Purgatory and the cult of the saints It then proceeds to shift the spotlight to conceptions of death in Eastern Christianity all the while maintaining a comparative approach This book not only delves into the theoretical but draws on archaeological evidence such as artefacts to provide a broader view of the evidence Ultimately it finds that medieval Christians continued the process that started in Christianity's earliest days of borrowing and modifying existing ideas of death and the afterlife in order to produce a distinctive and sophisticated Christian set of beliefs As an accessible introduction this book stands as a valuable resource to students scholars and all readers interested in early medieval Christianity the history of ideas and the Introduction to Medical-Surgical Nursing - E-Book Adrianne Dill Linton, 2014-04-14 With just the right level of information to equip you to effectively care for adults and older adults Linton's Introduction to Medical Surgical Nursing 5th Edition is the leading LPN LVN text in its field Covering both med surg and psychiatric mental health conditions and disorders it addresses your role in a variety of care settings emphasizes culturally competent care and holistic nursing and thoroughly covers all relevant NCLEX PN Test Plan content Abundant real life case studies clearly show how to apply what you ve learned to clinical practice Features separate chapters on common high profile disorders including hypertension diabetes and shock providing an in depth understanding for patient care Offers foundational units on basic concepts related to the health care system care settings the nursing process leadership nutrition the older adult growth and nutrition legal ethical considerations evidence based nursing care and many more essential topics avoiding repetition later in the text Includes a separate comprehensive unit on the older adult and related disorders no other LPN LVN med surg text has as much coverage of this primary patient group Includes a separate comprehensive unit on psychosocial responses to illness psychiatric disorders and substance abuse eliminating the need for a separate psychiatric mental health nursing text Emphasizes content related to the NCLEX PN Test Plan including health promotion nutrition legal ethical issues HIPAA and prevention of medication medical errors Offers in depth pharmacology coverage the Pharmacology Tutorial covers drug classifications how drugs work and nursing responsibilities Pharmacology Capsules boxes provide medication information precautions for use interactions and side adverse effects and Pharmacology and Medications tables in body systems chapters include classification use action side adverse effects and nursing interventions all with the goal of reducing medication errors on the job and equipping you to pass the NCLEX exam Assists with assignment and supervision helping you assign tasks to nurse assistants patient care techs and unlicensed assistive personnel and making sure you understand the difference between delegation management supervision and assignment of tasks on the health care team Features Diagnostic Tests and Procedures tables for a quick reference to MRI CT Doppler flow lumbar puncture tests for neurologic disorders and much more Highlights timely information with Health Promotion boxes Cultural Considerations boxes Nutrition Considerations boxes and Complementary and Alternative Therapies boxes Provides bulleted lists of nursing instructions for Patient Teaching Plans stressing the role and responsibility of the LPN LVN to reinforce patient education Provides consistent
