A Subject Index to Current Literature Australian Public Affairs Information Service, Law in Environmental **Decision-making** Tim Jewell, Jenny Steele, 1998 This collection of essays adopts a distinctive approach to environmental legal issues representing a variety of specializations ranging from public law to international law **Environment and Energy Security** Ruven Fleming, 2017-09-29 This pioneering and in depth study into the regulation of shale gas extraction examines how changes in the constitutional set ups of EU Member States over the last 25 years have substantially altered the legal leverage of environmental protection and energy security as state objectives As well as offering the first formal assessment of the legality of fracking bans and moratoria Ruven Fleming further proposes a new methodology for the development of legally sound regulation of new energy technologies in the context of the energy Principles of International Environmental Law Philippe Sands, 2003-10-09 This second edition of Philippe Sand transition s leading textbook on international environmental law provides a clear and authoritative introduction to the subject revised to December 2002 It considers relevant new topics including the Kyoto Protocol genetically modified organisms oil pollution chemicals etc and will remain the most comprehensive account of the principles and rules relating to environmental protection and the conservation of natural resources In addition to the key material from the 1992 Rio Declaration and subsequent developments Sands also covers topics including the legal and institutional framework the field s historic development and standards for general application This will continue to be an invaluable resource for both students and E-Cycling: Linking Trade and Environmental Law in the EC and the U.S. Harri practitioners alike Kalimo, 2006-06-20 Dr Kalimo s legal and policy analysis explores the phenomenon recycling throughout the entire product life cycle from the extraction of raw materials to the production and marketing of goods to the use of those goods and to the management of the resulting wastes In this light he shows how trade law interacts and can function within the demands and needs of the evolving environmental legal paradigm Overall the work provides more than one hundred examples of just how and when modern environmental and free trade law converge in the practical context of recycling of electronics such as mobile phones and personal computers in the internal markets of the EC and the U S E Cycling is an ideal text for anyone navigating the myriad legal issues surrounding environmental protection and free trade With holistic horizontal guidelines and innovative use of charts and figures the book will contribute to the effectiveness and coherence of public policy making on the environmental law trade law and constitutional law levels Published under the Transnational Publishers imprint

The Law of Environmental Damage Marie-Louise Larsson, 1999-03-02 From its starting point within international law throughout its progression from regional to national law The Law of Environmental Damage combines the disciplines of environmental law liability law and insurance in its analysis of the development of reparative environmental law In the model adopted three generations of reparative schemes are identified based on civil liability or administrative liability or self taken measures from the area of insurance The analysis applied is based on factors of standard and designation of liability as well

as the definition and assessment of environmental damage Issues such as environmental lender liability and damage to public natural resources are highlighted The results of the study are evaluated within the framework of a theory of environmental efficiency among other factors the reparative effect of liability rules is discussed Theory of International Law at the Threshold of the 21st Century Jerzy Makarczyk, 2023-09-14 Theory of International Law at the Threshold of the 21st Century is a remarkable book and is destined to become a standard work without which no International Law library will be complete The essays contained in this volume are written by the foremost experts and the topics have been chosen with the greatest care to reflect the most pressing current problems facing the world community The research and writing made available in this collection will be of enduring worth and will be studied and guoted for decades to come It follows in the finest traditions of the major collective works published by Martinus Nijhoff Kluwer Law International It is most appropriate that a remarkable book should be dedicated to a remarkable man and the editor of the volume Professor Jerzy Makarczyk has ensured that the choice of writers the choice of topics and the quality of the material do indeed honour one of the leading international lawyers of his generation Professor Krzysztof Skubiszewski Fourth Global Training Programme in Environmental Law ,1980-12-31 International Environmental Standards Handbook Scott S. Olson, 2020-02-10 Lack of knowledge about and noncompliance with international standards can result in loss of sales and partnership opportunities as well as possible legal action The International Environmental Standards Handbook provides the necessary historical background to understand the current status of international environmental standards It contains copies of available treaties and provides coverage of laws and standards The book offers strategies for designing and implementing environmental systems that will be internationally accepted It includes a list of information sources and a directory of international environmental organizations Irresolute Clay Richard Macrory Hon KC,2020-04-30 At a time of profound change and rethinking this book provides insights into how environmental law in the UK has developed into its current form and considers challenges it will face in the future Irresolute Clay is not a legal history or textbook nor a conventional set of legal memoirs Instead it offers a personal account of the inside stories as experienced by one of the key architects of contemporary environmental law Taking a thematic approach it charts fundamental tenets of the subject such as environmental sanctions the European dimension developing the academic discipline of environmental law and environmental courts and tribunals from the beginnings of the modern environmental law era in the 1970s to the present day **Agriculture and EU Environmental Law** Brian Jack, 2016-03-23 This book critically examines the development and current structure of European Union agri environmental measures at a substantive level Examining the measures in an integrated manner showing how they interrelate linking different aspects of European Union agricultural law and policy this volume examines the legislation adopted at European Union level as well as the impact of particular national measures to implement that legislation Where appropriate comparisons are drawn between the manner in which European Union legislation has been

implemented among various Member States Critically assessing European Union and national measures in the light of other policy pressures such as the influence of world trade agreements and the political pressures exerted by the agricultural sector within the national legal systems of individual Member States this volume is a valuable resource for academics researching and practitioners working in the areas of European Union environmental and agricultural law Industry, Ocean Governance and Environmental Law in the Paradigm Shift Tafsir Johansson, Patrick Donner, 2014-11-21 This book examines the corpus of status quo environmental legal regime geographical issues and redundant stakeholder claims which persist in the Arctic It examines multifarious theories relating not only to conflicting and opposing interests but also to parties to whom the shipping industry should be accountable The unique aspect of this book is the Corporate Social responsibility analysis pertaining to the Arctic and alternatives that strike a balance between the increased commercialization of the shipping industry and the laws and concepts of ocean governance. The book relevantly puts forward the concept of ocean governance and to what extent it can be addressed in terms of the Arctic What distinguishes this book from others is the fact that it is not limited to examining the effects of climate change and how it is reshaping the way scholars assume the Arctic will be in the near future Rather it creates a transparent nexus between opposing claims and increasing commercial interests and proceeds to scrutinize the efforts of the Arctic Council and individual Arctic coastal states In this context the book follows a given equation based on initial theories and how the opposing claims and increasing commercialization side of the equation can be balanced with the appropriate legal norm It also reflects on the critical aspects of hard law and soft law which are two opposite ends of the legal pole and core elements of any legal spectrum The book after reflecting on those two elements finally proposes a new Arctic legal regime which is intricate and detailed and is basically a hierarchy based on logic and reasoning In doing so it imports a pristine theory for a pristine territory

Environmental Law of Armed Conflict Nada Al-Duaij,2021-10-25 This timely study examines how the environmental impact of modern warfare violates fundamental principles of international environmental and humanitarian laws and why these consideration need to be included in rules of armed conflict If direct attacks on innocent civilians are universally recognized as unacceptable then environ mental devastation of their habitat by acts of war must also be recognized as an unacceptable consequence of armed conflict The author presents the case that the international community understand its responsibility to curb environ mental consequences of modern weaponry and incorporate environmental concerns into the conventions regulating armed conflict Published under the Transnational Publishers imprint Environmental Law Elizabeth Fisher, Bettina Lange, Eloise Scotford, 2019 Environmental Law Text Cases and Materials offers a comprehensive critical and case focused approach to the subject combining insightful author commentary with carefully selected extracts to fully support students Handbook of Environmental Law United Nations Environment Programme, 1997
