Environmental Viewpoints Vol :

African Environmental Perspectives - Volume 1 Dr. Akanimo Odon, Dr. Sam Guobadia, 2011-06-24 The African Environmental Perspectives AEP is a publication of Academia for Green Africa AFGA AFGA is an initiative of Benson Idahosa University Benin City Nigeria and Envirofly Group United Kingdom that identifies the role of academic institutions in Africa towards meeting and addressing the current global challenges of climate Change and the Environment Conceived in early 2010 as a follow up to the deliberations of the last Climate Change Summit in Copenhagen this initiative is strategic in bridging the environmental competence gaps currently in Africa using strategic partnerships and networks with established environmental academic and corporate institutions and bodies globally This is the first volume publication made up of a compilation of environmental inclined speeches and presentations at the last Academia for Green Africa International Conference that took place at the Benson Idahosa University Nigeria in October 2010 **Environmental Perspectives** David Canter, Martin Krampen, David Stea, 2024-11-07 Originally published in 1988 reissued now with a new series introduction Environmental Perspectives was the first in a trilogy of books to open the series Ethnoscapes Current Challenges in the Environmental Social Sciences These three titles brought together specially commissioned contributions that cover much of the range of topics that the series as a whole would cover Although the following volumes would not have the same format the opening trilogy gave an overview of what was to come while also providing a broad base for the future authors to build upon The first of these volumes focuses essentially on theory It brings together papers covering our growing understanding of the ways in which human actions are integrated within our knowledge of the places in which those actions occur The contributors also explore the social historical antecedents that give meaning to our everyday surroundings as well as the psychological underpinnings to aesthetic experience *Environmental Health Perspectives*, 1993

Environmental Governance for Sustainable Development Uma Nabhi, 2023-04-10 This book studies the role of the United Nations Environment Programme UNEP as an advocate for greater environmental responsibility and analyses the major achievements and outcomes of two landmark conferences Stockholm 1972 and Rio 1992 which set the agenda for the future role of the UNEP It discusses the UNEP's evolution objectives and the problems of differing perspectives within its ability to deal with environmental challenges its skill in successfully carrying out the mandate and contributing to the pursuit of environmental security The book also looks at five developing countries of South Asia namely India Bangladesh Nepal Pakistan and Sri Lanka to study the role of the South Asia Co operative Environment Programme SACEP which plays an active role in the management of environmental issues and constitutes an important landmark in regional cooperation in South Asia The author evaluates the contributions of National Conservation Strategies not only in creating environmental awareness but also in strengthening environmental governance architecture by integrating Millennium Development Goals and Sustainable Development Goals into the development planning of these South Asian countries under study Drawing on in

depth research and interviews this book will be of interest to students teachers researchers policymakers and strategic analysts working in the fields of environment studies sustainable development environmental science and policy environmental law and governance geography politics and international affairs *Environmental Health Hazards and Social Justice* Florence Margai, 2013-10-18 This book provides geographic perspectives and approaches for use in assessing the distribution of environmental health hazards and disease outcomes among disadvantaged population groups Estimates suggest that about 40 per cent of the global burden of disease is attributable to exposures to biological and chemical pathogens in the physical environment And with today s rapid rate of globalization and these hazardous health effects are likely to increase with low income and underrepresented communities facing even greater risks In many places around the world marginalized communities unwillingly serve as hosts of noxious facilities such as chemical industrial plants extractive facilities oil and mining and other destructive land use activities Others are being used as illegal dumping grounds for hazardous materials and electronic wastes resulting in air soil and groundwater contamination The book informs readers about the geography and emergent health risks that accompany the location of these hazards with emphasis on vulnerable population groups The approach is applications oriented illustrating the use of health data and geographic approaches to uncover the root causes contextual factors and processes that produce contaminated environments Case studies are drawn from the author s research in the United States and Africa along with a literature review of related studies completed in Europe Asia and South America This comparative approach allows readers to better understand the manifestation of environmental hazards and inequities at different spatial scales with localized disparities evident in both developed and developing countries

Environmental Toxicology and Risk Assessment Bruce M. Greenberg, 2001 **The Routledge Handbook of Environmental Justice** Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art

but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists

Pesticides in the Modern World Margarita Stoytcheva, 2011-09-12 The introduction of the synthetic organochlorine organophosphate carbamate and pyrethroid pesticides by 1950 s marked the beginning of the modern pesticides era and a new stage in the agriculture development Evolved from the chemicals designed originally as warfare agents the synthetic pesticides demonstrated a high effectiveness in preventing destroying or controlling any pest Therefore their application in the agriculture practices made it possible enhancing crops and livestock s yields and obtaining higher quality products to satisfy the food demand of the continuously rising world s population Nevertheless the increase of the pesticide use estimated to 2 5 million tons annually worldwide since 1950 created a number of public and environment concerns This book organized in two sections addresses the various aspects of the pesticides exposure and the related health effects It offers a large amount of practical information to the professionals interested in pesticides issues

Akita, Treasure of Japan Barbara Bouyet, **Motivating Change: Sustainable Design and Behaviour in the Built Environment** Robert Crocker, Steffen Lehmann, 2013-07-24 Today s most pressing challenges require behaviour change at many levels from the city to the individual This book focuses on the collective influences that can be seen to shape change Exploring the underlying dimensions of behaviour change in terms of consumption media social innovation and urban systems the essays in this book are from many disciplines including architecture urban design industrial design and engineering sociology psychology cultural studies waste management and public policy Aimed especially at designers and architects *Motivating Change* explores the diversity of current approaches to change and the multiple ways in which behaviour can be understood as an enactment of values and beliefs standards and habitual practices in daily life and more broadly in the urban environment

Environmental Health Jacques Oosthuizen, 2012-02-03 Environmental health practitioners worldwide are frequently presented with issues that require further investigating and acting upon so that exposed populations can be protected from ill health consequences These environmental factors can be broadly classified according to their relation to air water or food contamination However there are also work related occupational health exposures that need to be considered as a subset of this dynamic academic field This book presents a review of the current practice and emerging research in the three broadly defined domains but also provides reference for new emerging technologies health effects associated with particular exposures and environmental justice issues The contributing authors themselves display a range of backgrounds and they present a developing as well as a developed world perspective This book will assist environmental health professionals to develop best practice protocols for monitoring a range of environmental exposure scenarios

Environmental Toxicology and Risk Assessment Diane Susan Henshel, 1999

Environmental Toxicology and Risk Assessment Edward E. Little, Bruce M. Greenberg, Aaron J. DeLonay, 1998

Non-exhaust Particulate Emissions from Road Transport An Ignored Environmental Policy Challenge

OECD, 2020-12-07 Non exhaust emissions of particulate matter constitute a little known but rising share of emissions from road traffic and have significant negative impacts on public health This report synthesizes the current state of knowledge about the nature causes and consequences of non exhaust particulate emissions It also projects how particulate matter emissions from non exhaust sources may evolve in future years and reflects on policy instrument mixes that can address this largely ignored environmental issue

The Effects of Induced Hydraulic Fracturing on the Environment Matthew McBroom, 2013-12-07 Hydraulic fracturing or fracking as it is commonly known refers to the practice of using liquids at very high pressures to fragment rock thereby allowing natural gas to be harvested This process increases energy resources but also has some negative environmental impacts as well This book looks at the environmental impact The first section looks at fracturing and the water supply the second section looks at ecosystems and wildlife while the final section examines the possible effects on human ecosystems and human health

The Impact of Air Pollution on Health, Economy, Environment and Agricultural Sources Mohamed Khallaf, 2011-09-26 This book aims to strengthen the knowledge base dealing with Air Pollution The book consists of 21 chapters dealing with Air Pollution and its effects in the fields of Health Environment Economy and Agricultural Sources It is divided into four sections The first one deals with effect of air pollution on health and human body organs The second section includes the Impact of air pollution on plants and agricultural sources and methods of resistance The third section includes environmental changes geographic and climatic conditions due to air pollution The fourth section includes case studies concerning of the impact of air pollution in the economy and development goals such as indoor air pollution in Mexico indoor air pollution and millennium development goals in Bangladesh epidemiologic and economic impact of natural gas on indoor air pollution in Colombia and economic growth and air pollution in Iran during development programs In this book the authors explain the definition of air pollution the most important pollutants and their different sources and effects on humans and various fields of life The authors offer different solutions to the problems resulting from air pollution

Environmental Management in Practice Elzbieta Broniewicz, 2011-07-05 In recent years the topic of environmental management has become very common In sustainable development conditions central and local governments much more often notice the need of acting in ways that diminish negative impact on environment Environmental management may take place on many different levels starting from global level e g climate changes through national and regional level environmental policy and ending on micro level This publication shows many examples of environmental management The diversity of presented aspects within environmental management and approaching the subject from the perspective of various countries contributes greatly to the development of environmental management field of research

Environmental Viewpoints Marie Lazzari, 1994 This is the third of a three volume set

providing excerpts and reprinted essays from over 80 periodicals as well as recent books and governmental publications
Twenty topics are arranged alphabetically presenting both historical and current information as well as divergent opinion

Air Pollution Anca Moldoveanu, 2011-09-06 Today an important issue is environmental pollution especially air pollution
Due to pollutants present in air human health as well as animal health and vegetation may suffer The book can be divided in two parts The first half presents how the environmental modifications induced by air pollution can have an impact on human health by inducing modifications in different organs and systems and leading to human pathology This part also presents how environmental modifications induced by air pollution can influence human health during pregnancy The second half of the book presents the influence of environmental pollution on animal health and vegetation and how this impact can be assessed the use of the micronucleus tests on *TRADESCANTIA* to evaluate the genotoxic effects of air pollution the use of transplanted lichen *PSEUDEVERNIA FURFURACEA* for biomonitoring the presence of heavy metals the monitoring of epiphytic lichen biodiversity to detect environmental quality and air pollution etc The book is recommended to professionals interested in health and environmental issues

50 Health Scares That Fizzled Joan R. Callahan, 2011-05-25 This engaging nontechnical book discusses 50 health scares that captured the public's attention before fading away covering real and perceived health threats from long ago eras to present times Despite the benefits of advanced technology and modern safety mechanisms the world around us seems to grow ever more dangerous and fraught with hidden risks Even in the information age it is challenging to discern factual scientific information from sensationalized accounts in the media urban legends or unsubstantiated Internet lore In *50 Health Scares That Fizzled* award winning author and researcher Joan R Callahan examines 50 health scares in 7 distinct categories medical interventions infectious diseases food scares additives in foods or beverages other biological hazards chemical or radiological exposures and lifestyle choices With great wit and a light tone Dr Callahan alleviates readers concerns and deftly explains the complex issues making the subject matter approachable
