bandyopadhyay, 2004-08-19. It is widely believed that because of its exceptional social development, the caste system in colonial Bengal differed considerably from the rest of India. Through a study of the complex interplay between caste, culture and power, this book convincingly demonstrates that Bengali Hindu society preserved the essentials of caste discrimination in colonial times, even while giving the outward appearance of having changed. Using empirical data combined with an impressive array of secondary sources, Dr Bandyopadhyay delineates the manner in which Hindu caste society maintained its cultural hegemony and structural

cohesion This was primarily achieved by frustrating reformist endeavours by co-opting the challenges of the dalit and by marginalising dissidence It was through such a process of constant negotiation in the realm of popular culture argues the author that this oppressive social structure and its hierarchical ideology and values have survived Starting with an examination of the relationship between caste and power the book examines early cultural encounters between high Brahmanical tradition and the more egalitarian popular religious cults of the lower castes It moves on to take a close look at the relationship between caste and gender showing the reasons why the reform movement for widow remarriage failed It ends with an examination of the Hindu partition campaign which appropriated dalit autonomous politics and made Hinduism the foundation of an emergent Indian national identity Sekhar Bandyopadhyay breaks with many of the assumptions of two important schools of thought the Dumontian and the subaltern and takes instead a more nuanced approach to show how high caste hegemony has been able to perpetuate itself He thus takes up issues which go to the heart of contemporary problems in India's social and political fabric This important and original contribution will be widely welcomed by historians sociologists and political scientists *Encyclopedia of Race, Ethnicity, and Society* Richard T.
