**An Enquiry Concerning Human Understanding** David Hume, 1991-01-01 Moral philosophy or the science of human nature may be treated after two different manners each of which has its peculiar merit and may contribute to the entertainment instruction and reformation of mankind The one considers man chiefly as born for action and as influenced in his measures by taste and sentiment pursuing one object and avoiding another according to the value which these objects seem to possess and according to the light in which they present themselves As virtue of all objects is allowed to be the most valuable this species of philosophers paint her in the most amiable colours borrowing all helps from poetry and eloquence and treating their subject in an easy and obvious manner and such as is best fitted to please the imagination and engage the affections They select the most striking observations and instances from common life place opposite characters in a proper contrast and alluring us into the paths of virtue by the views of glory and happiness direct our steps in these paths by the soundest precepts and most illustrious examples They make us feel the difference between vice and virtue they excite and regulate our sentiments and so they can but bend our hearts to the love of probity and true honour they think that they have fully attained the end of all their labours The other species of philosophers consider man in the light of a reasonable rather than an active being and endeavour to form his understanding more than cultivate his manners They regard human nature as a subject of speculation and with a narrow scrutiny examine it in order to find those principles which regulate our understanding excite our sentiments and make us approve or blame any particular object action or behaviour They think it a reproach to all literature that philosophy should not yet have fixed beyond controversy the foundation of morals reasoning and criticism and should for ever talk of truth and falsehood vice and virtue beauty and deformity without being able to determine the source of these distinctions While they attempt this arduous task they are deterred by no difficulties but proceeding from particular instances to general principles they still push on their enquiries to principles more general and rest not satisfied till they arrive at those original principles by which in every science all human curiosity must be bounded Though their speculations seem abstract and even unintelligible to common readers they aim at the approbation of the learned and the wise and think themselves sufficiently compensated for the labour of their whole lives if they can discover some hidden truths which may contribute to the instruction of posterity

**An Enquiry concerning Human Understanding** David Hume, 2011-08-26 Over a series of elegantly written engaging essays the Enquiry examines the experiential and psychological sources of meaning and knowledge the foundations of reasoning about matters that lie beyond

the scope of our sensory experience and memory the nature of belief and the limitations of our knowledge The positions Hume takes on these topics have been described as paradigmatically empiricist sceptical and naturalist and have been widely influential and even more widely decried The introduction to this edition discusses the Enquiry's origin evolution and critical reception while appendices provide examples of contemporary responses to Hume

David Hume, 2018-04 Disappointed by the public reception to *A Treatise of Human Nature* published anonymously between 1739 and 1740 David Hume decided to produce a shorter more polemic version of that work nearly ten years later That revision which was published in 1748 would be entitled *An Enquiry Concerning Human Understanding* Dispensing with much of the extraneous material from the *Treatise* Hume focuses on his more vital propositions in the *Enquiry* Proceeding in incremental steps Hume discusses the following concepts The Different Species of Philosophy The Origin of Ideas The Association of Ideas Sceptical Doubts Concerning the Operations of the Understanding Sceptical Solution of These Doubts Probability The Idea of Necessary Connection Liberty and Necessity The Reason of Animals Miracles Of a Particular Providence and of a Future State and The Academical or Sceptical Philosophy Widely considered a classic of modern philosophical literature *An Enquiry Concerning Human Understanding* is Hume's theory of knowledge which would influence thinkers both in his time and for generations to come This edition is printed on premium acid free paper and includes an introduction by L A Selby Bigge

**An Enquiry Concerning Human Understanding** David Hume, 2021-03-13 *An Enquiry Concerning Human Understanding* is a book by the Scottish empiricist philosopher David Hume published in English in 1748 It was a revision of an earlier effort Hume's *A Treatise of Human Nature* published anonymously in London in 1739-40 The argument of the *Enquiry* proceeds by a series of incremental steps separated into chapters which logically succeed one another After expounding his epistemology Hume explains how to apply his principles to specific topics

**An Enquiry Concerning Human Understanding** David Hume, 2011-09-20 After his three volume *Treatise of Human Nature* dropped like a rock to the bottom of the pool of British

philosophic writing Hume set out to write a briefer more accessible version the Enquiry concerning Human Understanding One of the early points it makes is that most endeavors to write about the nature of thought are hopeless and nearly impossible to understand With that disclaimer Hume sets out to contradict himself by writing lucidly about while candidly acknowledging the severe limits of this topic He uses logic to show that most human understanding falls into two categories a very small group of innate truths deducible by logic like every triangle has three sides and a much larger group nearly everything we know which is based on reality based observation This latter group always has at a fundamental level an element of probabilistic assumption Things customarily happened this way before so they probably will again Thus almost everything we think we know about the world is based on empirical experience not pure logic A must read for anyone with even a passing interest in philosophy or modern thought An Enquiry Concerning Human Understanding is primarily concerned with the psychological question of the origin of our concepts About the answer to this question the empiricists were all agreed our concepts are furnished by experience which includes both sensory experience and introspection i e the experience of our own mental states

An Enquiry Concerning Human Understanding David Hume,1902-04-01 Hume begins by distinguishing between impressions and ideas Impressions are sensory impressions emotions and other vivid mental phenomena while ideas are thoughts or beliefs or memories related to these impressions We build up all our ideas from simple impressions by means of three laws of association resemblance contiguity and cause and effect

An Enquiry Concerning Human Understanding David Hume,2014 David Hume 1711 1776 is thought to be one of the greatest philosophers In this text Hume gives an accessible presentation of strikingly original and challenging views concerning human understanding
