Haydn the Creation:

Haydn: The Creation Nicholas Temperley, 1991-05-31 Haydn's Creation is one of the great masterpieces of the classical period. This absorbing and original account of the work provides an indispensable guide for the concertgoer, performer, and student alike. The author places the work within the oratorio tradition and contrasts the theological and literary character of the English libretto with the Viennese milieu of the first performances. The complete text is provided in both German and English versions as a useful reference point for discussion of the design of the work, the musical treatment of the words, including questions of Haydn's pictorialism, and a detailed examination of the different movement types employed. The book also contains a brief history of the reception of the work with appendices of notes on the changing performance traditions and selected extracts from critical accounts from the nineteenth and twentieth centuries. *Haydn's "Creation," at Boston Music Hall, Dec. 26, 1875. Haydn, The Creation Bruce Campbell MacIntyre, 1998 Haydn's The Creation presents a thorough treatment of the genesis, structure, and performance implications of this perennial favorite. This volume draws upon recent research on the oratorio and on The Creation in particular. Incorporating the author's own research over the last 15 years, this volume traces the two hundred year history of the piece, analyzes its style, and brings together in a single source the relevant criticism and significant observations of the other specialists in this field, making it the definitive volume on this work for decades to come. Bruce MacIntyre is Associate Professor of Music at Brooklyn College and CUNY Graduate Center, where he teaches general courses in musicology as well as specialized courses on late eighteenth-century music, the mass and oratorio, and the music of Haydn.
