Local Literacies:

Local Literacies David Barton, Mary Hamilton, 1998 *Local Literacies* is a unique study of everyday reading and writing. By concentrating on a selection of people in a particular community in Britain, the authors analyze how they use literacy in their day-to-day lives. This exploration provides a description of literacy at one point in time and also reveals the nature and significance of communication to people, households, and communities. *Local Literacies* is the first in-depth study of literacy; it includes appendices of raw data, notes for teachers and students on how to use the book, and guidance for carrying out individual research. *Local Literacies* is both a theoretical work and a practical book. It provides stimulating and informative reading for anyone interested in the nature of literacy today, particularly students, teachers, and researchers.

Local Literacies Glenys Waters, 1998 Details how to plan and carry out a community literacy project, including tackling the additional barriers of language, culture, and logistics in developing countries. A must for the pioneering literacy worker.

Local Literacies David Barton, Mary Hamilton, 2012-11-12 *Local Literacies* is a unique study of everyday reading and writing. By concentrating on a selection of people in a particular community in Britain, the authors analyze how they use literacy in their day-to-day lives.

Radicalizing Literacies and Language Alexandra Babino, Mary Amanda Stewart, 2020-10-26 This book names and confounds the mono/mainstream assumption that invisibly frames much research: the ideologies that normalize monolingualism, monoculturalism, monoliteracy, mononationalism, and/or monomodal ways of knowing. In its place, the authors propose multi and trans lenses of these phenomena, steeped in a raciolinguistic perspective on Bourdieu's reflexive sociology, to move toward a more accurate multidimensional view of racialized peoples' literacy and language practices. To achieve this, they first engage in a comprehensive review of literacies, language, and a critical sociocultural framework. Then, the distinct testimonios of four women underscore this framework in practice, followed by action steps for research, policy, and pedagogy. This book will be of particular interest to literacy and language education researchers.

Indigenous Literacies in the Americas Nancy H. Hornberger, 2012-10-25 *CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE* brings to students, researchers, and practitioners in all of the social and language-related sciences carefully selected, book-length publications dealing with sociolinguistic theory, methods, findings, and applications. It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians, etc. to the development of the sociology of language.

our claims to know the people we research In many cases the process of revisiting led to important reconceptualizations of the earlier work and a sense of seeing with new eyes what was missed in the past The reflections on methodology and research processes will interest postgraduate and academic researchers The studies of change and of long term effects are widely relevant to teacher educators and scholars in language and literacy education educational anthropology life history research media and cultural studies and sociology The Future of Literacy Studies M.
