**The Enthroned Christian** Frederick Julius Huegel, 2009      The Art of Empire Lee M. Jefferson, Robin M.

Jensen, 2015-10-01 In recent years art historians such as Johannes Deckers *Picturing the Bible* 2009 have argued for a significant transition in fourth and fifth century images of Jesus following the conversion of Constantine. Broadly speaking they perceive the image of a peaceful benevolent shepherd transformed into a powerful enthroned Jesus mimicking and mirroring the dominance and authority of the emperor. The powers of church and state are thus conveniently synthesized in such a potent image. This deeply rooted position assumes that ante-pacem images of Jesus were uniformly humble while post-Constantinian images exuded the grandeur of power and glory. *The Art of Empire* contends that the art and imagery of Late Antiquity merits a more nuanced understanding of the context of the imperial period before and after Constantine. The chapters in this collection each treat an aspect of the relationship between early Christian art and the rituals, practices or imagery of the Empire and offer a new and fresh perspective on the development of Christian art in its imperial background.

*Three Christian Capitals* Richard Krautheimer, 1983      **The Coptic Christian Heritage** Lois M. Farag, 2013-10-23 This book offers a comprehensive introduction to the heritage of Coptic Christians. The contributors combine academic expertise with intimate and practical knowledge of the Coptic Orthodox Church and Coptic heritage. The chapters explore historical, cultural, literary and material aspects including the history of Christianity in Egypt from the pre-Christian era to the modern day Coptic religious culture, theology, monasticism, spirituality, liturgy and music, the Coptic language, linguistic expressions of the Coptic heritage and literary production in Greek, Coptic and Arabic, material culture and artistic expression of the Copts from icons, mosaics and frescos to manuscript illuminations, woodwork and textiles. Students will find *The Coptic Christian Heritage* an invaluable introduction whilst scholars will find its breadth provides a helpful context for specialised research.

The Christian Advocate, 1903      **Romanesque Architecture and its Sculptural in Christian Spain, 1000-1120**

Janice Mann, 2009-04-08 The decades following the year 1000 marked a watershed in the history of the Iberian Peninsula when the balance of power shifted from Muslims to Christians. During this crucial period of religious and political change, Romanesque churches were constructed for the first time in Spain. *Romanesque Architecture and Its Sculptural Decoration in Christian Spain 1000-1120* examines how the financial patronage of newly empowered local rulers allowed Romanesque architecture and sculptural decoration to significantly redefine the cultural identities of those who lived in the frontier kingdoms of Christian Spain. Proceeding chronologically, Janice Mann studies the earliest Romanesque monuments constructed by Sancho el Mayor r. 1004-1035 and his wife, daughters and granddaughters as well as those that were built by Sancho Ram rez, king of Aragon 1064-1094. Mann examines groups of buildings constructed by particular patrons against the backdrop of changing social conditions and attitudes that resulted from increased influence from beyond the Pyrenees, the consolidation of royal power and intensified aggression against Muslims. An in-depth study of the rise of an architectural style.

this is the first book to examine early Romanesque architecture and sculpture of the Iberian Peninsula as it relates to frontier culture

*The Resurrection of Jesus* Dale C. Allison, Jr., 2021-03-11 The earliest traditions around the narrative of Jesus resurrection are considered in this landmark work by Dale C Allison Jr drawing together the fruits of his decades of research into this issue at the very core of Christian identity Allison returns to the ancient sources and earliest traditions charting them alongside the development of faith in the resurrection in

the early church and throughout Christian history Beginning with historical critical methodology that examines the empty tomb narratives and early confessions Allison moves on to consider the resurrection in parallel with other traditions and stories including Tibetan accounts of saintly figures being assumed into the light in the chapter Rainbow Body Finally Allison considers what might be said by way of results or conclusions on the topic of resurrection offering perspectives from both apologetic and sceptical viewpoints In his final section of modest results he considers scholarly approaches to the resurrection in light of human experience adding fresh nuance to a debate that has often been characterised in overly simplistic terms of it happened or it didn't

**Christ in Celtic Christianity** Michael W. Herren, Shirley Ann Brown, 2002 Interprets the nature of Christianity in Celtic Britain and Ireland from the 5th to the 10th cent based on written and visual evidence images of Christ in manuscripts metalwork and sculpture The strain of the Pelagianism in Britain in the early 5th century influenced the theology and practice of the Celtic monastic Churches on both sides of the Irish Sea making theological spectrum quite distinct from that of the continent

*The Crown of Thorns* Faith Tibble, 2025-03-20 Jesus Crown of Thorns has become one of the most ubiquitous features of Christian religious art but was the crown of history anything like the crown of popular medieval art and piety The image that springs to mind is that of a bloodied beaten Jesus wearing a cruelly fashioned woven crown made of sharp thorns But this image is deeply misleading based on a fundamental misunderstanding and mistranslation of the Gospels Faith C Tibble rectifies this misunderstanding showing how The Crown of Thorns underwent a yet unrecognized artistic evolution Tibble tracks the artistic progression of the Crown of Thorns from when it was first depicted in the 4th century until the 11th century when it begins to exhibit the artistic trends that are still recognizable today even in modern depictions in art and cinema Through doing so Tibble adds new perspective to our understanding of the ideologies associated with medieval Christianity victory humility perseverance and how those ideologies are exemplified in depictions of the Crown of Thorns Tibble demonstrates how a simple mistranslation led to a different understanding of the Gospels and an unexpected trajectory for European art with profound and unintended consequences

*Picturing Paul in Empire* Harry O. Maier, 2013-10-24 Pauline Christianity sprang to life in a world of imperial imagery In the streets and at the thoroughfares in the market places and on its public buildings and monuments and especially on its coins the Roman Empire's imperial iconographers displayed imagery that aimed to persuade the Empire's diverse and mostly illiterate inhabitants that Rome had a divinely appointed right to rule the world and to be honoured and celebrated for its dominion Harry O Maier places the later often contested letters and theology associated with Paul in the social and political context of the Roman Empire's visual culture of politics and persuasion to show how followers of the apostle visualized the reign of Christ in ways consistent with central themes of imperial iconography They drew on the Empire's picture language to celebrate the dominion and victory of the divine Son Jesus to persuade their audiences to honour his dominion with praise and thanksgiving Key to this imperial embrace were Colossians Ephesians and the Pastoral Epistles Yet these letters remain

neglected territory in consideration of engagement with and reflection of imperial political ideals and goals amongst Paul and his followers This book fills a gap in scholarly work on Paul and Empire by taking up each contested letter in turn to investigate how several of its main themes reflect motifs found in imperial images *Christian Science Sentinel* ,1914
