Congress. Senate. Select Committee on Equal Educational Opportunity, 1970 *Budgeting, Policy, Politics* Naomi Caiden, Joseph White, Aaron Wildavsky was one of the most innovative and prolific scholars in the field of budgeting in our time His work spanned a period of more than forty years and its perspectives encompassed not only budgeting in the United States but also its comparative and historical dimensions As a leading political scientist his research also ranged into American political institutions public policy analysis leadership and biblical studies This book pays tribute to Aaron Wildavsky by explicating his life and work with emphasis on his contributions to the field of public budgeting and finance Larry Jones and Jerry McCaffery place Wildavsky's work within the context of previous work on budgeting They show how some of the highlights of his immense output responded to and shaped questions in the field Naomi Caiden reviews the way in which Wildavsky used budgeting as a window into other areas of

politics Richard Rose discusses how an American scholar became an internationally known one Joseph White goes back to the beginning of Aaron's career and shows that budgeting in agencies and in Congress is still incremental for very powerful reasons Allen Schick reviews the history of the federal budget process brilliantly summarizing how much has changed The festschrift poignantly assesses the significance and influence of Aaron Wildavsky's work It also includes some excerpts from Wildavsky's own writings in this area and experiences of those who collaborated with him In acknowledging Wildavsky's contributions to public budgeting and political science this book also makes an original contribution to the field It will be a necessary addition to the libraries of political scientists economists policymakers not to mention all those who admired Aaron Wildavsky and his work

**The Organization and Retrieval of Economic Knowledge** Elliot Perlman, 2019-06-10 This book is an outcome of the conference on The Organization and Retrieval of Economic Knowledge held in Kiel West Germany It focuses on the technology of the library industry and its uses for economic research and the economics of the library industry and its implication

*Budgeting* Aaron B. Wildavsky, 1986-01-01 In this completely revised edition of his classic work Aaron Wildavsky collects in one place the existing knowledge on budgeting Realistic budgets are an expression of practical politics Budgeting is so basic it reveals the norms by which men live in a particular political culture In dealing directly with the universe of governmental activity Wildavsky uses reliable accounts of how budgeting is carried on to capture a great deal of national political life The focus is explicitly comparative After developing a general theory of budgeting he analyzes four rich countries Britain France Japan and the United States followed by poor countries American cities and American states Wildavsky uses this analysis to develop and apply a cultural theory of budgeting explaining the degree of balance between revenue and expenditure why government grows in all industrial democracies and why there are still different rates of growth in spending He offers a critical evaluation of the first edition linking the ability of nations to make history and the various strategies of change they adopt to explain a wider range of budgetary processes
