British Admiral Jacky Fisher the professional master of the British Navy and the creator of the enormous battleships known as Dreadnoughts Upon these Titans at the Admiralty rested British command of the sea at the moment of its supreme test the challenge presented by the Kaiser's navy under the dangerous Admiral Alfred von Tirpitz Churchill and Fisher had vision genius and energy but the war unfolded in unexpected ways There were no Trafalgars no Nelsons Press and Parliament became battlegrounds for a public expecting decisive victory at sea An ill fated Dardanelles adventure by ships alone as Churchill determined on top of the Zeppelin raids on Britain brought about Fisher's departure from the Admiralty in turn bringing down Churchill They spent the balance of the war in the virtual wilderness This dual biography based on fresh and thorough appraisal of the Churchill and Fisher papers is a story for any military history buff It is about Churchill's and Fisher's war how each fought it how they waged it together and how they fought against each other face to face or behind the scenes It reveals a strange and unique pairing of sea lords who found themselves facing Armageddon and seeking to maintain the primacy of the Royal Navy the guardian of trade the succour of the British peoples and the shield of Empire

The Language of Silence Leslie Kane, 1984 Examining the plays of Maeterlinck Chekhov Jean Jacques Bernard Pinter Albee and Beckett this critical study exhibits the eloquence with which silence and inarticulateness portray the experience of inadequacy incompleteness impermanence and uncertainty in early twentieth century drama Moving on to post World War II drama the author explores the use of noneloquent speech and silence to convey the alienation and isolation engendered by the rise of political humanity

Professionalism in the Information and Communication Technology Industry John Weckert, Richard Lucas, 2013-10-15 Professionalism is arguably more important in some occupations than in others It is vital in some because of the life and death decisions that must be made for example in medicine In others the rapidly changing nature of the occupation makes efficient regulation difficult and so the professional behaviour of the practitioners is central to the good functioning of that occupation The core idea behind this book is that Information and Communication Technology ICT is changing so quickly that professional behaviour of its practitioners is vital because regulation will always lag behind
