of Darkness      **Paul Tillich and the Possibility of Revelation through Film** Jonathan Brant, 2012-01-26 Since the birth of cinema at the end of the nineteenth century religion and film have been entwined The Jesus story and other religious narratives were the subject matter of some of the earliest cinema productions and this relationship has continued into the present A recent proliferation of texts conferences and courses bear witness to burgeoning academic interest in the relation between religion and film In this study Jonathan Brant explores the possibility that even films lacking religious subject matter might have a religious impact upon their viewers the possibility of revelation through film The book begins with a reading of Paul Tillich s theology of revelation through culture and continues with a qualitative research project which grounds this theoretical account in the experiences of a group of filmgoers The empirical research takes place in Latin America where the intellectual puzzle and central research questions that drive the thesis arose and developed Brant combines theoretical and empirical research in order to provide fresh insights into the way in which film functions and impacts its viewers and also offers an unusual perspective on the strengths and weaknesses of Tillich s theology of revelation which is seen to focus on the saving and healing power of revelation rather than its communicative content The grounding of the theory by the empirical data results in an increased appreciation of the sensitivity of Tillich s theology to the uniqueness of each film to viewer encounter and the data also suggests a new construal of the revelatory potential of film that is related to the community rather than the individual and to sustained life practice rather than momentary experience Brant reasons that Tillich s account is sensitive and compelling precisely because of its phenomenological attentiveness to real life experience notably Tillich s own experience of the power of art However Brant also suggests that it might be helpful to identify a stronger link than Tillich allows between the subject matter of the artwork the content of revelation and the effect of revelation      **Film** Maria Pramaggiore, Tom Wallis, 2008 *Film A Critical Introduction* 2e provides a comprehensive framework for studying films with an emphasis on writing as a means of exploring film s aesthetic and cultural significance This book s consistent and comprehensive focus on writing allows the reader to master film vocabulary and concepts while learning to formulate rich interpretations Part I introduces the reader to the importance of film analysis offering helpful strategies for discerning the way films produce meaning Part II examines the fundamental elements of film including narrative form mise en scene cinematography editing and sound and shows how these concepts can be used to interpret films Part III moves beyond textual analysis to explore film as a cultural institution and introduce the reader to essential areas of film studies research      **The English Literature Companion** Julian Wolfreys, 2017-09-16 What does it mean to study English Literature Have can you navigate and get the most from your degree The English Literature Companion is your comprehensive introduction to and exploration of the discipline of English and Literary Studies It is your advisor on key decisions and your one stop reference source throughout the course It combines A wide ranging introduction to the nature breadth and key components of the study of English Literature Essays by experts in the field on key topics periods and
