Environmental Justice Creating Equality Reclaiming Democracy:

Environmental Justice Kristin Shrader-Frechette, 2002-09-26 Shrader Frechette offers a rigorous philosophical discussion of environmental justice Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergenerational equity and just compensation and then bringing them to bear on real world social issues she shows how many of these core concepts have been compromised for a large segment of the global population including Appalachians African Americans workers in hazardous jobs and indigenous people in developing nations She argues that burdens like pollution and resource depletion need to be apportioned more equally and that there are compelling ethical grounds for remedying our environmental problems She also argues that those affected by environmental problems must be included in the process of remedying those problems that all citizens have a duty to engage in activism on behalf of environmental justice and that in a democracy it is the people not the government that are ultimately responsible for fair use of the environment

Environmental Justice Kristin Sharon Shrader-Frechette, 2006 Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergeneration equality just compensation and moral heroism and then bringing them to bear on real world social issues Shrader Frechette shows how many of these core concepts have been compromised for a large segment of the global population among them Appalachians African Americans workers in hazardous jobs and indigenous people living in developing nations She argues that there are strong and compelling grounds for remedying our environmental problems and that burdens like pollution and resource depletion need to be apportioned more equally She also argues vehemently that not only do we have strong ethical grounds for remedying environmental problems but that these remedies need to involve the participation of those affected that all citizens have a duty to engage in activism an behalf of Environmental Justice and that in a democracy it is the people not the government that are ultimately and truly responsible for equitable and fair use of the environment Combining rigorous philosophical scholarship with a deep knowledge of actual problems in the environment and among the disenfranchised Environmental Justice is a new look at an old problem and will encourage debate among those concerned with both social and environmental justice

Environmental Justice Shrader-Frechette, Kristin Sharon Shrader-Frechette, 2002

Environmental Justice Steve Vanderheiden, 2017-03-02 This collection of scholarly articles takes as its subject matter discourses on environmental justice The concept emerged in recent decades as an important framing concept for a wide variety of environmental movements and objectives and has gained considerable currency due to the scope and normative force that its principles contain whether in legal political or philosophical applications This collection is an invaluable resource for researchers and scholars in this field given that the multiple theories and analyses of environmental justice are likely to remain central to the ongoing development of normative theorizing about the human role in the environment in the foreseeable future

Environmental Justice Gordon Walker, 2012-03-15 The book will provide readers with a wide ranging

and critical view of the evolving field of environmental justice scholarship and encourages careful thinking and analysis of what is at issue and provides a framework for understanding the claim making of environmental justice in spatial temporal and political context

The Routledge Handbook of Environmental Justice Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists

Environmental Inequalities Beyond Borders Joann Carmin, Julian Agyeman, 2011-04-04 Case studies demonstrate the spatial disconnect between global consumption and production and its effects on local environmental quality and human rights Multinational corporations often exploit natural resources or locate factories in poor countries far from the demand for the products and profits that result Developed countries also routinely dump hazardous materials and produce greenhouse gas emissions that have a disproportionate impact on developing countries This book investigates how these and other globalized practices exact high social and environmental costs as poor local communities are forced to cope with depleted resources pollution health problems and social and cultural disruption Case studies drawn from Africa Asia the Pacific Rim and Latin America critically assess how diverse types of global inequalities play out on local terrains These range from an assessment of the pros and cons of foreign investment in Fiji to an account of the work of transnational activists combating toxic waste disposal in Mozambique Taken together the chapters demonstrate the spatial disconnect between global consumption and production on the one hand and local environmental quality and human rights on the other The result is a rich perspective not only on the ways industries governments and consumption patterns may further entrench existing inequalities but also on how emerging networks and movements can foster institutional change and promote social

equality and environmental justice **Mapping Global Justice** Arnaud Kurze, Christopher K. Lamont, 2022-10-14 Persistent international conflicts increasing inequality in many regions of the world and acute environmental and climate related threats to humanity call for a better understanding of the processes and actors and tools available to face the challenges of achieving global justice This book offers a broad and multidisciplinary survey of global justice bridging the gap between theory and practice by connecting conceptual frameworks with a panoply of case studies and an in depth discussion of practical challenges Connecting these critical aspects to larger moral and ethical debates is essential for thinking about large abstract ideas and applying them directly to specific contexts Core content includes Key debates in global justice from across philosophy postcolonial studies political science sociology and criminology The origins of global justice and the development of the human rights agenda peacekeeping and post conflict studies Global poverty and sustainable development Global security and transnational crime Environmental justice public health and well being Rather than providing a blueprint for the practice of global justice this text problematizes efforts to cope with many justice related issues The pedagogical approach is designed to map the difficulties that exist between theory and praxis encourage critical thinking and fuel debates to help seek alternative solutions Bringing together perspectives from a wealth of disciplines this book is essential reading for courses on global justice across criminology sociology political science anthropology philosophy and law Managing Environmental Justice Dennis Pavlich, 2010 Environmental justice is the subtext of this collection of anxieties around the need for a sustainable future on Planet Earth Thinkers and scholars from a diversity of backgrounds reflect on what it means and how cultures must change to greet this future From Romania to Mexico Bosnia to Canada Sweden to California authors analyze and recount community experiences and expectations leading to justice for land sea air and wildlife The kind of ethical *weltanschauung* for a society in which this kind of justice is achievable is suggested The collection points to the myriad of single instance decisions that we must all make in living our daily lives whether in our homes workplaces or leisure time From good policies to sound management governments corporations and community based organizations will find prudent praxis from cover to cover **Multicultural America** Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is

multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors

Values and Technology Gabriel R. Ricci, 2017-09-08 In 1749 Jean Jacques Rousseau s Discourse on the Arts and Sciences surprised leading Enlightenment thinkers who had enthusiastically upheld the positive benefits of humanity s technological advance Voltaire who celebrated the ends of civilization mocked Rousseau s praise for an original creative state of nature in which man enjoyed an optimum level of freedom Given the unprecedented intrusion of technology into our lives the question raised by Rousseau s critique may be even more pertinent In this volume of Religion and Public Life contributors

address some of the challenges to conventional morality brought on by the technological augmentation of the social structure John Barker's essay explores how Luciano Floridi's philosophy of technology has complicated the conventional way of determining what ought to receive moral consideration Fani Zlatarova provides a practical guide for incorporating ethical components into teaching computer technology Grant Havers explores the controversies surrounding the biogenetic explosion through an examination of the competing philosophical perspectives and Christopher Vassilopoulos examines the science based justification for taking life Gabriel R Ricci looks at recent political history in the United States in order to highlight the sometimes uneasy relationship between science and social policy Volume 37 is a welcome addition to the acclaimed Religion and Public Life series
