Interstate Compacts A Question Of Federalism:

Interstate Compacts Marian E. Ridgeway, 1971 The interstate compact long dormant but now dynamic has become a significant tool for agreement on vital issues Prompted by the uncomfortable knowledge that changes are being made in the constitutional system by this device without public awareness or appreciation Miss Ridgeway has attempted to bring into focus what these compacts can do and what can be expected in the future from them by calling attention to four of the more important compacts a single state Illinois has with its neighbors Her in depth approach should prove extraordinarily revealing to elected officials as well as to students of government International Encyclopedia of Public Policy and Administration Volume 2 Jay M. Shafritz, 2019-03-22 This encyclopedia includes entries on the concepts issues and theories starting with alphabets D to K that define public policymaking evaluation management and implementation It also includes entries on the individuals commissions and organizations that have contributed to these fields **Encyclopedia of Politics of the American West** Steven L. Danver, 2013-04-25 The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America's most politically distinct not to mention its fastest growing region This work will cover not only the significant events and actors of Western politics but also deal with key institutional historical environmental and sociopolitical themes and concepts that are important to more fully understanding the politics of the West over the last century *Unifying the Nation* Joseph F. Zimmerman, 2015-01-27 In depth examination of a rarely studied article of the United States Constitution While there is a vast amount of scholarship on the US Constitution very little of it addresses Article IV The article's first section the Full Faith and Credit Clause requires that individual states must respect the public acts accords and judicial proceedings of every other state and the second section the Privileges and Immunity Clause prevents one state from treating the citizens of another state in a discriminatory manner In *Unifying the Nation* Joseph F Zimmerman provides a unique and comprehensive examination of court cases pertaining to both sections Article IV he argues is central to the political and economic union of the individual states that comprise the nation Many of the court cases cited in the text have tremendous day to day relevance and implications for the practice of government such as same sex marriage child adoption child support public welfare health care and telecommunications *Interstate Cooperation* Joseph F. Zimmerman, 2002-08-30 Zimmerman places in perspective the important roles played by interstate compacts and interstate administrative agreements in the governance systems of the United States Compacts are identified and classified by type Particular emphasis is placed on federal government promotion of compacts including the US Congress enactment of federal state compacts in which the federal government joins member states as partners to achieve stated goals Formal and informal interstate administrative agreements have increased in number dramatically during the past six decades and relate to both minor and very important issues Credit for many interstate administrative agreements must be ascribed to associations of state government officers which encourage their members to promote interstate

cooperation and also draft model state laws and administrative agreements Although compacts and agreements have lubricated the functioning of the United States governmental system as Zimmerman makes clear the full potential of compacts and agreements has not been achieved to date and he makes recommendations to improve the level of interstate cooperation An important resource for scholars and students of American government federal state and local as well as administrators and policymakers

Congress Joseph F. Zimmerman,2010-01-11 Reassessing the relationship between the federal government and the states Congress Facilitator of State Action examines how the U S Congress routinely and necessarily devolves power to the states A host of congressional statutes reveal the ways in which the U S Congress facilitates state action to solve certain problems including the enforcement of respective criminal laws Financial and nonfinancial assistance to the states are elucidated and assessed including technical assistance and the establishment of such programs as the National Driver Register Comprehensive and timely this book illuminates a key dynamic in the country s political system and offers a more complex and accurate theory of federalism Joseph F Zimmerman is Professor of Political Science at the University at Albany State University of New York His many books include Contemporary American Federalism The Growth of National Power Second Edition The Silence of Congress State Taxation of Interstate Commerce and The Government and Politics of New York State Second Edition all published by SUNY Press

Interstate Cooperation, Second Edition Joseph F. Zimmerman,2012-06-14 Cooperative interstate relations are essential for maintaining the economic and political union established by the United States Constitution Despite this importance interstate compacts federal state compacts and interstate administrative agreements have generally been neglected by political scientists for more than half a century In this second edition of Interstate Cooperation Joseph F Zimmerman demonstrates that many public goals can be achieved by either a compact or an agreement Interstate administrative agreements moreover may be verbal or written and have increased sharply in number because their flexibility allows changes to be made quickly without legislative authorization Zimmerman aims to stimulate additional research on these forms of interstate cooperation in order to help formulate additional innovative solutions to our major interstate problems

Zimmerman,2010-12-09 In *Regulating the Business of Insurance in a Federal System* Joseph F Zimmerman provides an up to date historical description and analysis of the regulation of the business of insurance in the United States He focuses on the controversial issue of whether Congress should authorize optional federal charters for insurance companies thereby

establishing a dual charter system superficially similar to the dual banking system Reviewing the evidence between federal and state level regulation of the financial securities industry Zimmerman finds that federal regulation falls woefully short of its state counterpart He concludes that the current system rather than the proposed dual insurance regulatory system is the most efficient and effective

State Constitutions for the Twenty-first Century, Volume 2 Frank P. Grad, Robert F. Williams, 2006-06-01 Constitutional reform requires not only good ideas but also the ability to translate those ideas into language that will effectuate the drafters aims This book the second of three volumes on state constitutions is the essential guide for those involved in constitutional reform It identifies the recurrent problems that reformers face in drafting or amending state constitutions and explores how those problems might be addressed It also explains why drafting state constitutions is a distinctive enterprise different from the drafting of other legal documents

Silver Fox of the Rockies Daniel Tyler, Delph Carpenter, 2003 Delphus E Carpenter 1877 1951 was Colorado s commissioner of interstate streams during a time when water rights were a legal battleground for western states A complex unassuming man as rare and cunning in politics and law as the elusive silver fox of the Rocky Mountain West Carpenter boldly relied on negotiation instead of endless litigation to forge agreements among states first before federal intervention In *Silver Fox of the Rockies* Daniel Tyler tells Carpenter s story and that of the great interstate water compacts he helped create Those compacts produced in the early twentieth century have guided not only agricultural use but urban growth and development throughout much of the American West to this day In Carpenter s time most western states relied on the doctrine of prior appropriation first in time first in right which granted exclusive use of resources to those who claimed them first regardless of common needs Carpenter feared that population growth and rapid agricultural development in states sharing the same river basins would rob Colorado of its right to a fair share of water To avoid that eventuality Carpenter invoked the compact clause of the U S Constitution a clause previously used to settle boundary disputes and applied it to interstate water rights The result was a mechanism by which complex issues involving interstate water rights could be settled through negotiation without litigating them before the U S Supreme Court Carpenter believed in the preservation of states rights in order to preserve the constitutionally mandated balance between state and federal authority Today water remains critically important to the American West and the great interstate water compacts Carpenter helped engineer constitute his most enduring legacy Of particular significance is the Colorado River Compact of 1922 without which Hoover Dam could never have been built
