Malin, Lori Peek, David N. Pellow, Xiaorui Huang, 2021-11-01 This handbook defines the contours of environmental sociology and invites readers to push boundaries in their exploration of this important subdiscipline It offers a comprehensive overview of the evolution of environmental sociology and its role in this era of intensified national and global environmental crises Its timely frameworks and high impact chapters will assist in navigating this moment of great environmental inequality and uncertainty The handbook brings together an outstanding group of scholars who have helped redefine the scope of environmental sociology and expand its reach and impact Their contributions speak to key themes of the subdiscipline inequality justice population social movements and health Chapter

topics include environmental demography food systems animals and the environment climate change disasters and much more The emphasis on public environmental sociology and the forward thinking approach of this collection is what sets this volume apart This handbook can serve as an introduction for students new to environmental sociology or as an insightful treatment that current experts can use to further their own research and publication It will leave readers with a strong understanding of environmental sociology and the motivation to apply it to their work

Local Consumption and Global Environmental Impacts Kuishuang Feng,Klaus Hubacek,Yang Yu,2019-08-13 This book describes how local consumption particularly in urban areas is increasingly met by global supply chains These supply chains often extend over large geographical distances and have greater global environmental impacts contributing to pollution climate change water scarcity and deforestation As consumption is increasingly met by globalized supply chains causing social economic and environmental impacts elsewhere consumption decisions can unknowingly contribute and reinforce global inequality and exploitation To account for the impacts of consumption and distribution of wealth we need to analyze global supply and value chains In this volume the authors provide an overview of key methods of analysis including Multi Regional Input Output analysis and Life Cycle Assessment Subsequent chapters connect local consumption to the global consequences of different environmental issues such as water and land use and stress greenhouse gases emissions and other forms of air pollution Each issue is addressed in an individual chapter including case studies from China U S and UK The book will be key reading for students taking courses in environmental sciences sustainability sciences ecological economies and geography

An Introduction to Environment, Society and Sustainability Helen Hazen,Paul Sutton,2024-10-07 This timely and innovative book delves into the complex interplay of human activities and natural limits in generating today s sustainability challenges By contrasting the pressures of growing populations with ecological footprints associated with consumption the volume navigates the contested terrain where human societies generate environmental impacts Adorned with illustrative figures examples and case studies throughout this book presents insightful analysis of ecological economic technological and social justice responses to the challenges faced by human civilization including land degradation climate change pollution and overexploitation of natural resources Many of these issues are wicked problems characterized by incomplete information multiple stakeholders and contested approaches to addressing them In simple terms sustainability issues are an interplay between population growth and rising consumption which are placing impossible demands on finite resources Potential solutions to the crisis are split between green growth approaches that emphasize technology and institutional capacity to guide economic growth in more sustainable ways and degrowth approaches that call for a fundamental rethinking of the way we structure society and generate value This book emerged from a student seminar where undergraduate and graduate students highlighted sustainability topics of concern helped consider their framing and then assisted with co writing several of the chapters The volume encourages readers to consider structural questions that underpin sustainability dilemmas and

begins with four theoretical frameworks for understanding sustainability issues ideas from the natural sciences the population consumption debate economic frameworks and ethical approaches It then uses a systems approach to apply these theoretical ideas to complex global systems such as the atmosphere oceans and agriculture This volume will be of pivotal interest to students scholars and academics in the fields of environmental studies environment and society human geography and environmental geography as well as those with an interest in these areas more generally **The Sustainable**

Development Strategy: Written and oral evidence Great Britain. Parliament. House of Commons. Environmental Audit Committee,2004 sustainable development Strategy Illusion or reality thirteenth report of session 2003 04 Vol 2 Written and oral Evidence Climate Crisis and Sustainable Solutions Narpinder Singh,S. Ananda Babu,2024-11-26 This contributed volume dives into the critical intersection of climate adaptation vulnerability to hazards and the imperative of decarbonization in fortifying global food and nutritional security This comprehensive exploration aims to shed light on the challenges our food systems face in the wake of climate change and the strategies required to ensure resilience and sustainability In the face of escalating climate challenges securing sustenance demands a comprehensive approach Climate adaptation becomes paramount as agricultural systems struggle with increased vulnerabilities to various hazards From extreme weather events to shifting precipitation patterns the agricultural landscape is under constant threat The decarbonization imperative emerges as a critical strategy addressing the dual goals of mitigating climate change and enhancing food and nutritional resilience By reducing carbon emissions and transitioning to sustainable practices we not only contribute to global climate goals but also fortify food systems against environmental shocks This integrated approach acknowledges the intricate connections between climate agriculture and nutrition emphasizing the urgency of concerted efforts to ensure a resilient and sustainable future for food production and consumption This book includes in depth case studies from different regions showcasing the diverse impacts of climate change on food systems This book will integrate insights from multiple disciplines such as environmental science agriculture policy studies and community engagement providing a more holistic understanding of the issues at hand It will serve as a valuable resource for students researchers and practitioners seeking in depth knowledge on these interconnected topics **ECKM 2021 22nd European Conference**

on Knowledge Management Dr Alexeis Garcia-Perez ,Professor Lyndon Simkin,2021-09-02 **Anthropological Approaches to Understanding Consumption Patterns and Consumer Behavior** Chkoniya, Valentina,Madsen, Ana Oliveira,Bukhrashvili, Paata,2020-04-03 Anthropology is a science specialized in the study of the past and present of societies especially the study of humans and human behavior The disciplines of anthropology and consumer research have long been separated however it is now believed that joining them will lead to a more profound knowledge and understanding of consumer behaviors and will lead to further understanding and predictions for the future Anthropological Approaches to Understanding Consumption Patterns and Consumer Behavior is a cutting edge research publication that examines an

From an Ethic of Sufficiency to its Policy and Practice in Late Capitalism Manu V. Mathai, Sylvia Lorek, Wolfgang Sachs, 2023-12-13 That the notion of sufficiency is essential for a good life is an idea that enjoys support across many ethical philosophical religious and cultural persuasions This notion reasserted

itself in the study of sustainability once modern society reluctantly took cognizance of the limited low entropy energy and matter available for human appropriation There is today therefore a general recognition of i e not necessarily wide agreement on the merits of or needs for notions of sufficiency as a species of environmentalism within secular communities In this context a critical question that invites our attention is how to effect sufficiency and in particular of dealing with the daunting challenge of injustice as well as questions of distribution within and between countries that it brings to attention Given sufficiency's original home as it were in tradition the modern world has tended to dismiss it or to plead to individual voluntary simplicity when faced with evidence asserting its necessity Sufficiency is also often written away as a spiritual problem The domain of ascetics and the religious How to habilitate sufficiency in a political economy for the secular modern facing its biggest existential challenge yet in the form of the environmental crisis Ecological Economics Research Trends Carolyn C. Pertsova, 2007 This new book presents important research in the field of ecological economics which is a trans disciplinary field of academic research that addresses the dynamic and spatial interdependence between human economies and natural ecosystems Ecological economics brings together and connects different disciplines within the natural and social sciences but especially between these broad areas Ecological economics presents a more pluralistic approach to the study of environmental problems and policy solutions characterised by systems perspectives adequate physical and biological contexts and a focus on long term environmental sustainability **Sustainable Development OECD Policy Approaches for the 21st Century** OECD, 1998-01-06 This publication provides an overview and analysis of trends in Sustainable Development and identifies policy gaps and trade offs that have been encountered and points to future options **Assessing the Environmental Effects of Trade Liberalisation Agreements Methodologies** OECD, 2000-02-11 This conference proceedings examines how to assess the environmental effects of trade liberalisation agreements **Implicating Empire** Stanley Aronowitz, 2002-12-18 Examines four key dimensions of globalism including its role in the war on terrorism its impact on domestic U S policy its influence on the shaping of national security and its own future in a collection of essays by top international commentators Original
