combined with Christianity Join us to change your life **Enneagram Theology** Rhenn Cherry, 2021-08-16 The enneagram has become popular among evangelical Christians as a spiritualized personality typology that claims to help people better understand themselves and others Several influential evangelical Christian leadership ministries have promoted the enneagram as a tool in forming and maintaining effective ministry teams and the personality typology is now taught and embraced at several Christian universities But uncertainty exists about the appropriateness of referring to the Enneagram as a Christian tool Are pastors and Christian institutional leaders aware of the theology associated with the Enneagram **Enneagram Theology Is It Christian** provides a biblical critique of the Enneagram's underlying theology and exposes not only its foundational theological contradictions with orthodox evangelical theology but also some potential dangers to the church

Enneagram is highly concordant with Christian thinking The Enneagram can help you to discover your strengths and weaknesses We all have areas in which we excel and areas which are more difficult The Enneagram is a tool which you can use to heighten your self awareness and prepare yourself in the journey We are all called to become aware of these strengths and weaknesses so that we can take a good hard look in the mirror and discover what we need to improve The Enneagram offers a way to think about these strengths and weaknesses without judgement and gives us a pathway to unlock meaning in our past present and future The Enneagram is a unique system in that it works well with many current schools of psychology while still maintaining spiritual relevance Some have described the Enneagram as a Psycho spiritual tool meaning that it is congruent with thinking in both the world of psychological study and in the world of faith You should read this book if you are interested in self discovery learning to be a better person getting along with others and becoming more emotionally intelligent This book along with other topics will cover A fast and accurate Enneagram personality test Ways to find your weaknesses and strengths How to deal with difficult situations with others Attributes of each type Examples of each type to further elucidate types Ways to communicate with each type Triads wings and subtypes Learning about yourself and others without judgement The spiritual value of the Enneagram THE ENNEAGRAM Learn the Enneagram to Help Yourself and Improve Your Relationships The enneagram is one of the methods of introspection widely used today It was developed at the beginning of the 20th century by the mystical philosopher George Gurdjieff and later developed in the 1960s by psychologist Claudio Naranho The Enneagram proved to be a clear way to present 9 types personality selected on the basis of careful observation of human behavior Our psychological and spiritual development is symbolically represented in it like a star with nine rays tendencies acting in each of us To determine the type prevailing in you you need to answer only one test question The method is based on the hypothesis that our personality is built around a single basic fear that comes from childhood Behind this apparent simplicity in reality many nuances are hidden we carry in ourselves the features of each of the personality types represented on the enneagram That is why some of us recognize ourselves to one degree or another in several portraits at once It should be borne in mind that the enneagram is not a way of classifying people or labeling so many psychologists do not use the names of personality types and prefer to limit themselves to numbers type 1 type 2 etc Also not all psychologists recognize the enneagram by the scientific method but in our opinion it is interesting to get to know it After working on yourself then you will be able to work on others around you and integrate into their lives to for a better society as a whole Sounds good All of these are pretty true and this book shows you that and more *The Enneagram Spectrum of Personality Styles 2E* Jerome Wagner, Ph.D., 2021-02-18 This is the best introductory book you will find on the Enneagram Wagner s guide is a clear and concise introduction to the Enneagram useful for personal exploration and as a teaching ID for workshop presenters and counselors This comprehensive book with charts exercises and bullet descriptions yields an experiential understanding of basic Enneagram principles such as Authentic values and their personality substitutes

Rediscovering You Craig Walker,2022-05-24 Who are you the Caterpillar asked Alice in Wonderland It s a question that many of us might ask ourselves What makes us grumpy one day and cheerful the next Why would some of us prefer to receive little love notes from our spouse rather than a back rub What makes some people behave like Energizer bunnies until they collapse In short what makes us tick Author Craig Walker sets out to put the puzzle pieces together in Rediscovering You He merges personality tests the Enneagram the Five Love Languages and the Word of God into one mosaic to provide you with a detailed and accurate self portrait so that you can see yourself as you truly are with all of your strengths weaknesses and complexities Decades of conducting counseling sessions taught me that self awareness is the single greatest leap forward to personal happiness and better relationships Craig says The Word of God personality Enneagram and love languages honestly answer the question Who are you Knowing that answer will change everything It

will create a ripple effect across all of your relationships Rediscovering You uses Scripture to address three areas Personality the way we operate day to day The Enneagram what motivates us to do what we do Love Languages how we give and receive love This book will speak to those who truly want to learn how to love others as they love themselves but first they must learn to love themselves as God sees them Craig says Taking a deep look into your personality the personalities of specific men and women throughout Scripture learning how you are truly meant to be loved and being honest with yourself will together build a beautiful and unique tapestry of your identity in Christ *The Soul of the Helper* Holly K. Oxhandler, 2022-02-28 There are many kinds of helpers in our world the caregivers among us They are the social workers who serve the vulnerable the nurses and doctors who treat the ill the teachers who instruct the young the first responders who rescue the imperiled the faith leaders who comfort the congregation the volunteers who support the community And whether or not it is our professional calling each of us is likely to serve as a caregiver at some point in our lives as a parent raising a child for instance or as a loved one caring for an aging relative These and many other efforts to serve are among the most noble pursuits we can imagine but they come with a danger worth recognizing In their devotion to the well being of others caregivers routinely put their own well being last and can unintentionally burn themselves out physically emotionally and spiritually Their self neglect paired alongside a deep desire to help others has the potential to stir up feelings of anger and resentment leading to a sense of guilt and shame They often believe that if they were to grant themselves any rest or grace they would be at risk of failing in their duty In *The Soul of the Helper* Dr Holly K Oxhandler shows caregivers and fellow helpers a more self compassionate way to cope with their overwhelming responsibilities and to attend to their own needs particularly when it comes to their mental health and spiritual journey She invites them to pause and realize that if they let their personal resources run dry they cannot possibly care for others as fully as they wish In fact their efforts are likely to cause more harm than good With a background in spiritually integrated mental health Dr Oxhandler teaches helpers a seven step process to slow down and reconnect with the stillness within themselves It is in this space of stillness that Oxhandler guides helpers to reconnect with the sacred spark within their soul By allowing themselves to enter that stillness caregivers will recognize that they too are worthy of care And with that realization they will see anew the sacred spark that dwells inside everyone else especially within those they re helping As a social worker researcher and person of faith Dr Oxhandler writes in a warm and welcoming style shares many relatable stories and widens her scope to include believers of all faiths and spiritual traditions Her book is for caregivers everywhere who sense the sacred spark within them saying in effect Come to me all you who are weary and burdened and I will give you rest **Forty Days on Being a One** Juanita Campbell Rasmus, 2021-05-04 Guided by her own life including experiences with exhaustion and depression Juanita Rasmus draws from the deep wells of counseling and spirituality to illuminate the journey of a One She shares the resources that have guided her to greater spiritual and emotional health Each of these forty daily reading concludes with a journaling prompt self affirmation or spiritual practice

Nature Nurture Nourish Will Cowell, 2022-08-11 I will share the inspirations that shape this story as a cosmology into a deeper reflection of what it is to choose our way and evolve continuously in nature nurture and nourishment moving from immense suffering through tremendous love and beyond with persistent presence These stories are in part a personal memoir a collection of incredible authors who came before me and a compassionate expedition exploring the past present and perennial All of which follow a soulful quest into self awareness and our potential for a fulfilled consciousness in becoming more aware awake alert and alive in the distinct dark and divine worlds we exist and play in I have come to better appreciate the natural world as the process of evolving and creating itself When I seek questions answers or wisdom ultimately I look for natural metaphors and signals in our common elements of nature space water fire air and earth The first source of wisdom is nature itself and that wisdom is perennial as it keeps evolving We will delve into the sacred space between all things as one of the common elements and is known in Japan as Ma and Sanskrit as Akash I am no saint as I have experimented with the three worlds in the divine dark and distinct I have strived to make the most balanced choices and I sometimes choose excess over temperance egoism over humility and agitation over patience When I am persistently present I can make more balanced choices and I do make them and then I do not suspire perspire and transpire The manuscript expands on the evolution of a vision I experienced while returning from my hermitage on the Pacific northwest coast A vision can be like the universe in that it is evolving through alchemical reactions of self creating atoms molecules and cells Words evolve in similar ways from letters sounds sentences and phrases into great stories and deeper more complex meanings and cosmologies Aldous Huxley said Experience is not what happens to a person it is what a person does with what happens to them He paved the way for inclusion and transcendence amongst all cultures and generations and it is because of his sharing stories that we can carry on the development and participation of perennial wisdom tradition philosophy and science Our appetites change over time tastes evolve and we hopefully come to better appreciate the company around our banquet table in the garden and beyond Engaging with others becomes more important than getting a full belly as we find simpler ways to experience nature nurture and nourishment I welcome all who are willing to share in hospitality and possibly even a good squabble We are never truly alone there are always realms of energy available to us for relationships in our communities There are unseen energies that help manifest our dreams call them conscious agents conscience angels or rascals the great news is that we get to choose which energy we participate with in a deliberate determined detailed destiny I am learning to choose chances for change participating and expanding in collective consciousness while seeking the meandering mystic
