John Gunther Jay Pridmore, 1990 **Inside** Ken Cuthbertson, 1992 Inside Europe Today John Gunther, 1962 A survey of Europe in the early 60s examining the differences between the Europe of today and that of twenty five years ago and emphasizing the current political situation throughout the continent **Journalism's Roving Eye** John Maxwell Hamilton, 2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the

newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead **American Journalists in Hitler's Germany** Norman Domeier,2025 The first book to critically examine American journalists and media companies roles in Hitler s Germany reigniting the debate on the relationship between political power and the media Despite Hitler s international use of propaganda and despite the power of the US press historians have neglected American journalists activity in Nazi Germany American media companies expanded their presence in Germany after 1933 and the Associated Press AP conducted business with Hitler s regime throughout the war Norman Domeier s study now in English is the first to examine critically and in detail the roles of American journalists and media companies in Hitler s Germany showing that they knew about but kept secret the plans for rearmament the occupation of the Rhineland the annexation of Austria the invasions of Denmark Norway and the Soviet Union The book documents the companionship between Adolf Hitler and Karl Henry von Wiegand chief German correspondent of the Hearst press who was the first and last American to interview him Most important it details the secret exchange of news photographs discovered by Domeier in 2017 between the AP and the Nazis from 1942-45 Thousands of AP photos were used in the Nazi press usually with anti American or anti Semitic spin while the AP distributed ca 40 000 Nazi photographs to US newspapers Domeier s book reignites the debate on the relationship between political power and the media opening up new perspectives on the political and cultural history of journalism beyond one sided idealizations **The Mammoth Book of Journalism** Jon E. Lewis,2011-08-04 The newspaper has recorded and influenced modern history like nothing else on earth From The Washington Post s exposure of Watergate Tom Wolfe s 1960 s social documentary in The Electric Cool Aid Acid Test to Robert Fisk uncovering the slaughter at Chatila all the articles included here are reportage from the frontline of life These are the editorials that have changed our thinking and the criticisms that have penetrated most deeply into contemporary culture Most of all they offer a snapshot of these modern times The Rhetorical Presidency, Propaganda, and the Cold War, 1945-1955 Shawn J. Parry-Giles,2001-11-30 Both Truman and Eisenhower combined bully pulpit activity with presidentially directed messages voiced by surrogates whose words were as orchestrated by the administration as those delivered by the presidents themselves A Review of the private strategizing sessions concerning propaganda activity and the actual propaganda disseminated by the Truman and Eisenhower administrations reveals how they both militarized propaganda operations allowing the president of the United States to serve as the commander in chief of propaganda activity As the presidents minimized congressional control over propaganda operations they institutionalized propaganda as a presidential tool expanded the means by which they and their successors could perform the rhetorical presidency and increased presidential power over the country s Cold War message naturalizing the Cold War ideology that resonates yet today Of particular interest to scholars and students of political

communication the modern presidency and Cold War history Encyclopedia of journalism. 6. Appendices Christopher H. Spanning nearly the entirety of his journalistic career, these books include Personal History (1935), Not Peace but a Sword (1939), Between the Thunder and the Sun (1943), Lead Kindly Light (1949), and Nehru: The Years of Power (1960). Set in different world areas, the books illuminate events as disparate as the Rifian war, the Spanish Civil War, the infamous Munich pact, the Nazi bombing of London, and the assassination of Mahatma Gandhi. Sheean's books provide an in-depth personal look at these and related events. This book includes analysis of Sheean's works, finding that they have several prominent characteristics of literary journalism: stories and scenes, cohesive structure, lifelike characters, vivid description, well-crafted sentences, immersive reporting, among others.

The Rise of the Blogosphere Aaron Barlow, 2007-03-30. In 1985, The WELL, a dial-up discussion board, began with the phrase "You own your own words." Though almost everything else about online discussion has changed in the two decades since those words, they still describe its central premise, and this basic idea underlies both the power and the popularity of blogging today. Appropriately enough, it also describes American journalism as it existed a century and a half before. The WELL was organized before the concept of popular involvement in the press was nearly swept away on the rising tide of commercial and professional journalism. In this book, which is the first to provide readers with a cultural historical account of the blog as well as the first to analyze the different aspects of this growing phenomenon in terms of its past, Aaron Barlow provides lay readers with a thorough history and analysis of a truly democratic technology that is becoming more important to our lives every day. The current popularity of political blogs can be traced back to currents in American culture apparent even at the time of the Revolution. At that time, there was no distinct commercial and professional press; the newspapers then provided a much more direct outlet for the voices of the people. In the nineteenth century, as the press became more commercial, it moved away from its direct involvement with politics, taking on an observer stance, removing itself from the people as well as from politics. In the twentieth century, the press became increasingly professional, removing itself once more from the general populace. Americans, however, still longed to voice their opinions with the freedom that the press had once provided. Today, blogs are providing the means for doing just that.
