Heinemann,Antonette M. Zeiss,2012-12-06 The idea of teamwork in health care emerged at several times during the th 20 centuryas the resultofshifts in the nature and demandsofhealth care and societal needs Examples include medical and surgical teams serving the military in World War II primary care teams staffing Community Health Centers created by

President Johnson's War On Poverty and geriatric care teams established to serve the rapidly growing number of aging citizens Collaborative teamwork surfaced as a rational solution to health care needs but political and economic consensus to support widespread implementation was lacking The increasing complexity of providing health care seemed best served by the skills and efforts of interdisciplinary teams but such care was viewed as expensive so evaluation of its effectiveness became essential There were major problems in conducting such evaluation however First no clear theory guided the concept and practice of teamwork Early attempts to employ theoretical constructs explaining the behavioral and organizational phenomena of teamwork borrowed from theories of group dynamics communication organizational development and general systems Further few reliable validated instruments existed to evaluate team process function or effectiveness The best early efforts at research and evaluation came from academic centers funded by the Office of Interdisciplinary Programs of the Bureau of Health Professions 1975-78 and from the Veterans Affairs Interprofessional Team Training Development Program

Mauk,2022-03-29 The Fifth Edition of Gerontological Nursing takes a holistic approach and teaches students how to provide quality patient care for the older adult preparing them to effectively care for this population **The Oxford Handbook of Clinical Geropsychology** Nancy A. Pachana,Ken Laidlaw,2014-11-06

Throughout the world the population of older adults continues to grow The rise in geriatric populations has seen an increase in research on clinical diagnostic assessment and treatment issues aimed at this population Clinical geropsychologists have increased their interest both in providing mental health services as well as developing approaches to improve quality of life for all older adults The Oxford Handbook of Clinical Geropsychology is a landmark publication in this field providing broad and authoritative coverage of the research and practice issues in clinical geropsychology today as well as innovations

expanding the field's horizons. Comprising chapters from the foremost scholars in clinical geropsychology from around the world, the handbook captures the global proliferation of activity in this field. In addition to core sections on topics such as sources of psychological distress, assessment, diagnosis, and intervention, the handbook includes valuable chapters devoted to methodological issues such as longitudinal studies and meta-analyses in the field, as well as new and emerging issues such as technological innovations and social media use in older populations. Each chapter offers a review of the most pertinent international literature, outlining current issues as well as important cultural implications and key practice issues where relevant, and identifying possibilities for future research and policy applications. The book is essential to all psychology researchers, practitioners, educators, and students with an interest in the mental health of older adults. In addition, health professionals including psychiatrists, social workers, mental health nurses, and trainee geriatric mental health workers will find this an invaluable resource. Older adults comprise a growing percentage of the population worldwide. Clinical psychologists with an interest in older populations have increased the amount of research and applied knowledge about effectively improving mental health later in life, and this book captures that information on an international level. The book addresses how to diagnose, assess, and treat mental illness in older persons, as well as ways to improve quality of life in all older persons. It has a great breadth of coverage of the area, including chapters spanning how research is conducted to how new technologies such as virtual reality and social media are used with older people to improve mental health. The book would appeal to all psychology researchers, practitioners, educators, and students with an interest in the mental health of older adults. It would also appeal to other health professionals including psychiatrists, social workers, and mental health nurses who work with older people. It is a valuable resource for trainee geriatric mental health workers because it highlights key readings and important practice implications in the field.

### **Interprofessional Teamwork for Health and Social**

**Care** Scott Reeves, Simon Lewin, Sherry Espin, Merrick Zwarenstein, 2011-06-09 PROMOTING PARTNERSHIP FOR HEALTH

This book forms part of a series entitled Promoting Partnership for Health published in association with the UK Centre for the Advancement of Interprofessional Education (CAIPE). The series explores partnership for health from policy, practice, and educational perspectives. Whilst strongly advocating the imperative driving collaboration in healthcare, it adopts a pragmatic approach. Far from accepting established ideas and approaches, the series alerts readers to the pitfalls and ways to avoid them. **DESCRIPTION** Interprofessional Teamwork for Health and Social Care is an invaluable guide for clinicians, academics, managers, and policymakers who need to understand, implement, and evaluate interprofessional teamwork. It will give them a fuller understanding of how teams function, of the issues relating to the evaluation of teamwork, and of approaches to creating and implementing interventions, e.g., team training, quality improvement initiatives within health and social care settings. It will also raise awareness of the wide range of theories that can inform interprofessional teamwork. The book is divided into nine chapters. The first sets the scene by outlining some common issues which underpin interprofessional teamwork, while the

second discusses current teamwork developments around the globe Chapter 3 explores a range of team concepts and Chapter 4 offers a new framework for understanding interprofessional teamwork The next three chapters discuss how a range of range of social science theories interventions and evaluation approaches can be employed to advance this field Chapter 8 presents a synthesis of research into teams the authors have undertaken in Canada South Africa and the UK while the final chapter draws together key threads and offers ideas for future of teamwork The book also provides a range of resources for designing implementing and evaluating interprofessional teamwork activities     Advances in Patient Safety Kerm Henriksen,2005 v 1 Research findings v 2 Concepts and methodology v 3 Implementation issues v 4 Programs tools and products     *Patients in Peril* United States. Congress. Senate. Special Committee on Aging,2002     Geriatric Practice Audrey Chun,2019-10-29 This book serves as a comprehensive reference for the basic principles of caring for older adults directly corresponding to the key competencies for medical student and residents These competencies are covered in 10 sections each with chapters that target the skills and knowledge necessary for achieving competency Each of the 45 chapters follow a consistent format for ease of use beginning with an introduction to the associated competency and concluding with the most salient points for mastery Chapters also includes brief cases to provide context to the clinical reasoning behind the competency strengthening the core understanding necessary to physicians of the future Written by expert educators and clinicians in geriatric medicine Geriatric Practice is key resource for students in geriatric medicine family and internal medicine specialties hospice and nursing home training and all clinicians studying to work with aging patients
