Mann, Trevor Potter, 2004-05-26 In 2002 Congress enacted the Bipartisan Campaign Reform Act BCRA the first major revision of federal campaign finance law in a generation In March 2001 after a fiercely contested and highly divisive seven year partisan legislative battle the Senate passed S 27 known as the McCain Feingold legislation The House responded by passing H R 2356 companion legislation known as Shays Meehan in February 2002 The Senate then approved the House passed version and President George W Bush signed BCRA into law on March 27 2002 stating that the bill had flaws but overall improves the current system of financing for federal campaigns The Reform Act was taken to court within hours of the President s signature Dozens of interest groups and lawmakers who had opposed passage of the Act in Congress lodged complaints that challenged the constitutionality of virtually every aspect of the new law Following review by a special three judge panel the case is expected to reach the U S Supreme Court in 2003 This litigation constitutes the most important campaign finance case since the Supreme Court issued its decision in *Buckley v Valeo* more than twenty five years ago The testimony submitted by some of the country s most knowledgeable political scientists and most experienced politicians

Magleby,J. Quin Monson,2004-04-08 The 2002 midterm elections were noteworthy U S congressional campaigns for many reasons They marked the last national contests before implementation of the Bipartisan Campaign Reform Act BCRA and thus were expected by many to be the last hurrah for soft money These midterm campaigns provided a window on the activity of parties interest groups and political consultants on the eve of BCRA as they prepared to enter a new era of American elections The results of Campaign 2002 were remarkable As the party in power the Republicans defied history by gaining seats in both houses of Congress giving them a majority in the Senate To some degree this resulted from the GOP s new emphasis on ground war voter mobilization Another key was the unusually aggressive

support of the sitting president who leveraged his popularity to advance his party's candidates for Congress. *The Last Hurrah* analyzes the role of soft money and issue advocacy in the 2002 battle for Congress. Having been granted access to a number of campaign operations across a broad array of groups, David Magleby, Quin Monson, and their colleagues monitored and documented a number of competitive races, including the key South Dakota and Missouri Senate contests. Each case study breaks down the campaign communication in a particular race, including devices such as advertising, get-out-the-vote drives, soft money expenditures, and the increasingly influential role of the national parties on local races. They also discuss the overall trends of the midterm election of 2002, paying particular attention to the impact of President Bush and his political operation in candidate recruitment, fundraising, and campaign visits. Magleby and Monson consider an important question typically overlooked: How do voters caught in the middle of a hotly contested race deal with and react to a barrage of television and radio ads, direct mail, unsolicited phone calls, and other campaign communications? **The Making of the Presidential Candidates 2008** William G. Mayer, 2008. Discusses the presidential election process with eight chapters that cover such topics as how television covers the nomination process, the origins of the presidential selection process, and nomination finance in the post-Bipartisan Campaign Reform Act era. **The Money Primary** Michael J. Goff, 2005-10-13. The election years of 1988 and 2000 stand out among recent presidential nomination campaigns because they were two elections in which both major parties had open nomination contests. In this book, Michael J. Goff looks at the pre-candidacy and early candidacy periods of each of these election cycles and the decisive impact that the money primary had on both. His study confirms the pivotal importance of money and media coverage in a successful nomination bid and suggests the advent of yet a new period in the ever-evolving system of presidential selection.
