complete manuscript versions few English texts of the late medieval period seem to have achieved the popularity of Nicholas
Love s fifteenth century translation and adaptation of the Latin *Meditationes Vitae Christi* The Mirror of the Blessed Life of
Jesus Christ The Mirror has received surprisingly little scholarly attention and is often contextualized in terms of its role in
the theological conflict between English ecclesiastical orthodoxy and the teachings of heresiarch John Wycliff David Falls
presents a new account of the text s history which de centralises but does not disregard the influence of the Wycliffite
controversy Falls interrogates preconceptions and investigates new possibilities for understanding the composition
circulation function and use of Love s Mirror by examining both the textual modifications and additions made by Love in his
adaptation of the Latin and places these alterations in context by examining individual copies of the Mirror The manuscript
copies are read as both sites of literary consumption and nexuses of textual transition demonstrating that it was Love s ability
to inscribe his work with functional diversity which explains the Mirror s popularity This book presents a nuanced picture not
only of the Mirror s production circulation and function but also the dynamic and flourishing devotio literary culture of late

representative in the Hebrew Bible It is the only Hebrew biblical sexual prohibition explicitly mentioned in the Decalogue A
solid understanding of Hebrew biblical adultery therefore is an important step towards grasping the vital role of human
sexuality in the Hebrew Bible both in terms of inter human relationships and the relationship between the human and the
divine Without prejudice to the contents of the Hebrew biblical lexicons and theological dictionaries this work aims at
providing a comprehensive understanding of adultery in the Hebrew Bible its meaning punishments and the implications
