On Literature J. Hillis Miller,2003-09-02 Debates rage over what kind of literature we should read what is good and bad literature and whether in the global digital age literature even has a future But what exactly is literature Why should we read literature How do we read literature These are some of the important questions J Hillis Miller answers in this beautifully written and passionate book He begins by asking what literature is arguing that the answer lies in literature's ability to create an imaginary world simply with words On Literature also asks the crucial question of why literature has such authority over us Returning to Plato Aristotle and the Bible Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories Above all On Literature is a plea that we continue to read and care about literature

Magic as a Political Crime in Medieval and Early Modern England Francis Young,2017-10-30 Treason and magic were first linked together during the reign of Edward II Theories of occult conspiracy then regularly led to major political scandals such as the trial of Eleanor Cobham Duchess of Gloucester in 1441 While accusations of magical treason against high ranking figures were indeed a staple of late medieval English power politics they acquired new significance at the Reformation when the superstition embodied by magic came to be associated with proscribed Catholic belief Francis Young here offers the first concerted historical analysis of allegations of the use of magic either to harm or kill the monarch or else manipulate the course of political events in England between the fourteenth century and the dawn of the Enlightenment His book addresses a subject usually either passed over or elided with witchcraft a quite different historical phenomenon He argues that while charges of treasonable magic certainly were used to destroy reputations or to ensure the convictions of undesirables magic was also perceived as a genuine threat by English governments into the Civil War era and beyond

Monstrous Fantasies Leila K. Norako, 2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's Canterbury Tales conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as Kingdom of Heaven and American Sniper

The Month, 1903 **On Literature** Joseph Hillis Miller, 2002 Beginning with the nature of literature this also asks the questions of why we should read literature and why literature has such authority over us This will be essential reading for any interested in the future of literature
