The Trickster in Contemporary Film Helena Bassil-Morozow, 2013-03 This book discusses the role of the trickster figure in contemporary film against the cultural imperatives and social issues of modernity and postmodernity and argues that cinematic tricksters always reflect psychological economic and social change in society It covers a range of films from Charlie Chaplin s classics such as Modern Times 1936 and The Great Dictator 1940 to contemporary comedies and dramas with trickster actors such as Jim Carrey Sacha Baron Cohen Andy Kaufman and Jack

Nicholson *The Trickster in Contemporary Film* offers a fresh perspective on the trickster figure not only in cinema but in Western culture in general. Alongside original film analyses it touches upon a number of psychosocial issues including sovereignty of the individual, tricksterish qualities of the media and human relationships in the mercurial digital age. Further topics of discussion include common motifs in trickster narratives, the trickster and personal relationships, gonzo trickster and the art of comic insurrection. Employing a number of complementary approaches such as Jungian psychology, film semiotics, narrative structure theories, Victor Turner's concept of liminality and Mikhail Bakhtin's theory of the carnivalesque, this book is essential reading for students and scholars of film as well as anyone with an interest in analytical psychology and wider critical issues in contemporary culture.

Wild/lives Terrie Waddell, 2014-02-25 Wild lives draws on myth popular culture and analytical psychology to trace the machinations of trickster in contemporary film and television This archetypal energy traditionally gravitates toward liminal spaces physical locations and shifting states of mind By focusing on productions set in remote or isolated spaces Terrie Waddell explores how key trickster infused sites of transition reflect the psychological fragility of their willing and unwilling occupants In differing ways the selected texts Deadwood Grizzly Man Lost Solaris The Biggest Loser Amores Perros and Repulsion all play with inner and outer marginality As this study demonstrates the dramatic potential of transition is not always geared toward resolution Prolonging the anxiety of change is an increasingly popular option Trickster moves within this wildness and instability to agitate a form of dialogue between conscious and unconscious processes Waddell's imaginative interpretation of screen material and her original positioning of trickster will inspire students of media cinema gender and Jungian studies as well as academics with an interest in the application of Post Jungian ideas to screen culture
