Entangling Net Alaskas Commercial Fishing Women Tell Their Lives:

The Entangling Net Leslie Leyland Fields, 1997 Truly remarkable portraits of courage John van Amerongen editor Alaska Fisherman's Journal These little known tales of women working in Alaska's commercial fishing industry make for great reading Readers will be amazed by their stories Laine Welch Alaska Fish Radio A richly textured story a multi genre text that invites readers to witness women's conversation with America's last frontier Alaska Patricia Foster University of Iowa Why do women choose an occupation that has been ranked the most dangerous in the nation What do women give up and get in return when they take on the tasks of fishermen The Entangling Net explores these issues through the stories of twenty women who have chosen to work in this extremely risky male dominated profession Leslie Leyland Fields lyrically weaves their stories with her own experiences as a fishing woman She tells of long exhausting days in skiffs catching fish in brutally cold weather on waters that are often violent Her words and those of the women she interviews convey the paradoxical relationship the women have with commercial fishing they face extraordinarily difficult working conditions made more difficult and dangerous by male crews and skippers who don't welcome women yet they feel impelled by the challenge of the work to return to their jobs season after season **Out on the Deep Blue** Leslie Leyland Fields, 2002-10-04 True stories of daring persistence and survival from the nation's most dangerous profession **Hooked!** Leslie Leyland Fields, 2011-09-01 The rousing sea stories are all here The dramas of near death battles the sickening tragedy of lovers and friends lost to the waters but this is not the whole story This collection represents an extraordinary holistic view of Alaskan fishing Not just the dying but the living not just the obsessive doing of fishing but the passionate being as well Readers will understand why so many are hooked unwilling or unable to leave this uncommon life Collectively the 15 fisher writers in this anthology have fished cod halibut salmon crab and herring Some have fished commercially for several seasons others have spent most of their lives on the water Included are Moe Bowstern Michael Crowley Wendy Erd Leslie Leyland Fields Naphtali Fields Erin Freistrad Joel Gay Sig Hansen Mary Jacobs Nancy Lord Marta Sutro Toby Sullivan Joe Upton Spike Walker and Shannon Zellerhoff **The Hidden Half of the Family** Christina K. Schaefer, 1999 Offers information on finding female ancestors in each state highlighting those laws both federal and state that indicate when a woman could own real estate in her own name devise a will and enter into contracts In addition entries contain information on marriage and divorce law immigration citizenship passports suffrage and slave manumission Material is included on African American Native American and Asian American women as well as patterns of European immigration Period covered is from the 1600s to the outbreak of WWII Annotation copyrighted by Book News Inc Portland OR **Aleut Identities** Katherine L. Reedy-Maschner, 2010 A contemporary portrait of an Indigenous commercial fishing society in the Arctic **Crossing the Waters** Leslie Leyland Fields, 2016-10-01 2017 Christianity Today Book Award winner Christian Living Discipleship category Get ready for the wettest stormiest wildest trip through the Gospel you've ever taken The gospels are dramatic wild and wet set in a rich

maritime culture on the shores of the Sea of Galilee Jesus first disciples were ragtag fishermen and Jesus messages and miracles teem with water fish fishermen net breaking catches sea crossings boat sinking storms and even a walk on water Because this world is foreign and distant to us we've missed much about the disciples experiences and about following Jesus until now Leslie Leyland Fields a well known writer respected biblical exegete and longtime Alaskan fisherwoman crosses the waters of time and culture to take us out on the Sea of Galilee through a rugged season of commercial fishing with her family in Alaska and through the waters of the New Testament You'll be swept up in a fresh experience of the gospels traveling with the fishermen disciples from Jesus baptism to the final miraculous catch of fish and also experiencing Leslie's own efforts to follow Christ out on her own Alaskan sea In a time when so many are unfollowing Jesus and leaving the Church Crossing the Waters delivers a fresh encounter with Jesus and explores what it means to come follow me

The Columbia Guide to American Environmental History Carolyn Merchant, 2002 Merchant provides a context setting overview of American environmental history from the beginning of the millennium an encyclopedia of important concepts people agencies and laws a chronology of major events and an extensive bibliography including films videos CD ROMs and websites

American Environmental History Carolyn Merchant, 2007 By studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity's unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis Beginning with the precolonial land use practice of Native Americans and concluding with our twenty first century concerns over our global ecological crisis American Environmental History addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class Entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the Russian sea otter trade Columbia River salmon fisheries the environmental justice movement and globalization This illustrated reference is an essential companion for students interested in the ongoing transformation of the American landscape and the conflicts over its resources and conservation It makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to conduct their research The volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and Web sites

The Fishermen's Frontier David F. Arnold, 2009-11-17 In The Fishermen's Frontier David Arnold examines the economic social cultural and political context in which salmon have been harvested in southeast Alaska over the past 250 years He starts with the aboriginal fishery in which Native fishers lived in close connection with salmon ecosystems and developed rituals and lifeways that reflected their intimacy The transformation of the salmon fishery in southeastern Alaska from an aboriginal resource to an industrial commodity has been fraught with historical ironies Tribal peoples usually considered egalitarian and communal in nature

managed their fisheries with a strict notion of property rights while Euro Americans so vested in the notion of property and ownership established a common property fishery when they arrived in the late nineteenth century In the twentieth century federal conservation officials tried to rationalize the fishery by improving upon nature and promoting economic efficiency but their uncritical embrace of scientific planning and their disregard for local knowledge degraded salmon habitat and encouraged a backlash from small boat fishermen who clung to their irrational ways Meanwhile Indian and white commercial fishermen engaged in identical labors but established vastly different work cultures and identities based on competing notions of work and nature Arnold concludes with a sobering analysis of the threats to present day fishing cultures by forces beyond their control However the salmon fishery in southeastern Alaska is still very much alive entangling salmon fishermen industrialists scientists and consumers in a living web of biological and human activity that has continued for thousands of years

From Cabin 'Boys' to Captains Jo Stanley, 2016-04-04 Traditionally a woman's place was never on stormy seas But actually thousands of dancers purserettes doctors stewardesses captains and conductresses have taken to the waves on everything from floating palaces to battered windjammers Their daring story is barely known even by today's seawomen From before the 1750s women fancying an oceangoing life had either to disguise themselves as cabin boys or acquire a co-operative husband with a ship attached Early pioneers faced superstition and discrimination in the briny monasteries Today women captain cruise ships as big as towns and work at the highest level in the global maritime industry This comprehensive exploration looks at the Merchant Navy comparing it to the Royal Navy in which Wrens only began sailing in 1991 Using a wide variety of interviews and sources Jo Stanley vividly reveals the incredible journey across time taken by these brave and lively women salts

Nature's Fortune Mark R Tercek, Jonathan S Adams, 2013-04-09 What is nature worth The answer to this question which traditionally has been framed in environmental terms is revolutionizing the way we do business In Nature's Fortune Mark Tercek CEO of The Nature Conservancy and former investment banker and science writer Jonathan Adams argue that nature is not only the foundation of human well being but also the smartest commercial investment any business or government can make The forests floodplains and oyster reefs often seen simply as raw materials or as obstacles to be cleared in the name of progress are in fact as important to our future prosperity as technology or law or business innovation Who invests in nature and why What rates of return can it produce When is protecting nature a good investment With stories from the South Pacific to the California coast from the Andes to the Gulf of Mexico and even to New York City Nature's Fortune shows how viewing nature as green infrastructure allows for breakthroughs not only in conservation protecting water supplies enhancing the health of fisheries making cities more sustainable livable and safe and dealing with unavoidable climate change but in economic progress as well Organizations obviously depend on the environment for key resources water trees and land But they can also reap substantial commercial benefits in the form of risk mitigation cost reduction new investment opportunities and the protection of assets Once leaders learn how to account for nature in financial terms they

can incorporate that value into the organization's decisions and activities just as habitually as they consider cost revenue and ROI. A must read for business leaders, CEOs, investors, and environmentalists alike. *Nature's Fortune* offers an essential guide to the world's economic and environmental well-being. Red Flags and Lace Coiffes Charles R. Menzies, 2011-08-01. This book explores the question of why fishing communities continue their struggle to survive despite often calamitous changes in ecology and economy. Using historical ethnography as a lens through which to understand how fishers of the Bigouden region of France and their families have reinvented themselves, Menzies argues that local identity plays an important role in their perseverance as global capitalist pressures continually force them to reorganize or disappear entirely. Touching on many concepts that are fundamental to anthropology, culture, identity, kinship, work, political economy, and globalization, and filled with personal stories and warmth, this ethnography will be a welcome teaching tool for instructors and an enticing read for students. *Encyclopaedia of Occupational Health and Safety* Jeanne Mager Stellman, 1998. *Alaska History*, 1998.
