Waterhouse, 2015-11-24 Lobbying America tells the story of the political mobilization of American business in the 1970s and 1980s Benjamin Waterhouse traces the rise and ultimate fragmentation of a broad based effort to unify the business community and promote a fiscally conservative antiregulatory and market oriented policy agenda to Congress and the country at large Arguing that business s political involvement was historically distinctive during this period Waterhouse illustrates the changing power and goals of America s top corporate leaders Examining the rise of the Business Roundtable and the revitalization of older business associations such as the National Association of Manufacturers and the U S Chamber of Commerce Waterhouse takes readers inside the mind set of the powerful CEOs who responded to the crises of inflation recession and declining industrial productivity by organizing an effective and disciplined lobbying force By the mid 1970s that coalition transformed the economic power of the capitalist class into a broad reaching political movement with real policy consequences Ironically the cohesion that characterized organized business failed to survive the ascent of conservative politics during the 1980s and many of the coalition s top goals on regulatory and fiscal policies remained unfulfilled The industrial CEOs who fancied themselves the voice of business found themselves one voice among many vying for influence in an increasingly turbulent and unsettled economic landscape Complicating assumptions that wealthy business leaders naturally get their way in Washington Lobbying America shows how economic and political powers interact in the American democratic system Corporate versus National Interest in US Trade Policy Richard L. Bernal, 2020-10-31 This book provides a history of the WTO US EU banana dispute through the lens of a major actor the US owned multinational firm Chiquita Brands International It documents and explains how Chiquita succeeded in having the Clinton administration pursue a trade policy of forcing the European Union to dismantle its

preferential banana import regime for exports from the small English speaking Caribbean ESC countries The export of bananas was critically important to the social stability and economic viability of these countries and that was in the national security interest of the United States The experience indicates that succeeding in this goal was detrimental to U S national security interest in the Caribbean

The Influence of Small States on Superpowers Richard L. Bernal, 2015-07-22 The conventional wisdom is that small developing countries exert limited if any influence on the foreign policy of superpowers in particular the United States This book challenges that premise based on the experience of the small developing country of Jamaica and its relations with the United States It raises the question if the foreign policy of the United States can be influenced by even a small developing country should Washington be worried

Lobbying the New President Heath Brown, 2013-05-02 Presidential transitions offer the chance for new ideas policies and people to inhabit the White House Transitions have triggered policy change for decades and eager interest groups have sought ways to capitalize on this often chaotic phase of US politics President Elect Barack Obama declared that lobbyists would be forbidden from serving his transition and issued stiff regulations and rules to limit their access to the planning for his White House Yet even though Obama s efforts mirror previous Presidents anti lobbyist efforts all Presidential transitions provide certain channels of influence and Obama himself chose the head of a powerful and politically oriented think tank the Center for American Progress to run his transition New Presidents need the information ideas and political capital that groups possess Thus a curious paradox Using an innovative mixed methodology integrating a historical analysis of original documents original interviews with over 40 interest group leaders and transition leaders a survey of 300 interest groups and content analysis of 300 interest group letters Lobbying the New President uncovers the politics of interest group influence during Presidential transitions In doing so Heath Brown asks Was the role played by Heritage in 1980 and CAP in 2008 indicative of a pattern of influence during the transition phase Or have Presidents effectively shielded themselves from outside influence at the earliest point of their time in office What can we learn about the larger study of interest groups and the Presidency from a focus on the transition phase This book is a valuable resource that goes beyond the field of presidency studies which American politics scholars as well as public policy specialists should not go without
