Enjoying Opera A The New Opera Goer:

Opera for the People Katherine K. Preston,2017-10-11 Opera for the People is an in depth examination of a forgotten chapter in American social and cultural history the love affair that middle class Americans had with continental opera translated into English in the 1870s 1880s and 1890s Author Katherine Preston reveals how contrary to the existing historiography on the American musical culture of this period English language opera not only flourished in the United States during this time but found its success significantly bolstered by the support of women impresarios prima donnas managers and philanthropists who provided financial backing to opera companies This rich and compelling study details the lives and professional activities of several important players in American postbellum opera including manager Effie Ober philanthropist Jeannette Thurber and performers artistic directors Caroline Richings Euphrosyne Parepa Rosa Clara Louise Kellogg and the people s prima donna Emma Abbott Drawing from an impressive range of primary sources including contemporaneous music and theater periodicals playbills memoirs librettos scores and reviews and commentary on the performances in digitized newspapers Preston tells the story of how these and other women influenced the activities of some of the more than one hundred opera companies touring the United States during the second half of the 19th century performing opera in English for a diverse range of audiences Countering a pervasive and misguided historical understanding of opera reception in the United States unduly influenced by modern attitudes about the genre as elite exclusive expensive and of interest only to a niche market Opera for the People demonstrates the important and hitherto unsuspected place of opera in the rich cornucopia of late century American musical theatre which would eventually lead to the emergence of American musical comedy

engaging with the live through the particular analytical focus of audiences and experience The status and significance of the live in performance has become contested perceived as variously as a marker of ontological difference a promotional slogan or a mystical evocation of cultural value Moving beyond debates about the relationship between the live and the mediated this collection considers what we can know and say about liveness in terms of processes of experiencing and processes of making Drawing together contributions from theatre music dance and performance art it takes an interdisciplinary approach in asking not what liveness is but how it matters and to whom The book invites readers to consider how liveness is produced through processes of audiencing as spectators bring qualities of a liveness into being through the nature of their attention and how it becomes materialized in acts of performance acts of making acts of archiving and acts of remembering Theoretical chapters and practice based reflections explore liveness eventness and nowness as key concepts in a range of topics such as affect documentation embodiment fandom and temporality showing how the relationship between audience and event is rarely singular and more often malleable and multiple With its focus on experiencing liveness this collection will be of interest to disciplines including performance audience and cultural studies visual arts cinema and sound technologies
