The Problem with Banks Lena Rethel, Timothy J. Sinclair, 2012-05-10 Banks of all sorts are troubled institutions The cost of public bail outs associated with the subprime crisis in the United States alone may be as high as US 5 trillion What is the problem with banks Why do they seem to be at the centre of economic and financial turmoil down through

the ages In this provocative and timely book Rethel and Sinclair seek answers to these questions arguing that banks suffer from perennial problems and that developments in the financial markets and government in recent decades have simply exacerbated these issues The book examines banking activity in America Asia and Europe and how specific historical circumstances have transformed banks behaviour and attitude to risk While many see government as a constraint on banks Sinclair and Rethel argue that what governments do in terms of regulation shapes banks and their motivations as can be seen in the shortcomings of current reform proposals Instead more far reaching alternative ways of regulating and shaping banks are needed A concise essential overview of a pressing global issue **The Power Problem** Christopher A. Preble, 2009 Preble explores the aims costs and limitations of the use of America s military power abroad
