Meditation Swami Veda Bharati, 2011-02-03 Meditation is where art and science converge. It is a vision, an inspiration, and an intuition. It arrives on the screen of a visionary mind from sources within that are beyond calculations. Once it has arisen from within, we can then look at it and analyse its scientific dimensions. This book on meditation, a holistic piece encompassing its history, initiation, and actual practice, also describes how it is a powerful unifying tool for world religion. Enriched with author's scholarly depth, it is a must-read for everyone interested in unravelling the mystery of life. *The Enlightened Mind*

Vyner presents the findings of twenty-seven years of research spent interviewing Tibetan lamas about their experiences of the mind. The interviews have generated a science of stream of consciousness that demonstrates that the healthy human mind is the egoless mind, given the paradox that the egoless mind has an ego. Vyner presents this science and also shows his readers how to cultivate a healthy mind. *The Healthy Mind* features extensive interview excerpts, theoretical maps of the egoless and egocentric mind, discussions of the history of science and thought experiments that unpack the implications of his findings. This is a useful book for all those interested in the dialogue between Buddhism and psychology and in understanding the nature of the healthy mind.
