McDermott,2018-07-16 Traditional valuation approaches are increasingly recognised as being insufficient to address the wicked valuation problems of the diverse peoples and groups that inhabit the globe from north south east to west This book demonstrates the limitations of science and in particular economics as the foundation on which valuations are traditionally based It demonstrates the importance of and provides justification for the personal cultural values and norms which underpin our assessment of value and the fact that these vary across the world In *Wicked Valuations* Michael McDermott develops a means of engaging with highly complex valuation problems His autoethnography provides a lens to draw on knowledge and experience from his 40 years in land valuation in Africa and the Asia Pacific while documentary analysis is used to draw in the views of other valuation practitioners and scholars who are becoming increasingly aware of the need to develop ways to adapt land valuation processes to the complexity of our contemporary landscapes *The Cybercities Reader* Stephen

Graham,2004 Providing the most comprehensive international and interdisciplinary analysis yet of the relationships between cities urban life and new technologies this informative book incorporates detailed discussions of cybercity history theory economic processes mobilities physical forms social and cultural worlds digital divides public domains strategies politics and futures The book includes coverage of post modern technoculture virtual reality and the body global city economies urban surveillance e commerce teleworking community informatics digital architecture urban technology strategies and the role of cities and new technologies in the war on terrorism The first interdisciplinary book to address the complex interrelationships between the use and application of electronic technologies and practices and processes of contemporary metropolitan life this key text adopts a uniquely international perspective Detailed case studies include virtual cities in Amsterdam Internet cabins in Lima back offices in Jamaica and smart highways in Melbourne An excellent teaching aid with part section and individual extract introductions this outstanding book provides an up to date snapshot of how policies for cities and cyberspaces are being combined across the world **Racing Cyberculture** Christopher L. McGahan,2013-10-31 *Racing Cyberculture* explores new media art that challenges the race blind myth of cyberspace The particular cultural workers whose productions are addressed are the performance and installation artist Guillermo Gomez Pena and Roberto Sifuentes the UK new media arts collective Mongrel the conceptual artists and composer Keith Obadike and the multimedia artist

Prema Murthy The author looks at how works by these artists bring forward questions of racial and cultural identity as they intersect with information technology **Discursive Pragmatics** Jan Zienkowski,Jan-Ola Östman,Jef Verschueren,2011 The

ten volumes of Handbook of Pragmatics Highlights focus on the most salient topics in the field of pragmatics thus dividing its wide interdisciplinary spectrum in a transparent and manageable way While the other volumes select specific philosophical cognitive grammatical social cultural variational or interactional angles this 8th volume focuses on theories and phenomena at the level of discourse but leaving aside conversational interaction It provides the reader with pragmatics oriented information on discourse analysis critical discourse analysis and critical linguistics as well as text linguistics and appraisal theory while introducing other specific approaches to discourse through concepts such as polyphony intertextuality genre and enunciation Furthermore topics such as public discourse narrative figures of speech cohesion and coherence pragmatic markers manipulation and humor are all dealt with in separate chapters The binding idea explained in the introduction is that discursive pragmatics may serve as a platform for a diversity of perspectives on discourse as they have emerged not only in the language sciences but also in the humanities and social sciences in general Public and Professional Writing A.

Surma,2005-02-09 This book offers something quite new an advanced textbook that considers professional writing as a negotiated process between writer and reader Arguing that ethics imagination and rhetoric are integral to professional writing praxis the book encourages students to look critically at various writing practices in a range of contexts A textbook for advanced undergraduates and postgraduates in Linguistics Communication Journalism and Media Studies *Perfecting Human Futures* J. Benjamin Hurlbut,Hava Tirosh-Samuelson,2016-02-22 Humans have always imagined better futures From the desire to overcome death to the aspiration to dominion over the world imaginations of the technological future reveal the commitments values and norms of those who construct them Today the human future is thrown into question by emerging technologies that promise radical control over human life and elicit corollary imaginations of human perfectibility This interdisciplinary volume assembles scholars of science and technology studies sociology philosophy theology ethics and history to examine imaginations of technological progress that promises to transcend the constraints of human body and being Attending in particular to transhumanist and posthumanist visions the volume breaks new ground by exploring their utopian and eschatological dimensions and situating them within a broader context of ideas institutions and practices of innovation The volume invites specialists and general readers to explore the stakes of contemporary imaginations of technological innovation as a source of progress a force of social and historical transformation and as the defining essence of human life *Reclaiming Democracy* Albena Azmanova,Mihaela Mihai,2015-03-02 Democracy is in shambles economically and politically The recent economic meltdown in Europe and the U S has substituted democratic deliberation with technocratic decisions In Athens Madrid Lisbon New York Pittsburgh or Istanbul protesters have denounced the incapacity and unwillingness of elected officials to heed to their voices While the diagnosis of our political economic illness has been established remedies are hard to come What can we do to restore our broken democracy Which modes of political participation are likely to have an impact And what are the loci of political innovation in the wake of the crisis It is with these

questions that Reclaiming Democracy engages We argue that the managerial approach to solving the crisis violates a right to politics that is a right that our collective life be guided by meaningful politics by discussion of and decision among genuinely alternative principles and policies The contributors to this volume are united in their commitment to explore how and where this right can be affirmed in a way that resuscitates democracy in the wake of the crisis Mixing theoretical reflection and empirical analysis the book offers fresh insights into democracy s current conundrum and makes concrete proposals about how the right to politics can be protected
