Everyday Life in the German Book Trade Pamela E. Selwyn, 2010-11-17 In his popular book *The Germans* 1982 Stanford historian Gordon Craig remarked When German intellectuals at the end of the eighteenth century talked of living in a Frederician age they were sometimes referring not to the monarch in Sans Souci but to his namesake the Berlin bookseller Friedrich Nicolai Such was the importance attributed to Nicolai's role in the intellectual life of his age by his own contemporaries While long neglected by students of the period who tended to accept the caricature of him as a philistine who failed to recognize Goethe's genius Nicolai has experienced a resurgence of interest among scholars reexploring the German Enlightenment and the literary marketplace of the eighteenth century This book drawing upon Nicolai's large unpublished correspondence rounds out the picture we have of Nicolai already as author and critic by focusing on his roles as bookseller and publisher and as an Aufk rer in the book trade

The Novel Das Boot, Political Responsibility, and Germany's Nazi Past Dean J. Guarnaschelli, 2021-09-23 This study investigates the relationship between Lothar G nther Buchheim 1918 2007 his bestselling 1973 novel *Das Boot* The Boat and West Germany's Vergangenheitsbew ltigung As a war reporter during the Battle of the Atlantic Buchheim benefitted from distinct privileges yet he was never in a position of power Almost thirty years later Buchheim confronted the duality of his own past and railed against what he perceived to be a varnished public memory of the submarine campaign Michael Rothberg's theory of the implicated beneficiary is used as a lens to view Buchheim and this duality *Das Boot* has been retold by others worldwide because many people claim that the story bears an anti war message Wolfgang Petersen's critically acclaimed 1981 film and interpretations as a comedy sketch a theatrical play and a streamed television sequel have followed This trajectory of Buchheim's personal memory reflects a process that practitioners of memory studies have described as transnational memory formation Archival footage interviews and teaching materials reflect the relevance of *Das Boot* since its debut Given the debates that surrounded Buchheim's endeavors the question now raised is whether Germany's mastering the past serves as a model for other societies analyzing their own histories Sitting at the intersection of History Literature and Film Studies this is an unprecedented case study depicting how the pre and postwar times affected writers and others caught in the middle of the drama of the era

How Books Came to America John Hruschka, 2015-06-17 Anyone who pays attention to the popular press knows that

the new media will soon make books obsolete But predicting the imminent demise of the book is nothing new At the beginning of the twentieth century for example some critics predicted that the electro mechanical phonograph would soon make books obsolete Still despite the challenges of a century and a half of new media books remain popular with Americans purchasing more than eight million books each day In *How Books Came to America* John Hruschka traces the development of the American book trade from the moment of European contact with the Americas through the growth of regional book trades in the early English colonial cities to the more or less unified national book trade that emerged after the American Civil War and flourished in the twentieth century He examines the variety of technological historical cultural political and personal forces that shaped the American book trade paying particular attention to the contributions of the German bookseller Frederick Leypoldt and his journal *Publishers Weekly* Unlike many studies of the book business *How Books Came to America* is more concerned with business than it is with books Its focus is on how books are manufactured and sold rather than how they are written and read It is nevertheless the story of the people who created and influenced the book business in the colonies and the United States Famous names in the American book trade Benjamin Franklin Robert Hoe the Harpers Henry Holt and Melvil Dewey are joined by more obscure names like Joseph Glover Conrad Beissel and the aforementioned Frederick Leypoldt Together they made the American book trade the unique commercial institution it is today [The Publishers' Trade List Annual](#) ,1876 **International Book Publishing: An Encyclopedia** Philip G.
