Enquiry Concerning The Principles Of Morals An:

An Enquiry Concerning the Principles of Morals David Hume, 2019-11-19 In *An Enquiry Concerning the Principles of Morals* David Hume delivers a profound investigation into the nature of morality seeking to uncover the foundation of our ethical beliefs. Employing a clear and systematic literary style, Hume adeptly integrates empirical observation with philosophical analysis, arguing that moral judgments stem from human sentiments rather than divine commands or rational deduction. The work is framed within the broader context of the Scottish Enlightenment, reflecting Hume's engagement with contemporary philosophical debates, particularly those concerning reason, emotions, and the social contract. David Hume (1711-1776), a luminary of Enlightenment thought, was profoundly influenced by the intellectual currents of his time, including skepticism about religion and the emphasis on human experience. His background as a historian and essayist enriched his philosophical inquiries, particularly regarding how human customs and interactions shape moral principles. Hume's exploration of the connection between feelings and ethical judgments is indicative of his larger epistemological framework, which challenges the primacy of reason in moral philosophy. This book is essential for anyone seeking to understand the complexities of moral reasoning. Hume's elegant prose and insightful arguments make it accessible and engaging for both scholars and general readers. By examining the interplay between sentiment, reason, and morality, Hume compels us to reconsider our own moral frameworks and the foundations upon which they stand.

An Enquiry Concerning the Principles of Morals David Hume, 1960-01-01 DISPUTES with men pertinaciously obstinate in their principles are of all others the most irksome, except perhaps those with persons entirely disingenuous who really do not believe the opinions they defend but engage in the controversy from affectation, from a spirit of opposition, or from a desire of showing wit and ingenuity superior to the rest of mankind. The same blind adherence to their own arguments is to be expected in both the same contempt of their antagonists and the same passionate vehemence in enforcing sophistry and falsehood. And as reasoning is not the source whence either disputant derives his tenets, it is in vain to expect that any logic which speaks not to the affections will ever engage him to embrace sounder principles. Those who have denied the reality of moral distinctions may be ranked among the disingenuous disputants; nor is it conceivable that any human creature could ever seriously believe that all characters and actions were alike entitled to the affection and regard of everyone. The difference which nature has placed between one man and another is so wide, and this difference is still so much farther widened by education, example, and habit, that where the opposite extremes come at once under our apprehension, there is no scepticism so scrupulous and scarce any assurance so determined as absolutely to deny all distinction between them. Let a man's insensibility be ever so great, he must often be touched with the images of Right and Wrong, and let his prejudices be ever so obstinate, he must observe that others are susceptible of like impressions. The only way therefore of converting an antagonist of this kind is to leave him to himself. For finding that nobody keeps up the controversy with him, it is probable he will at last of himself from mere weariness come over
