Environmental Aesthetics Theory Research And Application:

Environmental Aesthetics Jack L. Nasar, 1992-07-31 How do people react to the visual character of their surroundings What can planners do to improve the aesthetic quality of these surroundings Too often in environmental design visual quality aesthetics is misunderstood as only a minor concern dependent on volatile taste and thus undefinable Yet a substantial body of research indicates the importance of visual quality in the environment to the public and has uncovered systematic patterns of human response to visual attributes of the built environment Efforts to understand environmental aesthetics have been undertaken by investigators from such diverse fields as landscape architecture environmental psychology geography philosophy architecture and city planning As a result the relevant information is scattered and not readily available to professionals and policy makers The book brings together classic and new contributions by distinguished workers in different disciplines It explores theory and data on preferences in the visual environment and also addresses the practical application of aesthetic criteria in design planning and public policy Promising directions for future research are identified **The**

Aesthetics of Natural Environments Allen Carlson, Arnold Berleant, 2004-02-10 The Aesthetics of Natural Environments is a collection of essays investigating philosophical and aesthetics issues that arise in our appreciation of natural environments The introduction gives an historical and conceptual overview of the rapidly developing field of study known as environmental aesthetics The essays consist of classic pieces as well as new contributions by some of the most prominent individuals now working in the field and range from theoretical to applied approaches The topics covered include the nature and value of natural beauty the relationship between art appreciation and nature appreciation the role of knowledge in the aesthetic appreciation of nature the importance of environmental participation to the appreciation of environments and the connections between the aesthetic appreciation of nature and our ethical obligations concerning its maintenance and preservation This volume is for scholars and students focussed on nature landscapes and environments individuals in areas such as aesthetics environmental ethics geography environmental studies landscape architecture landscape ecology and the planning and design disciplines It is also for any reader interested in and concerned about the aesthetic quality of the world in which we live **Environmental Aesthetics** J. Douglas Porteous, 2013-07-04 Environmental Aesthetics is a comprehensive introduction It includes a history of aesthetics discussing the psychology of human environment relations and artistic influences on the city and analysing the roles of policy and planning **Urban Sustainability Through**

Environmental Design Kevin Thwaites, Sergio Porta, Ombretta Romice, Mark Greaves, 2007-12-06 What can architects landscape architects and urban designers do to make urban open spaces streets and squares more responsive lively and safe Urban Sustainability through Environmental Design answers this question by providing the analytical tools and practical methodologies that can be employed for sustainable solutions to the design and management of urban environments The book calls into question the capability of quick fix development solutions to provide the establishment of fixed communities

and suggests a more time conscious and evolutionary approach This is the first significant book to draw together a pan European view on sustainable urban design with a specific focus on social sustainability It presents an innovative approach that focuses on the tools of urban analysis rather than the interventions themselves With its practical approach and wide ranging discussion this book will appeal to all those involved in producing communities and spaces for sustainable living from students to academics through to decision makers and professional leaders

Toward the Integration of Theory, Methods, Research, and Utilization Gary T. Moore, Robert W. Marans, 2013-03-09 This fourth volume in the Advances in Environment Behavior and Design series continues the intent of earlier volumes by exploring new directions in the multidisciplinary environment behavior EB or EBS field The series is organized around a framework of theory methods research and utilization that some say has defined the field for the past 15 years This fourth volume is devoted to chapters that explore the integration of theory quantitative and qualitative research and utilization in policy planning and architecture The authors selected for this volume exemplify the multidisciplinary character of the field they have been selected from architecture environmental psychology environmental studies housing research landscape architecture social anthropology social ecology urban design and urban planning from academe and practice and from Australia Europe and North America

HISTORY OF THE ADVANCES SERIES The idea for the series emerged in 1983 at meetings of the Board of Directors of the Environmental Design Research Association EDRA Several publishers were contacted about the possibility of an EDRA Annual Review Eliot Werner at Plenum Press expressed great interest but suggested that an Advances series would be more appropriate since publication could be tied to a less specific timetable EDRA Plenum and the editors signed a contract in June 1984 for three volumes with an open door for oral agreements between Plenum and the editors after that time Four volumes have been published Volume 1 1987 Volume 2 1989 Volume 3 1991 and the current Volume 4 each containing 10 to 12 chapters

Aesthetics, Well-being and Health Birgit Cold, 2024-11-07 In everyday life most people do not reflect seriously on the impacts of architecture and environmental aesthetics on their well being and health Originally published in 2001 as part of the Ethnoscapes Current Challenges in the Environmental Social Sciences series reissued now with a new series introduction *Aesthetics Well being and Health* Essays within *Architecture and Environmental Aesthetics* is an intriguing volume bringing together professionals working in architecture planning urban design and social policy with academics from both humanities and social sciences to provide a broad based and insightful discussion on how aesthetics affect us emotionally and physically The essays help us understand our cultural and individual preferences related to the quality of the environment and challenge the common belief that environmental beauty is a matter of personal taste A wide range of concepts are discussed such as place identity multi sensuous and emotional processes geometrical order and controlled space architectural plasticity aesthetically real and virtual values participative design processes ethics in architecture and beauty and happiness The book highlights the importance for today's society to engage more in aesthetic ethics and to

understand the significance of creating aesthetically pleasing environments

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

Visual Research Methods in Design (Routledge Revivals) Henry Sanoff, 2016-05-20 First published in 1991 this book is about applications and issues relating to the visual environment The content pertains to the understanding of human behaviour in the environment by recording behaviour and actions or by direct interaction with people The author examines research and planning methods that primarily stress the visual features of the physical environment Traditionally environmental research has relied on verbal descriptions and perceptions of the physical environment virtually ignoring the visual component and the potential application of the social sciences for gathering this data Various strategies that can expand the visual information base have been explored here diagramming photo interviewing photo sorting mapping notation simulation videotaping and CADD

Person-environment-behavior Research Douglas Amedeo, Reginald G. Golledge, Robert John Stimson, 2009-01-01 Research into spatial influences on people s everyday activities and experiences presents many conceptual and methodological complexities Written by leading authorities this book provides a comprehensive framework for collecting and analyzing reliable person environment behavior data in real world settings that rarely resemble the controlled conditions described in typical texts An array of research designs are illustrated in chapter length examples addressing such compelling issues as spatial patterns of voting behavior ways in which disabilities affect people s travel and wayfinding how natural and built environments evoke emotional responses spatial factors in elementary teaching and learning and more A special chapter guides the student or beginning researcher to craft a successful research proposal

Design by Competition Jack L. Nasar, 1999-02-28 What meanings do buildings and places convey to the people who use and visit them Too often design competitions and signature architecture

result in costly eyesores that do not work How can sponsors and clients get more meaningful results In answer to these questions Dr Nasar supported by riveting studies of competitions and Peter Eisenman s competition winning design for the Wexner Center at the Ohio State University suggests the use of pre jury evaluation PJE He shows the potential value of this approach as well as visual quality programming for many kinds of environmental design for which the client wants to convey certain desirable meanings The studies from those specific to the Wexner Center to those covering the scope of history point to an alternative method for shaping the visual form of buildings places and cities

The Routledge Companion to Landscape Studies Peter Howard,Ian Thompson,Emma Waterton,Mick Atha,2018-09-03 This new edition of The Routledge Companion to Landscape Studies contains an updated and expanded selection of original chapters which explore research directions in an array of disciplines sharing a concern for landscape a term which has many uses and meanings It features 33 revised and or updated chapters and 14 entirely new chapters on topics such as the Anthropocene Indigenous landscapes challenging landscape Eurocentrism photography and green infrastructure planning The volume is divided into four parts Experiencing landscape Landscape heritage and culture Landscape society and justice and Design and planning for landscape Collectively the book provides a critical review of the various fields related to the study of landscapes including the future development of conceptual and theoretical approaches as well as current empirical knowledge and understanding It encourages dialogue across disciplinary barriers and between academics and practitioners and reflects upon the implications of research findings for local national and international policy in relation to landscape The Companion provides a comprehensive and up to date guide to current thinking about landscapes and serves as an invaluable point of reference for scholars researchers and graduate students alike

The Urban

Experience F.E. Brown, S.J. Neary, M.S. Symes, 2003-09-02 This book provides a representative selection of the highest quality papers submitted to the IAPS 13 conference held in Manchester in 1994. The papers are concerned with current research on the experience of living in cities and are drawn from developed, developing and under developed countries in all parts of the world.

Humanistic Design of Assisted Living John P. Marsden, 2005-05-13 Marsden provides an overview of assisted living's evolution and then addresses the current information resources available to designers drawing on consumer based research. He discusses successful humanistic design and presents a conceptual framework with six themes: familiar housing cues, protective enclosure, caring cues, human scale, usability and naturalness. He applies this framework to specific guidelines for building exteriors, interior entries and common living rooms and dining rooms. His recommendations are supported by photographs that demonstrate effective design strategies as well as some less successful examples. This book presents essential design guidelines for housing owners, operators, administrators, policy makers, gerontologists, interior designers and architects.

Nature, Aesthetics, and Environmentalism Allen Carlson, Sheila Lintott, 2008. *Nature, Aesthetics and Environmentalism: From Beauty to Duty* addresses the complex relationships between aesthetic appreciation and environmental issues and emphasizes the valuable contribution that environmental aesthetics can make to environmentalism. Allen Carlson, a pioneer in environmental aesthetics, and Sheila Lintott, who has published widely in aesthetics, combine important historical essays on the appreciation of nature with the best contemporary research in the field. They begin with the scientific, artistic and aesthetic foundations of current environmental beliefs and attitudes. Then they offer views on the conceptualization of nature and the various debates on how to properly and respectfully appreciate nature. The book introduces positive aesthetics, the belief that everything in nature is essentially beautiful, even the devastation caused by earthquakes or floods, and the essays in the final section explicitly bring together aesthetics, ethics and environmentalism to explore the ways in which each might affect the others.

Book jacket *Nature and Environment: The Psychology of Its Benefits and Its Protection* Marc Glenn Berman, 2017-04-20. Our Research Topic section entitled *Nature and the environment: The psychology of its benefits and its protection* will have two main lines. The first line of articles will center upon cutting edge research showing how interacting with nature can affect health, well being and overall improve cognition and affect. Articles in this line will stress in what ways nature can improve psychological functioning and health and also discuss the theories and evidence as to why nature can improve psychological functioning. For this line we welcome submission of articles that discuss the psychological health and well being benefits from interacting with nature as well as submissions that focus on theoretical considerations and underlying mechanisms that lead to the restorative effects of interacting with nature. Given that nature can have a positive impact on psychological functioning and overall health, it is also important to understand the variables that facilitate people's recognition of environmental issues.

that can help foster a more positive attitude towards the preservation of nature This brings us to the second line of articles which will center upon the psychological mechanisms that make individuals more or less likely to accept the seriousness of environmental challenges such as climate change Given the new cutting edge research in this field we may be able to make individuals more proactive in the protection of the environment and more accepting of policy measures required to mitigate climate change We see this research topic as a way for psychological scientists to contribute substantially to an important area of public debate and policy For this line we welcome articles that will focus on ways in which people respond to various framings of policy relevant information and how morality may play into the individuals policy views that center on climate change and environmental protection
