Embrace the sovereign life that beckons fertile fortifying and forever yours **Living Wage Movements** Deborah M. Figart, 2004-07-31 Living wage activism has spanned time and space reaching across decades and national boundaries Conditions generating living wage movements early in the twentieth century have resurfaced in the twenty first century only on a global scale sweated labour macroeconomic instability and job insecurity Upon reviewing the empirical evidence the book s contributors make strong cases both for and against living wage activism The effective blend of historical contemporary and global perspectives provides opportunities for teachers scholars and activists to evaluate how we can address low pay at the organizational and macroeconomic levels **The Growing Trend of Living Small** Ella Harris, Mel Nowicki, Tim White, 2023-01-31 This book examines the growing trend for housing models that shrink private living space and seeks to understand the implications of these shrinking domestic worlds Small spaces have become big business Reducing the size of our homes and the amount of stuff within them is increasingly sold as a catch all solution to the stresses of modern life and the need to reduce our carbon footprint Shrinking living space is being repackaged in a neoliberal capitalist context as a lifestyle choice rather than the consequence of diminishing choice in the face of what has become a long term housing crisis What does this mean for how we live in the long term and is there a dark side to the promise of a simpler more sustainable home life Shrinking Domesticities brings together research from across the social sciences planning and architecture to explore these issues From co living developments to the Tiny House Movement self storage units to practices of de stuffification and drawing on examples from across Europe North America and Australasia the authors of this volume seek to understand both what micro living is bringing to our societies and what it may be eroding **Living the 1.5 Degree Lifestyle** Lloyd Alter, 2021-09-14 Stop thinking about efficiency and start thinking about sufficiency Living the 1 5 Degree Lifestyle reveals the carbon cost of everything we do identifying where we can make big reductions while not sweating the small stuff The international scientific consensus is that we have less than a decade to drastically slash our collective carbon emissions to keep global heating to 1 5 degrees and avert catastrophe This means that many of us have to cut our individual carbon footprints by over 80% to 2 5 tonnes per person per year by 2030 But where to start Drawing on Lloyd Alter s journey to track his daily carbon emissions and live the 1 5 degree lifestyle coverage includes What it looks like to live a rich and truly green life From take out food to bikes and cars to your internet usage finding the big wins ignoring the trivial and spotting marketing ploys The invisible embodied carbon baked into everything we own and why electric cars aren t the answer How to start thinking about sufficiency rather than efficiency The roles of individuals versus governments and corporations Grounded in meticulous research and yet accessible to all Living the 1 5 Degree Lifestyle is a journey toward a life of quality over quantity and sufficiency over efficiency as we race to save our only home from catastrophic heating

Sustainable Living at the Centre for Alternative Technology Stephen Jacobs, 2022-10-27 This book presents a detailed exploration into the Centre for Alternative Technology CAT an enterprise concerned with finding and communicating

sustainable ways of living established in Wales in 1973 Playing a central role in the global green network this study examines CAT s history and context for creation its development over time and its wider influence in the progression of green ideas at the local national and international levels Based on original archival and ethnographic research this book provides the first in depth analysis of CAT and uses the case study to explore wider issues of sustainability and environmental communication It situates the Centre within current environmental and political discourse and emphasises the relevance and reach of CAT s practical solutions and creative educational programme These practical solutions to the destruction of the environment of human activity are increasingly vital in today s context of climate change loss of biodiversity and rising levels of pollution It debates the spectrum of attitudes between environmentalism and ecologism evident at CAT and in broader conversations surrounding sustainability Woven throughout the text the author makes clear what we can learn from CAT s almost 50 years of experiments and experiences from his first hand account of working at the site This will be a fascinating and revealing read for academics researchers students and practitioners interested in all aspects of sustainability and environmental issues

Aristotle on Political Community David J. Riesbeck,2016-08-02 Aristotle s claims that man is a political animal and that political community exists for the sake of living well have frequently been celebrated by thinkers of divergent political persuasions The details of his political philosophy however have often been regarded as outmoded contradictory or pernicious This book takes on the major problems that arise in attempting to understand how the central pieces of Aristotle s political thought fit together can a conception of politics that seems fundamentally inclusive and egalitarian be reconciled with a vision of justice that seems uncompromisingly hierarchical and authoritarian Riesbeck argues that Aristotle s ideas about the distinctive nature and value of political community political authority and political participation are coherent and consistent with his aristocratic standards of justice The result is a theory that while not free of problems remains a potentially fruitful resource for contemporary thinking about the persistent problems of political life [Simpler Living.](#)

[Compassionate Life](#) Michael Schut,2009-07 On its ten year anniversary of publication we are pleased to re issue this popular title Editor Michael Schut presents a rare collection of voices Henri Nouwen Cecile Andrews Richard Foster and others as they explore our use of money the practice of simplicity listening to our lives widening our circle of community and other topics at the core of how we live out our faith in our homes and workplaces A study guide is included [Living Whole Without a Better Half](#) Wendy Widder,2014 How to live happily ever after if your prince or princess never shows up There are more singles in and out of the church today than ever before Wendy Widder knows the struggles of being single from the inside out and she has something to say While there is no shortage of books about singlehood on the market Widder s approach is markedly different In *Living Whole Without a Better Half* readers study the character in Hebrews 11 Widder uses these Biblical examples to show readers how to embrace singleness as an abundant life and a God given gift not as an unfortunate stage they should move past as quickly as possible By examining the lives of biblical heroes such as Abraham Moses and Jacob she reveals that trying to bargain with God to follow our plans and timing often keeps us from appreciating the opportunities he places in our path Widder makes her case with wit and a wry humor that readers will appreciate and come back to again and again Now with updated statistics and a new preface *Living Whole Without a Better Half* includes study questions that make it a great Bible study or small group resource **Living Off the Land** Barrett

[Living within a Fair Share Ecological Footprint](#) Robert Vale, Brenda Vale, 2013-09-02

According to many authorities the impact of humanity on the earth is already overshooting the earth's capacity to supply humanity's needs This is an unsustainable position This book does not focus on the problem but on the solution by showing what it is like to live within a fair earth share ecological footprint The authors describe numerical methods used to calculate this concentrating on low or no cost behaviour change rather than on potentially expensive technological innovation They show what people need to do now in regions where their current lifestyle means they are living beyond their ecological means such as in Europe North America and Australasia The calculations focus on outcomes rather than on detailed discussion of the methods used The main objective is to show that living with a reduced ecological footprint is both possible and not so very different from the way most people currently live in the west The book clearly demonstrates that change in behaviour now will avoid some very challenging problems in the future The emphasis is on workable practical and sustainable solutions based on quantified research rather than on generalities about overall problems facing humanity
