that plague the dominant individual opportunity approach in entrepreneurship They describe the key dynamics mechanisms and practices of entrepreneurship as networking and point at fruitful networking strategies for entrepreneurs Thus the authors provide an integrated and dynamic account of entrepreneurial agency that prioritizes interaction with the surrounding social environment They also explain what a viable network is for entrepreneurs and how networking activities affect their endeavours Their perspective sheds new light on the origins of opportunities and how entrepreneurs access and mobilize resources The approach also explains how entrepreneurs build legitimacy and exploit the networks they work within Offering a groundbreaking theory of entrepreneurial action as networking Entrepreneurship as Networking opens up an entirely new research agenda **Entrepreneurship and New Value Creation** Alain Fayolle, 2007-11-22 Why do some individuals decide they want to create businesses and then actually do so Why do others decide against this course of action even though they appear to have what it takes to succeed These two questions were among the first that researchers in the field of entrepreneurship tried to answer Recently it seems that the problem is much more difficult to solve than it first appeared thirty years ago The venture creation phenomenon is a complex one covering a wide variety of situations The purpose of this book is to improve our understanding of this complexity by offering both a theory of the entrepreneurial process and practical advice on how to start a new business and manage it effectively Entrepreneurship and New Value Creation is a fascinating research driven book that will appeal to graduate students researchers and reflective practitioners concerned with the dynamics of the entrepreneurial process **Entrepreneurship Text and cases** Bidyadhar Behera, 2019-06-12 Entrepreneurship The Entrepreneur Types of Entrepreneurs Innovation and Entrepreneur Women Entrepreneur Rural Enterpreneurship Tourism Enterpreneurship Micro and Small Entreprises Enterpreneurship and Environment Culture Career and Competence Franchising and Entrepreneurship Entreprenuerial Team Social Entrepreneurship Problems of Entrepreneurship Index Immigrant Entrepreneurship Jan Rath (Editor of this Special Issue).
